Department of Water Resources

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

NOTICE OF DIVERSION FOR INSTREAM STOCKWATER USE

(To provide notice of intent to divert surface water from a stream or riparian area to troughs or tanks for the watering of livestock)

1. Name of Right Holder Carl Zitlan Phone 530-7140
Mailing address 392 N 4500 E, Rigby ID 83442
Q. 7. Spring Small tributaries Granite Creek
2. Source of water supply to Granite Creek tributary to South Fork of Snake
3. Point of diversion is in Gov't. Lot SW 1/4 NE 1/4 NE 1/4, Section 29, Township T2N Range 42 E B.M., Bonneville County.
Designation on accompanying TOPO map S-4
4. Description of diversion and delivery system:
 - a) Describe the type of diversion: Spring to water trough using spring box (see drawing)
 - b) Describe the delivery system: Underground pipe 1 1/4" diameter minimum (see drawing)
 - c) Describe the number, type and total capacity of troughs or tanks 1 300 gallon tank
 - d) Describe the automatic shutoff or flow control mechanism or means of Returning unused water to the source: Overflow returning water back to stream bed
 - e) Describe how the system is designed to allow measurement of the rate of diversion: Inlet pipe in trough would allow a hose to be attached for measurement.
5. Describe the place of use by placing an X in the appropriate 40-acre tract(s) below:

TWP	RGE	SEC	NE				NW				SW				SE			
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE
2N	42	29	X															
6. Priority date claimed or established: May 1, 1885
7. Rate of diversion: 0.02 cfs

MICROFILMED

JAN 29 2001

8. Season of use: From Jan 1 to Dec 31
9. a) Who owns the property at the point of diversion? Carl Zitlau
b) Who owns the property at the place of use? Carl Zitlau
10. When will construction occur? Fall 2000 to Fall 2001
11. Comments: This system will provide off-stream watering of stock to reduce erosion of stream banks.

I hereby assert the following:

- a) Diversion is from a surface water source to which the livestock would otherwise have access. The land where the watering tanks or troughs will be located is land from which the livestock had access to the source of water from which diversion is being made.
- b) The diversion of water out of the stream as described in this notice is for watering livestock and will not injure other water rights.
- c) I will not alter the bed and banks of the source as the term is defined in section 42-3802, Idaho Code. I understand that I may place an inlet conduit into the source in a manner that does not require excavation or obstruction of the stream channel, unless the director of the department of water resources approves a stream channel alteration permit for additional work.
- d) I understand that upon determination of interference with other water rights, the Director may order curtailment of diversion or use of water under this notice or may require the diversion and delivery system to be modified to prevent injury.
- e) I will not divert more than 13,000 gallons per day for livestock watering from this diversion, and I will not use more than one point of diversion under this notice.
- f) I am authorized to make the changes described in this notice and that if the notice involves a federal grazing allotment, the permittee consents to the changes described in this notice.
- g) I understand that any willful misrepresentation on this notice will void any right to divert water for livestock under this notice.

Dated this 28 day of September 2000

RE: Instream Stock Diversion No 23-04075 to 23-04087.
Notice of Diversion for Instream Stockwater Use

Dear Mr. Zitlau:

The Department of Water Resources acknowledges receipt of the water right notice you submitted under Section 42-113(3), Idaho Code. Please refer to the above referenced number in all future correspondence regarding this notice.

If exceptions to the notice are filed you will be sent a copy of the exceptions(s).

The filing of the notice does not confirm the validity of the water right. It will serve to record and preserve the information, including any exceptions, regarding the notice.

Please note that the diversion described in your notice may occur only if the following conditions are met.

- The water is diverted from a surface water source to a trough or tank through an enclosed water delivery system.
- The water delivery system is equipped with an automatic shutoff or flow control mechanism or includes a means for returning unused water to the surface water source through an enclosed delivery system, and the system is designed and constructed to allow the rate of diversion to be measured.
- The diversion is from a surface water source to which the livestock would otherwise have access and the watering tank or trough is located on land from which the livestock would have access to the surface water source from which the diversion is made.
- The diversion of water out of the stream in this manner does not injure other water rights.
- The use of the water diverted is for watering livestock.
- The bed and banks of the source shall not be altered as that term is defined in section 42-3802, Idaho Code, except that an inlet conduit may be placed into the source in a

MICROFILMED

JAN 29 2001

manner that does not require excavation or obstruction of the stream channel, unless additional work is approved by the Director of the Department of Water Resources.

- The amount of water diverted for watering of livestock shall not exceed thirteen thousand (13,000) gallons per day.

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

We are enclosing a copy of the notice for your records. Please feel free to contact this office if you have any questions.

Sincerely,

Harold W Jones
Water Right Supervisor
