Mr. Kenneth Dunn

Dear Mr. Dunn:

Enclosed are 16 water right claims for use of waters within the Minidoka Project area, summarized as follows:

- | | |
|---------------------------------|---------------------------------|
| 1. Minidoka Irrigation District | Artificial Ground Water-Storage |
| 2. Burley Irrigation District | Artificial Ground Water-Storage |
| 3. Palisades Reservoir | Bank Storage |
| 4. Island Park Reservoir | Bank Storage |
| 5. Lake Walcott | Bank Storage |
| 6. Jackson Lake Wyoming | Storage Yield (Interstate) |
| 7. Grassy Lake Wyoming | Storage Yield (Interstate) |
| 8. Palisades Powerplant | SNAKE RIVER NATURAL FLOWS |
| 9. Palisades Reservoir | Refill of Storage |
| 10. Island Park Reservoir | Refill of Storage |
| 11. American Falls Reservoir | Refill of Storage |
| 12. Walcott Park | Irrigation |
| 13. Palisades Camp | Irrigation & Domestic |
| 14. Palisades Camp | Domestic |
| 15. Falls Irrigation District | Recapture of Surface Water |
| 16. A&B Irrigation District | Recapture of Surface Water |

The claims, with their attachments are self explanatory.

Claim numbers 3, 4, and 5 are for net yields from so called Bank Storage in Palisades and Island Park Reservoirs and Lake Walcott respectively. Drawdown of American Falls Reservoir, also yields water stored in the permeable banks. However, Certificate No. 01-2064 for American Falls Reservoir already covers 100,000 acre-feet identified as bank storage, so no claim is required.

With regard to Lake Walcott the Foster Decree provides in part follows:

"It is further ORDERED, ADJUDGED AND DECREED, until otherwise provided by Statute, the State Engineer of the State of Idaho, or his duly authorized deputy, shall determine what part of the water flowing in Snake River at the Minidoka and Milner Dams, is storage waters, and what part is natural flow, as provided by the Idaho Session laws of 1909, entitled: "an act to provide for the

safe-guarding of the rights of those conserving public waters in Reservoirs and prohibiting Misappropriation of such waters by those having no Right to the use of same, and delaring a 'Misdemeanor', the amount of the natural flow to be determined as such natural flow would be, if unaffected by the diversion or acts of the parties hereto or any or either of them or by the release of stored water, the natural flow to which the Twin Falls Projects are entitled to be measured to them at the Milner Dam. (emphasis added.)

Thus, a water right for all "waters flowing in the Snake River at Minidoka and Milner Dams" except natural flow has been adjudicated to the United States. Since bank storage is a result of construction of Federal Reclamation Project Works and not a part of "natural flow," any yield from Bank Storage in Lake Walcott belongs to the United States by Decree and no claim should be required.

Until 1978, the various watermasters determined the "amount of the natural flows" to which the "Twin Falls Projects are entitled" by measurements taken at Neeley, on the basis that the "normal flow at Neeley is the same as the normal flow at Milner would have been, if the Minidoka Dam had never been constructed" (water distribution below Neeley Gaging Station - Lynn Crandall - April 1, 1926).

The computer model used by the District 01, Watermaster for water accounting since 1978, contains no provision for recognizing yield from bank storage, therefore a claim for bank storage yield in Lake Walcott is included with this filing.

Sincerely yours,

Regional Director
