RE: Permit No. G-22515

Mr. Harold H. Freeman

Dear Mr. Freeman:

There were a few wells in the extreme Eastern part of the State that we were unable to inspect last fall. The inspection load was so heavy that we just didn't get everything done. Yours was one of those wells.

On what date do you normally begin pumping? It is necessary as a rule to measure the pump discharge and there is little use for me to come before you begin pumping.

I am sorry that I was unable to get it last fall and will try to make inspection as soon as possible this summer.
