WATER RIGHT LICENSE

WATER RIGHT NO. 23-07142

Priority: September 7, 1989

Maximum Diversion Rate:

0.12 CFS

Maximum Diversion Volume:

4.2 AF

This is to certify, that QUAKER HAVEN WELL ASSN

1285 CORINNE

IDAHO FALLS ID 83402

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated September 7, 1989; and has submitted Proof of Beneficial Use on February 8, 1990. An examination indicates that the works have a diversion capacity of .150 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
DOMESTIC	01/01 to 12/31	0.12 CFS	4.2 AF

LOCATION OF POINT(S) OF DIVERSION:

SENW , Sec. 25, Township 01S, Range 45E
BONNEVILLE County

PLACE OF USE: DOMESTIC

TWN RGE SEC

01S 45E 25

SENW

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. _____, and said application is hereby _____.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before _____, 19 ____.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. The water right acquired under this permit if for hydropower purposes shall be junior and subordinate to all rights to the use of water, other than hydropower, within the State of Idaho that are initiated later in time than the priority of this permit and shall not give rise to any right or claim against any future rights to the use of water, other than hydropower, within the State of Idaho initiated later in time than the priority of this permit.

MICROFILMED
MAY 16 1990

9. Otto and Denise R. Meng are the owners of the following described property located in Bonneville County, Idaho:

Lot 9, Block 1, Quaker Haven Subdivision # 1

10. Jay H. Kauer and Jenniene Kauer are the owners of the following described property located in Bonneville County, Idaho:

Lot 10, Block 1, Quaker Haven Subdivision # 1

11. Jay H. Kauer and Jenniene Kauer are the owners of the following described property located in Bonneville County, Idaho:

Lot 11, Block 1, Quaker Haven Subdivision # 1

12. Gary Park and Cheryl A. Park are the owners of the following described property located in Bonneville County, Idaho:

Lot 2, Block 2, Quaker Haven Subdivision # 1

13. Paul H. Drake and Luella Drake are the owners of the following described property located in Bonneville County, Idaho:

Lot 3, Block 2, Quaker Haven Subdivision # 1

14. Phillip N. Leavitt and Barbara Leavitt are the owners of the following described property located in Bonneville County, Idaho:

Lot 4, Block 2, Quaker Haven Subdivision # 1

5. The aforementioned properties are generally contiguous to each other.

6. A well has been drilled, cased, and a pump has been installed therein, with water lines leading therefrom to the properties of the fourteen parties, which well is located on the Leavitt property. It is intended that this well will service all fourteen lots, and each of the fourteen parties will be entitled to an undivided one-fourteenth interest in and to the well, the casing, the pump therein, and the water lines and other appurtenances pertaining thereto (all of which are hereinafter termed the "water system"). Further, it is the intent of this agreement that this interest in said water system shall run with the respective tracts of land involved, and the parties intend hereby to share equally in the cost of repairs, maintenance, and replacement of the said water system.

NOW, THEREFORE, in consideration of the recitals and mutual covenants herein contained, it is agreed as follows:

MICROFILMED

MAY 16 1990

I.

Each of the parties to this agreement is the owner of an undivided one fourteenth interest in and to the water in the well and the said water system as more specifically hereinabove described.

II.

Each party does hereby grant, set over, and transfer to the other parties hereto a perpetual easement over and across the respective lands described above for the maintenance, repair, and replacement of the pipelines or conduits leading from the said well to the respective tracts described, but such easements and water rights or interest therein, shall be all subject to the terms, conditions, and provisions of this agreement.

III.

The interests in the water and the said water system and the easements herein granted shall be appurtenant to the property hereinabove described and shall be perpetual covenants running with the respective lands. The water from the said well and the water system is to be used for household purposes, but there shall be no pasture irrigation or automatic sprinkler system allowed without the prior written consent of all parties hereto or their successors in interest.

IV.

The electricity for the water system is metered through a separate meter adjacent to the well on the Leavitt property, metering is provided for the the amount of power usage related solely to the water system. The parties agree that currently each lot owner shall pay \$10.00 per year for maintenance of the water system. Each lot owner will pay an additional \$25.00 per year if their lot is developed, developed meaning that a building or trailer is placed on the lot so as to create a significant water usage by that lot. However, this sum shall be subject to reasonable adjustment from time to time by mutual agreement of all parties concerned. These payments shall be made promptly by or before the first day of October, to the Quaker Haven Well Association. Any annual charge not paid promptly on the due date shall bear interest at the rate of eighteen per cent (18) simple interest per annum, until paid; and to the extent the same is feasible, the other parties to this agreement who are not in default may require the water service to be cut off to the defaulting party until such default is cured.

MICROFILMED

MAY 16 1990

V.

There will not be any extension of the anticipated water line servicing the fourteen lots to any other lots or parties without the consent being given in writing by each of the parties hereto.

VI.

As part of the easements granted herein, any party shall have the right to come upon the premises of the other parties for the purposes of inspecting, maintaining, repairing, and replacing the components of the said water system, and may bring upon said lands such equipment as is necessary to effect the said functions. However, no party shall commit any waste upon the premises of any other party in the performance of said functions.

VII.

All expenses for repairs, maintenance, and replacement of the said water system or any component thereof, including the pipelines or conduits leading from the well to the service connection of the respective parties shall be paid by the maintenance fund, i.e., the ten dollar per lot assessment, or by special assessment to the parties, promptly when such expenses are incurred. Major repairs shall be addressed on a case by case basis.

VIII.

Election of officers for the water system shall be semi- annually. Officers to be elected shall be: President, Vice President, and Secretary-treasurer. Such elected officers shall be authorized to sign checks for the payment of bills connected to the operation and repair of the water system. The Secretary-treasurer shall keep an accounting of receipts and disbursements, and report this accounting to the parties annually.

VIIII.

Funds can be made available from water system funds for items other than water system maintenance and electrical usage by agreement of all the parties.

X.

This agreement can be amended by agreement of all the parties.

MICROFILMED

MAY 16 1990

XI.

This agreement shall extend to and be binding upon the heirs, personal representatives, assigns, and other successors in interest of the parties hereto.

IN WITNESS WHEREOF the parties have executed this agreement as of the day and year in this agreement first above written.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 23-07142

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the EASTERN Regional Office in Idaho Falls at (208)525-7161.

Sincerely,

Rita Fleck
Secretary/Records Manager

RE: PERMIT NO. P23-07142

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also enclosed for your convenience is a form entitled "Proof of

MICROFILMED

MAY 16 1990

Beneficial Use" that must be submitted to the Department when your project is completed. If development is complete, you may submit proof of beneficial use immediately.

Sincerely,

GARY SPACKMAN, Supervisor

RE: Application for Permit No. 21-7451, 23-7141, & 23-7142

Dear Sir:

This office is currently in the process of publishing notice that the above application for permit was filed with the Department of Water Resources. Since the application may be of interest to you, a copy is enclosed for your examination. Comments concerning the application should be addressed to the applicant with a copy forwarded to this office. Protests objecting to granting a permit should be directed to this Department and received as soon as possible. Final action will be taken by this office shortly after this date, provided there are no protests lodged against the applications.

Respectfully submitted,

Harold W. Jones
Water Rights Supervisor

RE: Application for Permit No. 23-7142

Dear Water Right Applicant:

The Department of Water Resources acknowledges receipt of your water right Permit. This office is currently in the process of advertising the application in the Post-Register. The advertisement will be published for two consecutive weeks, and a period of ten days following the second publication will be allowed for the submittal of protests.

If the application is protested, you will be sent a copy of the protest. The protest must be resolved before the application is approved or denied. If the protest is not resolved voluntarily, this Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our state office in about five weeks. State office personnel will conduct a complete review prior to final processing of the application and will notify you of the outcome of this review. When a permit is issued, you will be sent a copy. A typical processing time for an unprotested application is about eight weeks.

Please feel free to contact this office if you have any questions regarding this procedure.

Sincerely,

HAROLD W. JONES
Water Rights Supervisor
