Re: Permit 9975-

Mr. Green Taylor,

Rigby, Idaho.

Dear Sir:-The report of the examining engineer on beneficial use of water under the above permit has just been filed. According to this report, the water appropriated under this permit is not being used upon the land described in the permit. The report shows the following land under cultivation and irrigation:

1	acre	in	SE ¹ / ₄ NW ¹ / ₄	Sec. 8;
3	"	"	NE ¹ / ₄ SW ¹ / ₄	" "
1	"	"	NW ¹ / ₄ SE ¹ / ₄	" "
1	"	"	SE ¹ / ₄ SW ¹ / ₄	" 9
10	"	"	SW ¹ / ₄ SE ¹ / ₄	" "

The permit describes the NW¹/₄SE¹/₄ Sec.9; SW¹/₄NW¹/₄ & SE¹/₄NW¹/₄ Sec. 8, Twp. 2 N., R. 41 E., B.M.

If you have changed the use of the water from the lands originally described in the permit, the records should be corrected by filing an application for amendment, blank for which is enclosed, with duplicate map forms. You should also correct the description of the location of one spring from the SW¹/₄NE¹/₄ Sec. 8, to the NW¹/₄SE¹/₄, said section. This should be made upon affidavit form, #13, also enclosed. The duplicate maps should show the correct location of the lands and points of diversion.

The fees due this office before license can be issued will be \$10.00, being \$2.00 for each forty, or fraction, under cultivation and irrigation.

Very truly yours,

Dear sir;

I enclose you herewith applications for amendments for permit #9975 Green, Taylor of Rigby, Idaho, and in replying to your letter of the 13th inst, and in regard to the change of lands irrigated from the description in the permit beg to advise that the lands irrigated have not been changed only that the error was in the original permit, and the same lands are irrigated now, as have always been irrigated, only that the description is in error on the permit. I have changed the description in the amendment to conform to the report of the engineer, which is correct, and trust this will make the matter so that the water license may issue.

Trusting this will be satisfactory, I am,

Respectfully,

1. Examiners will not be permitted to examine any of the records in the office pertaining to this permit. They are to furnish a report of the facts and conditions as they exist, from their own observations and inquiries.
2. Always carefully note the location of the point of diversion, and accurately plat same.
3. Find out how many parties own rights in the ditch or canal and give their names and amount of right.
4. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
5. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
6. If any unusual conditions are discovered, make a plain statement of them under remarks.
7. Always see the holder, if possible, and go over the whole ground with him, and make your report only upon actual existing facts and conditions.

Dear Sir:

I hand you herewith, for my client, Mr. Green Taylor, proof of completion of Works, and my check for \$5.00. In one or two particulars, Mr. Taylor's works have not been constructed as large as his permit calls for, for instance, the ditches are not as long and large as the permit calls for, and he is unable to water only 20 acres, whereas the permit called for 80.

I understand that this will not effect his right to prove up on whatever amount of water *you* finds he is entitled to.

Kindly send me several copies each of the following forms:

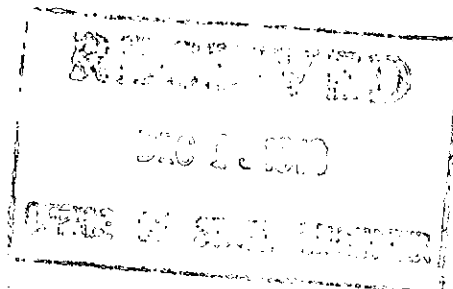

Proof of Completion of Works,
Notice of Proof of application of Water, to Beneficial Use,
and other forms, in connection with water applications, that you have.

Thanking you, I am,

INSTRUCTIONS

PROOF OF COMPLETION OF WORKS

Green Taylor

Rigby, Idaho

Boise, Idaho, **October 14, 1916**

Dear Sir:

Under the terms of your Permit No. ~~9975~~---, you are required to complete your diversion works on or before-----~~January 30th, 1917~~-. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Yours truly,

J.H.SMITH
