Dear Sirs:

In about 1950, the above Mikami Brothers submitted Proof of Completion of Works and Beneficial Use of Irrigation Water by Two Wells, located as follows:

Well No. 1 - In the northeast quarter and 21990
Well No. 2 - In the southeast quarter, both 25560
wells in Section 3, Township 3 North, Range

We have your letter of March 31, 1952, and in accordance therewith, have corrected the descriptions given in the depositions of yourself and two witnesses in proof of beneficial use under Permit No. 21990.

Before final action is taken in the matter, the law requires that an examination be made by an engineer from this department.

We cannot say just when this examination will be made as this department has but one field engineer who makes examinations all over the State.

However, he will try to contact you at the time the examination is made so that arrangements may be made to show him over the grounds.

Dear Mr. Mikami:

In our letter of January 15, 1952, in which we enclosed certificate of completion of works under Permit No. 21990, we ask you to give us the name of the Notary Public before whom you wished to make proof of beneficial use, which name was omitted from the notice sent us.

Since this notice states that the proof is to be made on March 17, 1952, it is necessary that we have information as to the name of the Notary Public at once or it will be too late to have the proof made on that date since the statutes require publication once a week for four weeks prior to making proof.
