Dear Sirs:

In about 1950, the above Mikami Brothers submitted Proof of Completion of Works and Beneficial Use of Irrigation Water by Two Wells, located as follows:

Well No. 1 - In the northeast quarter and 0.01
Well No. 2 - In the southeast quarter, both 1.00
wells in Section 3, Township 3 North, Range
40 E.B.M.

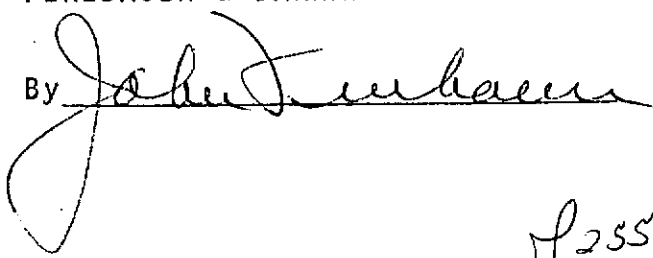

Will you kindly check your records and advise as to both wells, the amount of water, date of priority, permit number, location of wells, and book and page of recording.

Your notation on the bottom of this letterhead will be sufficient.

Thank you for your consideration.

Very truly yours,

Attention: Mr. Roy W. Thompson

Dear Sir:

This is to acknowledge receipt of your letter of
October 15, concerning the above permit.

In regard to the proofs submitted, I am confident
that this office has made an error as the Mikami Brothers
are cultivating under this water system slightly more
than 200 acres at the present time. Consequently, would
appreciate it if you would return the proofs so that the
same may be corrected.

Thank you for your consideration in this matter and
please accept our sincere appreciation for your consider-

Attention: John Ferebauer

Dear Mr. Ferebauer:

This will acknowledge receipt of Proof of Application of Water to Beneficial Use and Completion of Works on the above captioned permit number in the name of Mikami Brothers.

We are writing this letter in the interest of the Mikami Brothers in regard to the proofs submitted. We wish to state that upon proving up on a water permit of this kind where it is stated in the holders' proof that the irrigation under said proof was for 40 acres, only the SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 3, Township 3 North, Range 40 East, this department can issue only the maximum of one inch per acre or 40 inches of water on said permit. The Mikami Brothers' permit calls for irrigation of the E $\frac{1}{2}$ SW $\frac{1}{4}$ and the SW $\frac{1}{4}$ SW $\frac{1}{4}$ and the S $\frac{1}{2}$ SE $\frac{1}{4}$ of Section 2, Township 3 North, Range 40 East, consisting of 200 acres.

We do not know the facts connected with this permit, but we assume that 40 acres is all the Mikami Brothers have in cultivation at this time, and we also assume that their intentions would be to put the balance of the land under cultivation as soon as they can.

We also observe that when the permit was issued, that they only took three years from the date of filing, which was March 26, 1955. They would be entitled to an extension of time of two years additional time up to a maximum of five years in which to make these proofs, at which time it may be possible that they would have all their land under cultivation, at which time they could secure a license for the full amount of the appropriation, which was 4 cubic feet per second, or 200 miners inches.

P25560

Mr. John Ferebauer

-2-

October 15, 1957

As previously stated, if said proofs are accepted by this department, 40 inches would be the limit that we could issue a license on at this time, then it would be necessary for them to make an additional filing for the balance of their water, providing they intend to put under cultivation the full 200 acres.

The other alternative would be to request an extension of time for two additional years and with-draw these proofs at this time. We will hold up processing of these proofs until we hear from you.

We are enclosing a form for an extension of time in case you wish to use same.

Very truly yours,

Dear Mr. Ferebauer:

We have your letter of May 24, 1957, stating that the Mikami Brothers are prepared to make proofs of completion of works and beneficial use on their Permit No. G-25560.

Before these proofs are made, the statutes require publication of a Notice once a week for four weeks in a county newspaper. This Notice should be made in duplicate on Form 36 enclosed, setting the time and place and naming the Notary Public before whom the proofs are to be made.

Both copies of Form 36 to be returned to this department together with Form 11 which is their authorization for us to have the Notice published at their expense in the designated county newspaper.

We shall then send a copy of the Notice to the newspaper with instructions in regard to publishing and shall send you the forms of depositions to be executed by the Permit holders and their two witnesses in making these proofs.

The proofs may be made at any place convenient for the Permit holders and their two disinterested witnesses but the date must be set far enough ahead to allow for four weeks publication.
