Sir:

Replying to your letter of the 23rd inst. would say that, if it is possible for you to get some one to act for you in the matter of proof on July 7th, you can do so. However, if this cannot be arranged, you should appear before the Justice of the Peace, at Gray, on the very earliest date possible and make proof, and, at the time the depositions are submitted, you should also submit an affidavit from the Justice of the Peace showing that he was in his office on July 7th and that no one appeared to protest against the proof.

Dear Sir, - I note that the date for my final proof under permit #9737 is July 7. At present I am at Salt Lake City, Utah, attending the University of Utah Summer Normal School, which isn't out until July 17. You will note that this is ten days after I am to make proof. Under these circumstances will it be possible for me to get ten days grace, so that I will not have to make a trip home and lose four or five days of school?

Trusting that you may be able to grant me this favor I remain,

Very respectfully,

INSTRUCTIONS
PROOF OF COMPLETION OF WORKS

Mr. George Muir, Jr.,
Gray, Idaho.

Boise, Idaho, Feb. 1, 1914.

Dear Sir:

Under the terms of your permit No. 9737, you are required to complete your diversion works on or before May 6, 1914. I enclose herewith blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
