CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. Use of water under this water right is subject to control by the watermaster of State Water District No. 63
6. When water used under this license is discharged into the natural channel, settling ponds must be maintained which are capable of reducing the silt load to such a level that the quality of will not be impaired for other beneficial uses.

RECEIVED

FEB 21 1990

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
	)	
NO. 63-9934 IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
WILLIAM R. SHARP	)	

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 63-9934 for issuance of a license, the Department finds, concludes and orders:

FINDINGS OF FACT

1. The Department approved Application for Permit No. 63-9934 to appropriate the public waters of the State of Idaho with a proposed priority of JULY 21, 1982.
2. On APRIL 27, 1987 the Department advised the permit holder that a license examination fee was required before an examination could be conducted to confirm the extent of use developed under the permit. The examination fee was due on JUNE 26, 1987.
3. The license examination fee was not paid within one year of the date, and the permit lapsed for failure to pay the license examination fee.

MICROFILMED

FEB 21 1990

4. The license examination fee was received on
AUGUST 05, 1988, 405 day(s) late.

CONCLUSIONS OF LAW

1. The Director may advance the priority date of the permit one day for each day the license examination fee is late, pursuant to the provisions of Section 42-217, Idaho Code.

2. The date of priority of Permit No. 63-9934 should be advanced 405 day(s).

ORDER

IT IS HEREBY ORDERED that Permit to Appropriate Water No. 63-9934 is reinstated.

IT IS FURTHER ORDERED that the date of priority of Permit No. 63-9934 is advanced to AUGUST 30, 1983.

Dated this 7th day of November, 1989.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-9934, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before October 1, 19 87.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Use of water under this permit is subject to control by the watermaster of State Water District No. 63, Boise River.

In the event that water used under this permit should be discharged into a natural channel, settling ponds will be required which are capable of reducing the silt load to such a level that the quality of the water would not be impaired for other beneficial uses.

The diversion of water under this permit shall not reduce the flow of the Boise River during the period from June 15 through November 1.

Witness my hand this 28th day of October, 1982.

PUMP IS CAPABLE OF DELIVERING WELL OVER THE .06 CFS REQUESTED. STREAM FLOW WAS ABNORMALLY LOW AND OPERATOR WAS UNABLE TO DIVERT SUFFICIENT WATER TO OBTAIN A GOOD FLOW MEASUREMENT. THE PUMP WOULD SUCK AIR IF OPERATED FASTER THAN A VERY SLOW IDLE. THEREFORE I RECOMMEND THE LICENSE REFLECT THE .06 CFS ON THE PERMIT.

Dear Mr. Sharp:

Re: Permit No. 63-9934

EXAMINATION FEE NOTICE

Department records show that proof of beneficial use has been submitted for Permit No. 63-9934, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is available from the department upon request. A listing of certified water right examiners is also available.

EMPLOYEE Jan ThuteRE: Exam for Permit No. 63-9934

Mr. Sharp phoned with question concerning scheduling a field exam on the above permit. He has installed a 4" pipe in the creek with a 50 gallon drum barrel right beside the creek ^(ground level) which fills up with water from the 4" pipe. He plans on installing a pump from this barrel up to his sluice box approx. 40' above the creek. As yet he has not purchased the pump & was not aware he needed to prior to the exam. I informed him of the beneficial use criteria & he agreed to install the pump by June & scheduled his exam tentatively for June 17th. I will call June 10th to set a time.

EXAMINATION FEE NOTICE

Department records show that proof of beneficial use has been submitted for Permit No. 63-9934, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination. If you change to another certified examiner.

Certified water right examiners are licensed ^{July 1986} engineers, or geologists certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is available from the department upon request. A listing of certified water right examiners is also available.

If your permitted use, in fact has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The license examination fee schedule, on back of the enclosed information sheet, shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be returned to this office. If you have questions or concerns, please fee free to call (208) 334-2190, or to visit the office location near the airport, at 2735 Airport Way.
