If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. Spring is fenced with a pole fence. Concrete tile has been laid throughout spring area and this tile conducts collected spring water to a concrete box or head box. Spring flow is approximately 15 gallons per minute. Water is piped from spring to Calamity Campground in 1½-inch galvanized iron pipe. Distance from spring to campground is approximately one mile.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is being used as culinary water in Calamity Campground. The entire campground of some 80-family units capacity is dependent on this spring for culinary water. This water is also diverted to a sheep water trough during the summer season; in SW. 1/4, Sec. 17; SE. NE. 1/4, Sec. 18, all in T. 1 S. - R. 45 E. B.M.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans.

25666

Ques. 7. If for other than irrigation purposes, state how applied, amount of horse power generated, etc.

Ans. Used for stock water in Tag Alder Water Development (sheep) and for culinary water at Calamity Campground.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. 15 gallons per minute - the entire flow of the spring

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. This spring has been used for the past 20 years as a source of water for sheep using adjacent range. Since 1956 it has been used as a source of culinary water for Calamity Campground. No other use is known.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Gentlemen:

This acknowledges the Notice of Proof of ~~Completion of Work and~~ Application of Water to Beneficial Use under Permit No. 25666. The proofs are to be made at 10:00 o'clock A.M., on the 15th day of September, 1961, ~~before~~ before John M. Corless, 603 North Capital Ave., Idaho Falls, Notary Public.

As of this date we have mailed the Notice to the Post Register with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

Dear Sir:

Under the terms of your permit No. see above you are required to complete your diversion works on or before May 11, 1960. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, together with a fee of \$5.00, a Certificate of Completion of Works will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
