Governor

KARL J. DREHER
Director

November 21, 2002

JACK LEE
PO BOX 115
IRWIN ID 83428

RE: Permit No. 23-11223

Permit Approval Notice

Dear Permit Holder:

The Department of Water Resources has issued the enclosed permit authorizing you to establish a new water right. Please be sure to thoroughly review the conditions of approval and remarks listed on your permit.

The permit is a PRELIMINARY ORDER issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

Also, water right records show that there are other water rights for irrigation purposes appurtenant to land in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, T1N, R44E. The Palisade Irrigation Co. and Palisades Water Users, Inc., have filed claims showing the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, T1N, R44E, as being within the place of use for their surface water rights. The Department's practice for many years has been to require the continued use of surface water when and where it is available. You are not being required to use surface water for lawn irrigation in connection with the proposed duplexes only because you reported

MAR 2 2 2003

Jack Lee
November 21, 2002
Page 2

to Department staff that it is not available to you. If you find out that the surface water is available to you for irrigation, the Department strongly urges you to take advantage of this resource instead of using ground water.

Records also show that water right license 23-7021, which was issued to Deloy J. Beasley in 1983, authorizes the diversion of ground water for the irrigation of 39 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16, T1N, R44E. Right 23-7021 was claimed by Lathen W. Jacobson in the Snake River Basin Adjudication. Because a water right is appurtenant to the land on which it is used, water rights are customarily included when the land is sold to a new owner. Sometimes, however, the sale agreement reserves the water right for the seller or provides for an alternative disposition of the water right. The possibility that a portion of water right 23-7021 is appurtenant to your land could be important to you because the right carries a priority date of April 29, 1977. Water rights in Idaho are regulated by priority – in a time of shortage, older rights get water and newer uses are curtailed. Because the Department has not actively regulated ground water diversions in the past, many people have not been concerned with the priority of their ground water rights. However, the Department is implementing conjunctive management of surface and ground water across the Eastern Snake River Plain. As a result, ground water rights will be regulated to insure the availability of water under senior surface water rights. For this reason, it may be worthwhile for you to find out if you are entitled to a portion of water right 23-7021 and to apply to change the right to cover your water use.

And finally, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

Shelley W. Keen
Water Rights Supervisor

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

(To be used in connection with actions when a hearing was not held)

(Required by Rule of Procedure 730.02)

The accompanying order or approved document is a "**Preliminary Order**" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources ("department") unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below.

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the Department or the Water Resource Board is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the Department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of, or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

MEMORANDUM

Date: November 20, 2002
To: Water Right File 23-11223
From: dgibson
Re: Permit Review

This water right is for two duplexes. Each duplex has 1/2 acre with irrigation. Additionally, this land has appurtenant surface water rights through Palisades Irrigation Co. and/or Palisades Water Users, Inc. The applicant does not mention these in the application. Mr. Lathen W. Jacobsen presently has an adjudication claim for groundwater on this same property.

A suggestion will be sent to the right holder to check into the surface water rights to see if they may be transferred to this property.

Dear Applicant(s):

The Department of Water Resources acknowledges receipt of your water right application. Please refer to the above referenced number in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the Post Register on October 3 and 10, 2002. Submittal of protests to this application will be allowed for a period ending ten days (October 22, 2002) after the second publication.

If the application is protested you will be sent a copy of the protest(s). All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, it will be forwarded to our State Office in Boise for final processing. The State Office will notify you of any action taken on the application and will send you a copy of the permit if approved.

Please feel free to contact this office if you have any questions.

Sincerely,
