Re Permit 13730.

Hans Carlson,
Ozone, Idaho.

Dear Sir:--

Your affidavit for proof of completion of works is herewith returned for completion as to the location of the spring and point of diversion, as called for under paragraph 3 of the blank.

Proof of beneficial use of water was also due on March 14, 1919. The blank notices sent you should have been filled out and returned to this office in time for the notice to be published four weeks prior to the date of making the proof. However, this proof can be made at a later date than specified in the permit but the date of priority will have to be brought down accordingly. This will have no material effect upon your right. The blank notices should be filled out and returned to this office, the date for making the proof being set far enough ahead to allow for the required four weeks publication.

Very truly yours,

FRED A. WILKIE,

State Engineer.

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Hans Carlson,
Ozone, Idaho.

Boise, Idaho,
December 3, 1918.

Dear Sir:—

Under the terms of your permit No. ~~13730~~, you are required to complete your diversion works on or before ~~March 14, 1919~~. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours' truly,

FRED A. WILKIE,

State Engineer.
