STATE OF IDAHO }
County of Bonneville } ss.

I, E. F. McDermott, being first duly sworn, depose and say: That I am the Principal Clerk of the Post Company, a corporation of Idaho Falls, Bonneville County, Idaho, publisher of The Post-Register, a newspaper of general circulation, published daily, except Saturday, at Idaho Falls, in Bonneville County, Idaho, and that said newspaper has been published continuously and uninterruptedly for more than four (4) years up to and including the last publication of the notice hereinafter referred to.

Affiant further says that the said newspaper, prior to the date of the first publication of said notice, as hereinafter stated, did designate a particular day of the week as the day on which legal notices, required by law or by order of any Court of competent jurisdiction within the State to be published weekly, would be published, and that since prior to the date of the first publication of said notice, as hereinafter stated, said newspaper has at the head of the editorial column of said paper and in each issue thereof announced the day of the week on which such legal notices required by law or by order of any Court of competent jurisdiction to be published weekly would be published, and that such day so designated was and is the Sunday issue or edition of said newspaper of each week.

Affiant further says that the notice, of which a copy is hereto attached and made a part of this affidavit, was published in said The Post-Register in the Sunday edition or issue of said newspaper for four consecutive weeks, the first publication having been made in the Sunday issue of said newspaper on the 3rd day of March, 1968, and that said notice was thereafter published in each Sunday issue of said newspaper as follows:

On Sunday the 10th day of March, 1968.
and on Sunday the 17th day of March, 1968.
and on Sunday the 24th day of March, 1968.
and on Sunday the _____ day of _____, 19____.
and on Sunday the _____ day of _____, 19____.
and on Sunday the _____ day of _____, 19____.
and that said notice was published in the regular and entire issue of said newspaper on the said respective dates of publication, and that such notice was published in the newspaper and not in any supplement issue thereof.

Subscribed in my presence and sworn to before me this 25th day of March, 1968.

CONDITIONS OF PURCHASE UNLESS OTHERWISE SPECIFIED

Goods subject to our inspection and approval on arrival, notwithstanding prior payment to obtain cash discount.

Goods rejected on account of inferior quality or workmanship will be returned to you with charge for transportation both ways, plus labor reloading, trucking, etc., and may not be replaced except upon receipt of written instructions from us.

Seller guarantees and agrees that the goods, wares, and merchandise to be furnished hereunder, will not infringe any patents or trade-marks, and that Seller will at Seller's own expense, defend any and all actions or suits alleging such infringement and will save us, our associates and affiliates, and those for whom we may act as agents in the purchase of said goods, wares and merchandise, harmless in cases of such infringement.

Your acceptance of this order constitutes an agreement on your part, guaranteeing that all materials furnished pursuant to this order will strictly comply in every respect with all Federal laws and all State laws and regulations of all Cities and Counties, and that you will defend this City against all actions and proceedings and will indemnify it against all costs, fines, judgments, damages, and legal expenses incurred by reason of the violation of such laws and ordinances or against any action brought by any person for injury, illness or death caused by or resulting from the equipment or materials being defective in any respect.

All specifications, drawings, technical information or data furnished by the Buyer to the Seller hereunder shall be used only in the manufacture of material furnished to the Buyer.

It is mutually agreed that time shall be of the essence of this order.

The Buyer shall not be bound by any provisions at variance with this Purchase Order inserted by the Seller on the attached Acknowledgment Copy or appearing on any other acknowledgment form, unless agreed to in writing by the Buyer.

Prices for the items hereunder shall include State, Local Sales and Use Taxes, where applicable.

By accepting this order the Seller warrants that the material to be furnished hereunder will be in full conformity with the specifications, drawings or samples, and agrees that this warranty shall survive acceptance of and payment for the material. The Buyer in addition to other rights may accept a part of any shipment which fulfills the specifications and reject the balance. Rejected material shall be returnable to the Seller for full credit at the price charged, plus transportation charges. The Buyer may have rejected material replaced by the Seller or not at the Buyer's option and at the purchase price stipulated in the order. If this order covers materials that are required by law to be packaged, labeled or registered in a prescribed manner (e.g. - foods, combustibles, drugs, fabrics and others), the Seller hereby warrants that shipments to the Buyer will be in compliance with the Federal law irrespective of whether the Seller's shipment to the Buyer is interstate or intrastate and the applicable state law.

The Seller shall not without the Buyer's consent assign this order in whole or in part with respect to work to be done. No assignment of accounts receivable under this order shall preclude the Seller from negotiating directly with the Buyer amendments to or settlements of this order or impose on the Buyer any obligation toward the assignee other than for the payment of money due.

The Buyer may terminate work under this order in whole or in part at any time by written or telegraphic notice and thereupon the Seller shall as and to the extent directed by the Buyer stop work under this order. As compensation to the Seller for such termination, the Buyer shall pay to the Seller the contract price for all articles or services completed in accordance with this order plus (1) the actual costs incurred by the Seller and properly allocable to the terminated portion of this order less the disposal value of work in process and unused materials, if any, included in such costs, and (2) a percentage of such costs (before crediting said disposal value), such percentage to be equal to the profit factor (percentage) included in the contract price.

Seller certifies and warrants that the product furnished under this purchase order contains no food additive, as defined by the food additive amendment to the Federal Food Drug and Cosmetic Act or, if it contains such food additive, that such additive has been approved by the F.D.A. for use in

foods. The date of such F.D.A. approval was _____

Dear Don:

Regarding the above-referenced permits and licenses, I have reviewed our files and the data transmitted by Mr. Evans' letter of May 8, 1970, and Water System Plan, Idaho Falls, Idaho, prepared by Cornell, Howland, Hayes and Merryfield (CH₂M). We now have in our files three letters stating the amount of water pumped by the City in 1968; however, each letter lists a different amount, each of which is different from the quantity indicated in the CH₂M report. For the purposes of licensing, I am assuming that the figure in Mr. Evans' May 8 letter to be correct.

The CH₂M report indicates the city system is essentially at capacity during peak periods and will require additional capacity to meet future demand. Considering this and the possibility of obtaining a higher use by encouraging off peak use by large users, I have determined that the following quantity can be licensed under the referenced permits:

Water pumped 1969	6,380,000,000 gallons	19,600 acre feet
Addition system capacity	<u>192,000,000</u> gallons	<u>600</u> acre feet
Total License	6,572,000,000 gallons	20,200 acre feet

The Department is ready to license Permit No. 25-2142 for 50.2 c.f.s. and Permit No. 25-2143 for 17.1 c.f.s., subject to a total annual volume withdrawal of 20,200 acre feet under these two permits and license numbers 25-2095 and 35-7001.

25-2143/G-31141 2) 58.7
License Nos. 25-2095/16689
35-7001

Dear Mr. Lloyd:

Mr. Evans' letters of February 11 and March 6, 1970 questioned the volume of water to be licensed under the above permits, and fees required.

The flow values are actual quantities as shown on our Examiner's Report of October 9, 1969, which was made in the company of Mr. Leroy Weston, representing the City and from licensed values for 25-2095 and 35-7001. They are as follows:

Permit No. 25-2142	50.2 c.f.s.
Permit No. 25-2143	17.1 c.f.s.
License No. 25-2095	5.2 c.f.s.
License No. 35-7001	8.9 c.f.s.
TOTAL	81.4 c.f.s.

Because the City of Idaho Falls relies upon the groundwater basin as a partial source of storage, the peak hour demand pumping rate is high. Considering this, the following values have been used to obtain a coefficient for volume determination.

Peak hour demand = discharge capacity of pumps
Peak hour demand = 1.75 times peak day rate
Peak day demand = 2.3 times average annual daily demand

therefore,

Discharge capacity of pumps = 4.0 times average annual daily demand

The department is ready to license Permit No. 25-2142 for 50.2 c.f.s. and Permit No. 25-2143 for 17.1 c.f.s., subject to a total volume withdrawal of 14,710 a.f. under these two permits and license numbers 25-2095 and 35-7001.

The fees as shown in our January 27, 1970 letter of \$17.00 for Permit No. 25-2142 and \$7.20 for Permit No. 25-2143 are based on the fee as defined in the code at the time of filing your applications and they are correct. We have omitted an additional fee required because we combined two inspections into one. These fees must be received within 30 days from the date of this letter, in order that we can issue you a water license on the above two permits.

Sincerely,

A. KENNETH DUNN, Assistant

Dear Sirs:

A representative of this department has made an examination of the works covered by your Permit 25-2142 and has found the following:

Quantity of water diverted: 49.7 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 49.7 c.f.s.

The maximum quantity diverted shall not exceed 8615 acre feet per season, or a total of 2,807,000,000 gallons per year.

Beneficial Use: Municipal use for City of Idaho Falls, Idaho

The priority date established is: April 8, 1963

A fee totaling \$ 17.00 must be received within 30 days from the date of this letter in order that we can issue you the Water License as described above.

Very truly yours,

Dear Mr. Dunn:

Reference is made to your letter of April 24, 1970 and our subsequent telephone conversation of May 8, 1970 regarding the above captioned Permits and Licenses.

As we indicated to you on the phone, the 14,710 acre feet that you proposed to license as the water right of the City of Idaho Falls is inadequate in light of our experience with reference to total gallonage that we have pumped in past years. We are submitting a few random samples of the monthly reports which we maintain showing the total gallons pumped by each of the wells. These reports are summarized each year indicating that the following total gallons were pumped for the past 5 years:

1965	4,687,000,000 gallons	14,900
1966	5,507,000,000 gallons	16,700
1967	6,071,000,000 gallons	18,200
1968	6,215,000,000 gallons	18,100
1969	6,380,000,000 gallons	19,500

The 14,710 acre feet equals 4,792,944,590 gallons, and it is obvious that we have been pumping more than that for many years.

You have probably received a copy of the report from CH₂M by this time which should give you some better idea of the capabilities and demands of our system.

Please review your findings on these permits and advise us if you need any further information.

Attention: Mr. Dennis Timoskevich

Dear Sir:

The following information is submitted in response to your letter of October 28, 1969 requesting additional information necessary for the processing of our permits No. G-31141, G-31587 and 35-7001.

All of our wells are tied into the same distribution system so it would be impossible to determine which customers are served by which wells. However, we can give you the gallonage pumped by each well. Our records indicate a total of 11,501 accounts serving approximately 36,500 individuals and about 200 industrial and commercial users. During the year 1968, the entire system of 11 wells pumped a total of 7,543 million gallons. A tabulation of the total water pumped by each well during 1968 is attached.

The total gallons in millions which was pumped from the wells covered by each of the permits listed are as follows:

<u>Permit No.</u>	<u>Well No.</u>	<u>Gallons (in millions)</u>
G-31141	2 thru 8	2,807
G-31587	9 and 10	3,116
35-7001	11	1,401

We are supplying a tabulation of 7 of the largest users of water indicating the total gallonage for each month during 1968. These particular users were selected as all surpassed the one million gallon mark in at least one month of the year. The total water used by this group of large users amounted to 952,142,000 gallons.

In addition to the account No. 380006, City of Idaho Falls, which is the only portion of the City that is metered, there are also 227 acres of parks and 127 acres in Golf Course. This is a total of 354 acres of public lands which are irrigated by the City system.

If there are any further questions regarding the above information, please contact this office.

Gentlemen:

In reviewing the Report of the Field Examiner, I find that some additional information is required before a Water License may be issued.

Please inform me as to the number of water users and the total number of people served. Also, would you please provide a listing of water used by any large water users, stating the annual use and the months used (a monthly breakdown if there is much variation). We must, also, have the amount used for irrigation of parks and public lands.

If recorded data is not available, estimates of the volume of water used each month will suffice. If estimates are submitted, please state your method of arriving at these estimates. Also, provide any facts and figures that would help to substantiate these estimates.

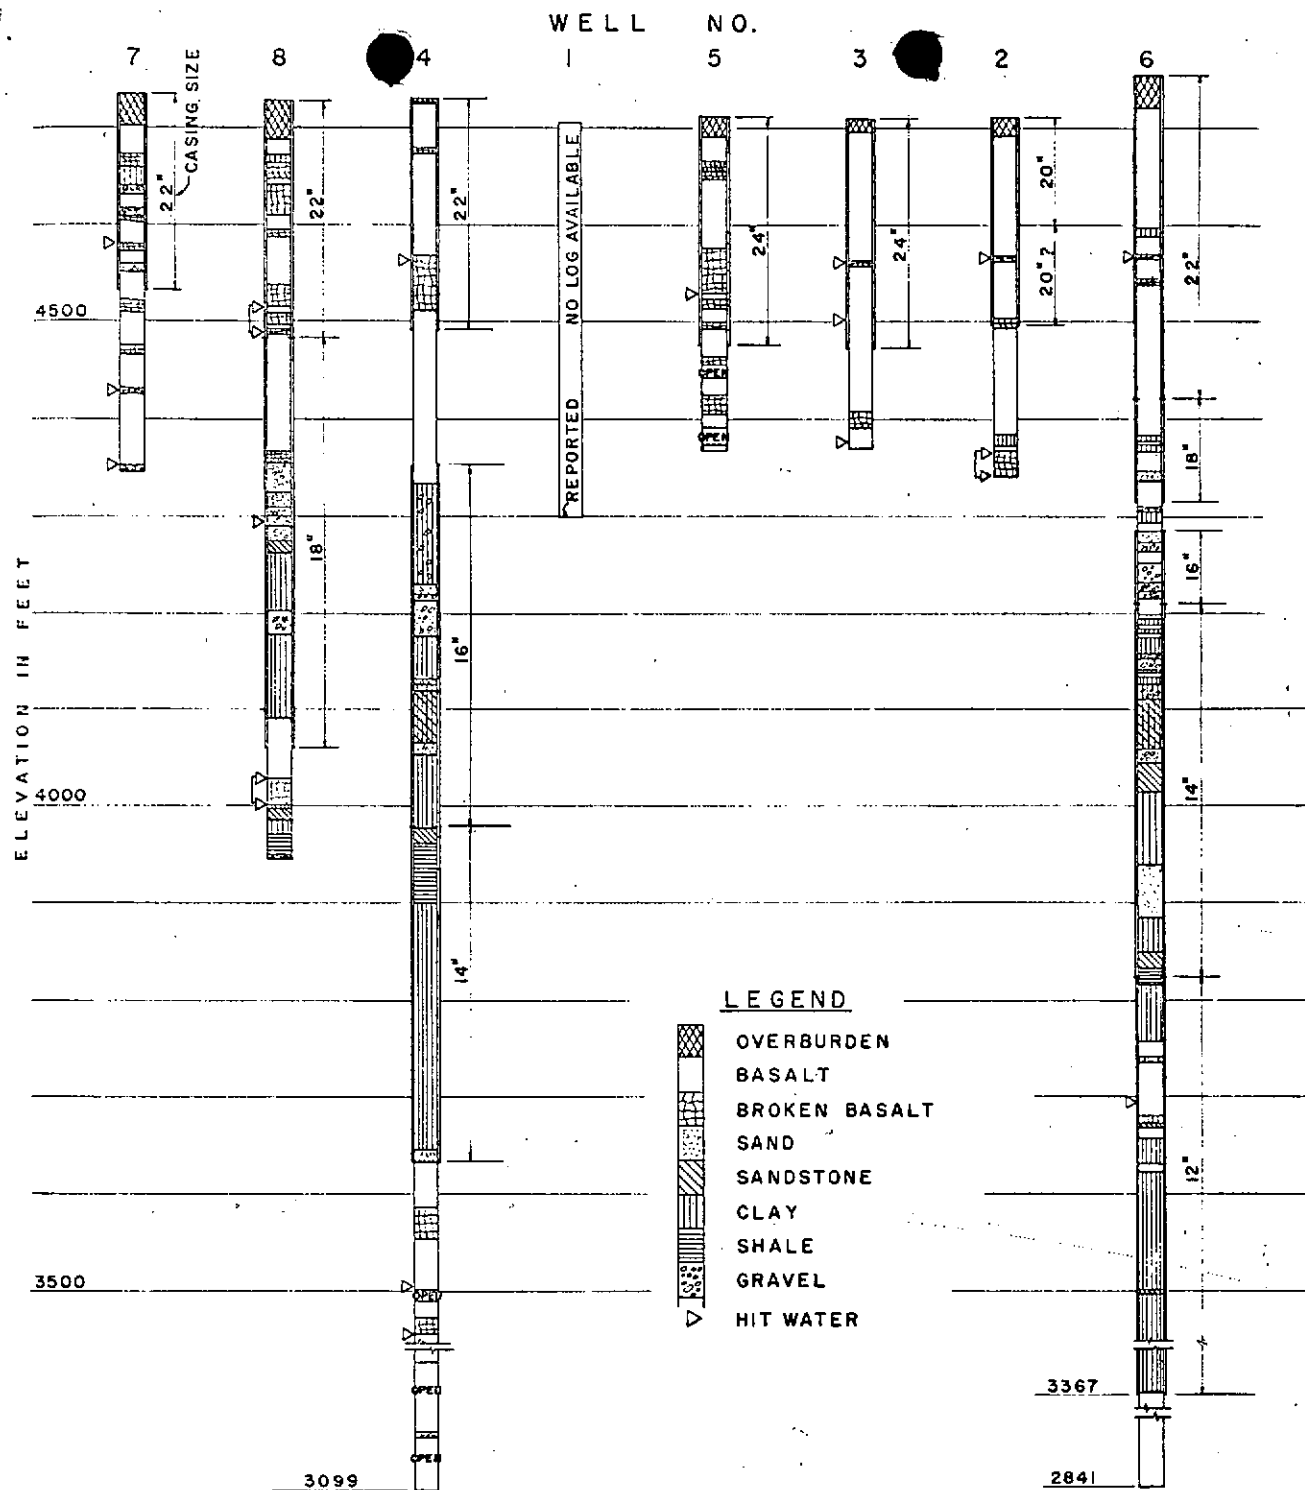

If you will provide this information, we shall continue to process your permit. If we can be of any assistance, please advise.

Very truly yours,

Dennis Timoskevich
Water Rights Administrator

The Honorable S. Eddie Pedersen
Mayor of Idaho Falls
Idaho

Sir:

We acknowledge receipt of the depositions and affidavit of publication in the
Post-Register submitted as proof of com-
pletion of works and beneficial use on Permit G-31141.

Before a certificate and license of water right can be issued, a field
examination must be made by a representative from this department. We
cannot tell just when this examination will be made, but our field examiner
will try to contact you at the time he makes the examination so that you
may show him the system.

Very truly yours,

Re: Permit No. G-31141

City of Idaho Falls
Box 220
Idaho Falls, Idaho

Gentlemen:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than May 24, 1968.

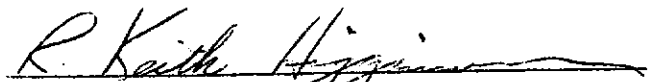

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces and sign the form authorizing us to publish the notice at your expense and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

March 1963

STATE OF IDAHO }
County of Bonneville } ss.

I, Edwin F. McDermott, being first duly sworn, depose and say: That I am the Principal Clerk of the Post Company, a corporation of Idaho Falls, Bonneville County, Idaho, publisher of The Post-Register, a newspaper of general circulation, published daily, except Saturday, at Idaho Falls, in Bonneville County, Idaho, and that said newspaper has been published continuously and uninterruptedly for more than four (4) years up to and including the last publication of the notice hereinafter referred to.

Affiant further says that the said newspaper, prior to the date of the first publication of said notice, as hereinafter stated, did designate a particular day of the week as the day on which legal notices, required by law or by order of any Court of competent jurisdiction within the State to be published weekly, would be published, and that since prior to the date of the first publication of said notice, as hereinafter stated, said newspaper has at the head of the editorial column of said paper and in each issue thereof announced the day of the week on which such legal notices required by law or by order of any Court of competent jurisdiction to be published weekly would be published, and that such day so designated was and is the Sunday issue or edition of said newspaper of each week.

Affiant further says that the notice, of which a copy is hereto attached and made a part of this affidavit, was published in said The Post-Register in the Sunday edition or issue of said newspaper for three consecutive weeks, the first publication having been made in the Sunday issue of said newspaper on the 14th day of April, 1963, and that said notice was thereafter published in each Sunday issue of said newspaper as follows:

On Sunday the 21st day of April, 1963.
and on Sunday the 28th day of April, 1963.
and on Sunday the day of April, 1963.
and on Sunday the day of April, 1963.
and on Sunday the day of April, 1963.
and on Sunday the day of April, 1963.
and that said notice was published in the regular and entire issue of said newspaper on the said respective dates of publication, and that such notice was published in the newspaper and not in any supplement issue thereof.

Subscribed in my residence and sworn to before me this 30th day of April, 1963.
