Permit Nos.	31-2439	25-7003
	32-2123	25-2137

Mr. John M. Corless, Manager
FEDERAL LAND BANK ASSOCIATION
of Idaho Falls
Idaho Falls, Idaho 83401

Dear Mr. Corless:

Pursuant to our telephone conversation of June 23, 1971, we wish to advise you of the status of the above referenced applications and permits:

The two applications for Brownings Inc. are at present being reviewed for advertising. The intent of the applications will be advertised in the local paper of the county in which the project will take place. This advertisement will appear once a week for two consecutive weeks. Ten days after the last date of publication the protest period for that application is ended. At that time, the application is subjected to a final analysis by our staff. If it has not been protested, it is usually approved at that time and a copy of the approved application, which then becomes a permit is sent to the applicant.

Permit No. 25-2137 - Amle Landon

Beneficial use has been submitted on this permit and it would appear to be complete insofar as the requirements of the permit holder are concerned. The field examination should be conducted on this permit some time during the 1971 irrigation season, so that it may be licensed.

Permit No. 25-7003 - Amle Landon

Beneficial use was submitted on this permit on May 11, 1971. At that time, we advised the applicant, Mr. Amle Landon, that the proof of beneficial use was inadequate, as he had failed to install a measuring device on his system, of a type approved by this Department. At that time, we also advised Mr. Landon that failure to install such a measuring device could result in the loss of his permit. As soon as we are in receipt of that information, Mr. Landon's beneficial use affidavits will be complete and the permit will be scheduled for a field examination so that it may also be licensed.

Dear Mr. Landon:

A representative of this Department has made an examination of the works covered by your Permit No. 30086/25-2137 and has found the following:

Quantity of water diverted: 2.25 cfs

Amount of water that can be recognized as beneficially used under Idaho Law: 2.25 cfs

The maximum quantity of water diverted shall not exceed 560 acre feet per season.

Beneficial use: For irrigation of 160 acres within the NE¹/₄, Sec. 10, Twp. 3N, Rge. 40E

Point of diversion: NE¹/₄, Sec. 10, Twp. 3N, Rge. 40E, B.M.

Priority date established: December 9, 1961

A fee totaling \$ 12.00 must be received within 30 days of the date of this letter in order that we can issue a water license as set forth above.

If you do not concur with these findings, please contact this office within the 30 day period.

FEDERAL LAND BANK ASSOCIATION
of Idaho Falls
Idaho Falls, Idaho 83401

Dear Mr. Corless:

Pursuant to our telephone conversation of June 23, 1971, we wish to advise you of the status of the above referenced applications and permits:

The two applications for Brownings Inc. are at present being reviewed for advertising. The intent of the applications will be advertised in the local paper of the county in which the project will take place. This advertisement will appear once a week for two consecutive weeks. Ten days after the last date of publication the protest period for that application is ended. At that time, the application is subjected to a final analysis by our staff. If it has not been protested, it is usually approved at that time and a copy of the approved application, which then becomes a permit is sent to the applicant.

Permit No. 25-2137 - Amle Landon

Beneficial use has been submitted on this permit and it would appear to be complete insofar as the requirements of the permit holder are concerned. The field examination should be conducted on this permit some time during the 1971 irrigation season, so that it may be licensed.

Permit No. 25-7003 - Amle Landon

Beneficial use was submitted on this permit on May 11, 1971. At that time, we advised the applicant, Mr. Amle Landon, that the proof of beneficial use was inadequate, as he had failed to install a measuring device on his system, of a type approved by this Department. At that time, we also advised Mr. Landon that failure to install such a measuring device could result in the loss of his permit. As soon as we are in receipt of that information, Mr. Landon's beneficial use affidavits will be complete and the permit will be scheduled for a field examination so that it may also be licensed.

Permit No. 32-2123 - Lewis Lavar Newman

Beneficial use has been submitted on this permit and it would appear to be complete. It will be scheduled for a field examination some time during the 1971 irrigation season, so that it may be licensed.

Permit No. 32-2439 - Lewis Lavar Newman

Beneficial use has also been submitted on this permit and it would appear to be complete. The field examination for this permit should be conducted some time during the 1971 irrigation season, so that it may be licensed.

If you should have any questions in regard to any of these permits, please feel free to contact this Department.

Dear Mr. Corless:

Pursuant to your letter of May 10, 1971, we wish to advise you of the status of the following permits.

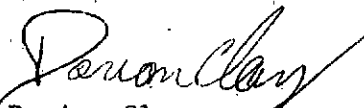

We are in receipt of proof of beneficial use affidavit submitted in reference to permit no. 25-7003. This permit would appear to be complete in so far as to the requirements of the permit-holder.

We also wish to advise you that permit no. 25-2137 appears to be complete; however, the Department is awaiting a field examination that should be conducted during the 1971 irrigation season.

The application that you have submitted in reference to license no. 25-2125 for Amle Landon appears to be in order. However, you have neglected to submit the required \$20.00 filing fee.

As soon as we are in receipt of this fee, we shall begin processing the application. If you should have any question in reference to this matter, please contact us.

Very truly yours,

Gentlemen:

Enclosed is Proof of Application of Water to Beneficial Use on Permit No. 25-7003 prepared by Amle Landon.

If this is in order, please send us a letter acknowledging receipt and your intention to have it examined.

Also enclosed is an Application for a Permit to have the increased flow delivered by the well under license #25-2125.

In your letter acknowledging receipt, requested above, we would also like you to confirm the action being taken on Permit #25-2137. We understand that Mr. Landon has applied for license and this well, too, will be included in the field inspection to be made for Permit #25-7003.

Dear Mr. Landon;

In reference to your telephone call of April 21, 1971; please be advised that the following is the current status on the above referenced permits:

Permit No. 25-7003

You are required to submit proof of beneficial use on or before June 1, 1974. Please bare in mind the special conditions of approval under Item C of your permit. We are enclosing beneficial use form for your use in this matter.

Permit No. 25-2137

This permit appears to be complete in so far as requirements of the permit holder. At present, the Department is awaiting field examination to be conducted, hopefully during the 1971 irrigation season.

Permit No. 25-2125

The maximum acres that can be irrigated are 160, and the maximum rate of diversion is 2.64 cubic feet per second. You have indicated that you have installed additional pump and motor on this well and you are now diverting more water than covered by the license. Please be advised that it will be necessary for you to file a new application for permit in order for your to divert and irrigate for the additional quantity of water. We are enclosing application form for your use in this matter.

If we can be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney

ATTENTION: John M. Corless

Dear Mr. Corless:

Pursuant to your inquiries as to the water permits for Amle Landon, we have researched our files and find that Mr. Landon has two permits and one license. Permit No. 25-7003 is for a well located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 15, Twp. 3N, Rge. 40E, and is used for the irrigation of 280 acres, located within Sec. 14, 15, 22 and 23 of Twp. 3N, Rge. 40E.

Permit No. 25-2137 is for a well located within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 10 and is used for the irrigation of 160 acres in the NE $\frac{1}{4}$ of Sec. 10, Twp. 3N, Rge. 40E.

License No. 25-2125 is for a well located within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 11, Twp. 3N, Rge. 40E and is used for the irrigation of 188 acres located within Sec. 11 and Sec. 14, Twp. 3N, Rge. 40E.

We also find two other licenses, one numbered 25-2115, in the name of Murray Byington and/or Douglas Byington and the other numbered 23-2060 in the name of Eugene Byington. These two licenses would appear to also cover a portion of the lands you are inquiring about. License 29-2115 was for a well located in the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 6, Twp. 3N, Rge. 41E and is for the irrigation of 234 acres, located within Sec. 5 and 6, Twp. 3N, Rge. 41E and license 23-2160 is for a well located in the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 7, Twp. 3N, Rge. 41E.

If you should have any projects of this nature in the future, please plat the place of use and point of diversion on a map to help expediate our research.

Dear Mr. Landon:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Post Register, all submitted in proof of completion of works and beneficial use on Permit No. G-30086.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try to contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Dear Mr. Landon:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-30086. The proofs are to be made ~~at~~ in book, on the 12th day of December, 1966, before Velma Bush Ririe, Idaho Notary Public.

As of this date, we have mailed the Notice to the Post Register, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION

Dear Mr. Stewart:

Returned herewith is your assignment, land list amendment and notice of proof for the above numbered permit. Also, enclosed is a plat sheet showing the land you list on the amendment. You state on the amendment that you will have 309.07 acres but according to your amendment you could not have over 240 acres.

Your assignment is in good order and is acceptable to our office. However, neither the assignment or the amendment can be processed until we are in receipt of the \$1.50 fees for recording.

Please make the necessary corrections to the amendment and the notice of proof and return to our office along with the recording fee.

RE: Permit G-29881

Karl M. Smith

Dear Mr. Smith:

Returned herewith is your notice of proof for the above numbered permit. In checking we find that you claim you are going to use 8.0 cubic feet per second or 400 inches on 40 acres of ground. This is only 360 inches more than is allowed by the State Statutes. Therefore, if you are only going to prove up on part of the permit your notice should say part, also, give the number of acres and explain, meaning, explain each forty acre subdivision in Item #5 of the notice.

It is further noted that the date you have set for appearing to take the proofs is November 15, 1966, and this date should be 40 days subsequent to the date the notice is received by our office. This allows for the publication in the newspaper for four consecutive weeks prior to the proofs.

After you have made the corrections please return to our office for checking.

Re: Permit No. G- 30086

To Amle Landon
Star Route, Ririe, Idaho

It appearing to the State Reclamation Engineer that the terms and conditions of Permit No. G- 30086 to appropriate the Public Waters of the State of Idaho, have not been complied with as to Completion of Works and Beneficial Use due August 18, 1966

YOU ARE HEREBY notified in compliance with Sec. 42-234, Idaho Code that said Permit No. G- 30086 is hereby held for cancellation.

YOU ARE HEREBY required to show cause before the State Reclamation Engineer on or before sixty days from date of this notice why said Permit should not be cancelled.

SAID PERMIT NO. G- 30086 claims the use of 3.0 cubic feet per second of the Subterranean Waters a well with point of diversion located SW1/4SW1/4, Sec. 21, T. 8 S., R. 16 E., B. M., Jerome County and was approved August 18, 1961.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the official seal of my office at Boise, Idaho, the 30 day of Septeaber, 1966.

RE: Permit G-29899

Charles H. Stewart
245 Woodlawn
Montpelier, Idaho

Dear Mr. Stewart:

Returned herewith is your Notice of Proof and Assignment for the above referenced permit. The proofs are due now and will have to be advertised and the depositions taken or the permit cancelled. It is realized that you do not irrigate in the winter, however, your proofs can be taken and then our field man will check it next summer to verify the use. Therefore, the date for taking the proofs before Howard W. Tolley should be 40 days subsequent to receipt of the proofs in our office or sometime in December of this year.

It is further noted that your land list does not agree with that of the permit. We do not have any land in Section #4 on the permit. If this permit is for land other than that listed on the permit you will have to fill out an amendment to the land list and we are enclosing the forms. There is a \$1.00 recording fee for each amendment. This must be completed prior to the publication, also, if it is for more land than was on the original application you will lose your priority up to the date you add the additional land.

We have marked on your notice the correct land list. We note you have also failed to send the 50¢ recording fee for the assignment.

Please make the necessary corrections and/or amendments and return promptly.

Re: Permit No. G - 30086

Amle Landon
Star Route
Ririe, Idaho

Dear Mr. Landon:

The date for proofs of Completion of Works and Application of water to beneficial use, as set out under terms of Permit No. G- 30086 are due not later than Aug. 18, 1966

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list, which has been recorded in this department. If changes have been made and no amendments are on record, we advise you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least FORTY (40) DAYS BEFORE THE MENTIONED DATE, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point, or points, of diversion; and the location of use or the lands which are irrigated - - all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with two Forms 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named, and before the notary public, as advertised in the publication notice.
