WATER RIGHT LICENSE

WATER RIGHT NO. 63-09875

Priority: March 2, 1982

Maximum Diversion Rate:

2.40 CFS

Maximum Diversion Volume:

540.0 AF

This is to certify, that DIANE B FORSGREN

449 E 350 S

REXBURG ID 83440

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated February 10, 1982; and has submitted Proof of Beneficial Use on February 7, 1992. An examination indicates that the works have a diversion capacity of 6.660 cfs of water from a GROUNDWATER source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
IRRIGATION	03/15 to 11/15	2.40 CFS	540.0 AF

LOCATION OF POINT(S) OF DIVERSION:

SWNW , Sec. 7, Township 01N, Range 01W
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
01N	02W	13	NESW 40	NESE 40	NWSE 40	120

Total number of acres irrigated: 120

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right limited to the amount that can actually be beneficially use used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The issuance of this right in no way grants any right-of-way or easement across the land of another.
6. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

APR 16 1993

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

WATER RIGHT NO. 63-09875

CONDITIONS/REMARKS:

7. The right holder shall fully use all surface water rights appurtenant to the lands identified above prior to using water under this right.
8. The total combined rate of diversion under this right and Rights 63-03187, 63-03188 and 63-03189 shall not exceed 6.66 cfs.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 12TH day of MARCH, 1993.

Receipt # 0003021no # encl 07 REQUEST FOR EXTENSION OF TIME

Department of Water Resources

To provide additional time in which to submit proof
of beneficial use for a water right permit

RECEIVED

OCT 21 1988

The Idaho Department of Water Resources will consider this form as a request that the permit holder(s) be granted an additional period of time in which to complete development of a water right under the provisions of Section 42-204, Idaho Code.

Permit No. 63-9875Name(s) of Permit Holder: Diane B. ForsgrenPost Office Address: 449 East 350 South, Rexburg, ID 83440Telephone No. 208-356-5938Date Proof Is Due: 10-1-1988

Describe what work has been completed toward the development of this water right: We have
(This must be filled out! If no work has been completed, show "none".)

dug 2 wells - one of which is non-productive. All
mainline is in and most of land has
been irrigated.

Costing \$ 60,000.⁰⁰

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Complete clearing and preparing land
which was under DLE I-18512, consisting of
120 acres.

Permit holder(s) request an extension to 10-1, 1993.
(1 yr. minimum)Diane B. Forsgren
(Signature)*

FEE: \$15.00

*IF OTHER THAN PERMIT HOLDER,
POWER OF ATTORNEY MUST BE SUPPLIED.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

AUG 06 1991

IT IS HEREBY ORDERED that the above request for extension of time be APPROVED and the time within which to submit proof of beneficial use is extended to October 1, 1993. IT IS FURTHER ORDERED that the permit be REINSTATED and the priority advanced to March 2, 1982, pursuant Sec. 42-218a, Idaho Code.

Signed this 31st day of October, 19 88.J. Glen Saylor

ASSIGNED TO:

Diane B. Forsgren

449 E. 350 S.

Rexburg, ID 83440

To appropriate the public waters of the State of Idaho

1. Name of applicant Power Butte Farm - Clayter F. Forsgren Phone 208-356-9201Post office address 350 North 200 East, Rexburg, ID 834402. Source of water supply Ground Water which is a tributary of _____3. Location of point of diversion is SW $\frac{1}{4}$ of NW $\frac{1}{4}$ of Section 7 Township 1NRange 1W B.M. Ada County, additional points of diversion if any: _____SW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 12, T 1N, R 2W

4. Water will be used for the following purposes:

Amount 3.0 for Irrigation purposes from April 1 to October 1 (both dates inclusive)
(cfs or acre-feet per annum)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 3.0 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Deep well pump - Steel mainline
and sprinkler irrigationb. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir
capacity _____ acre-feet, materials used in storage dam: _____Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial

use is 5 years (minimum 1 year - maximum 5 years).

8. Description of proposed uses:

a. If water is **not** for irrigation:(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____

Range _____ B.M. _____

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
1N	2W	13									40				40	40		40	160 acres

Total number of acres to be irrigated 160

c. Describe any other water rights used for the same purposes as described above. _____

9. a. Who owns the property at the point of diversion Power Butte Farm, Inc. - Clayter F. Forsgren

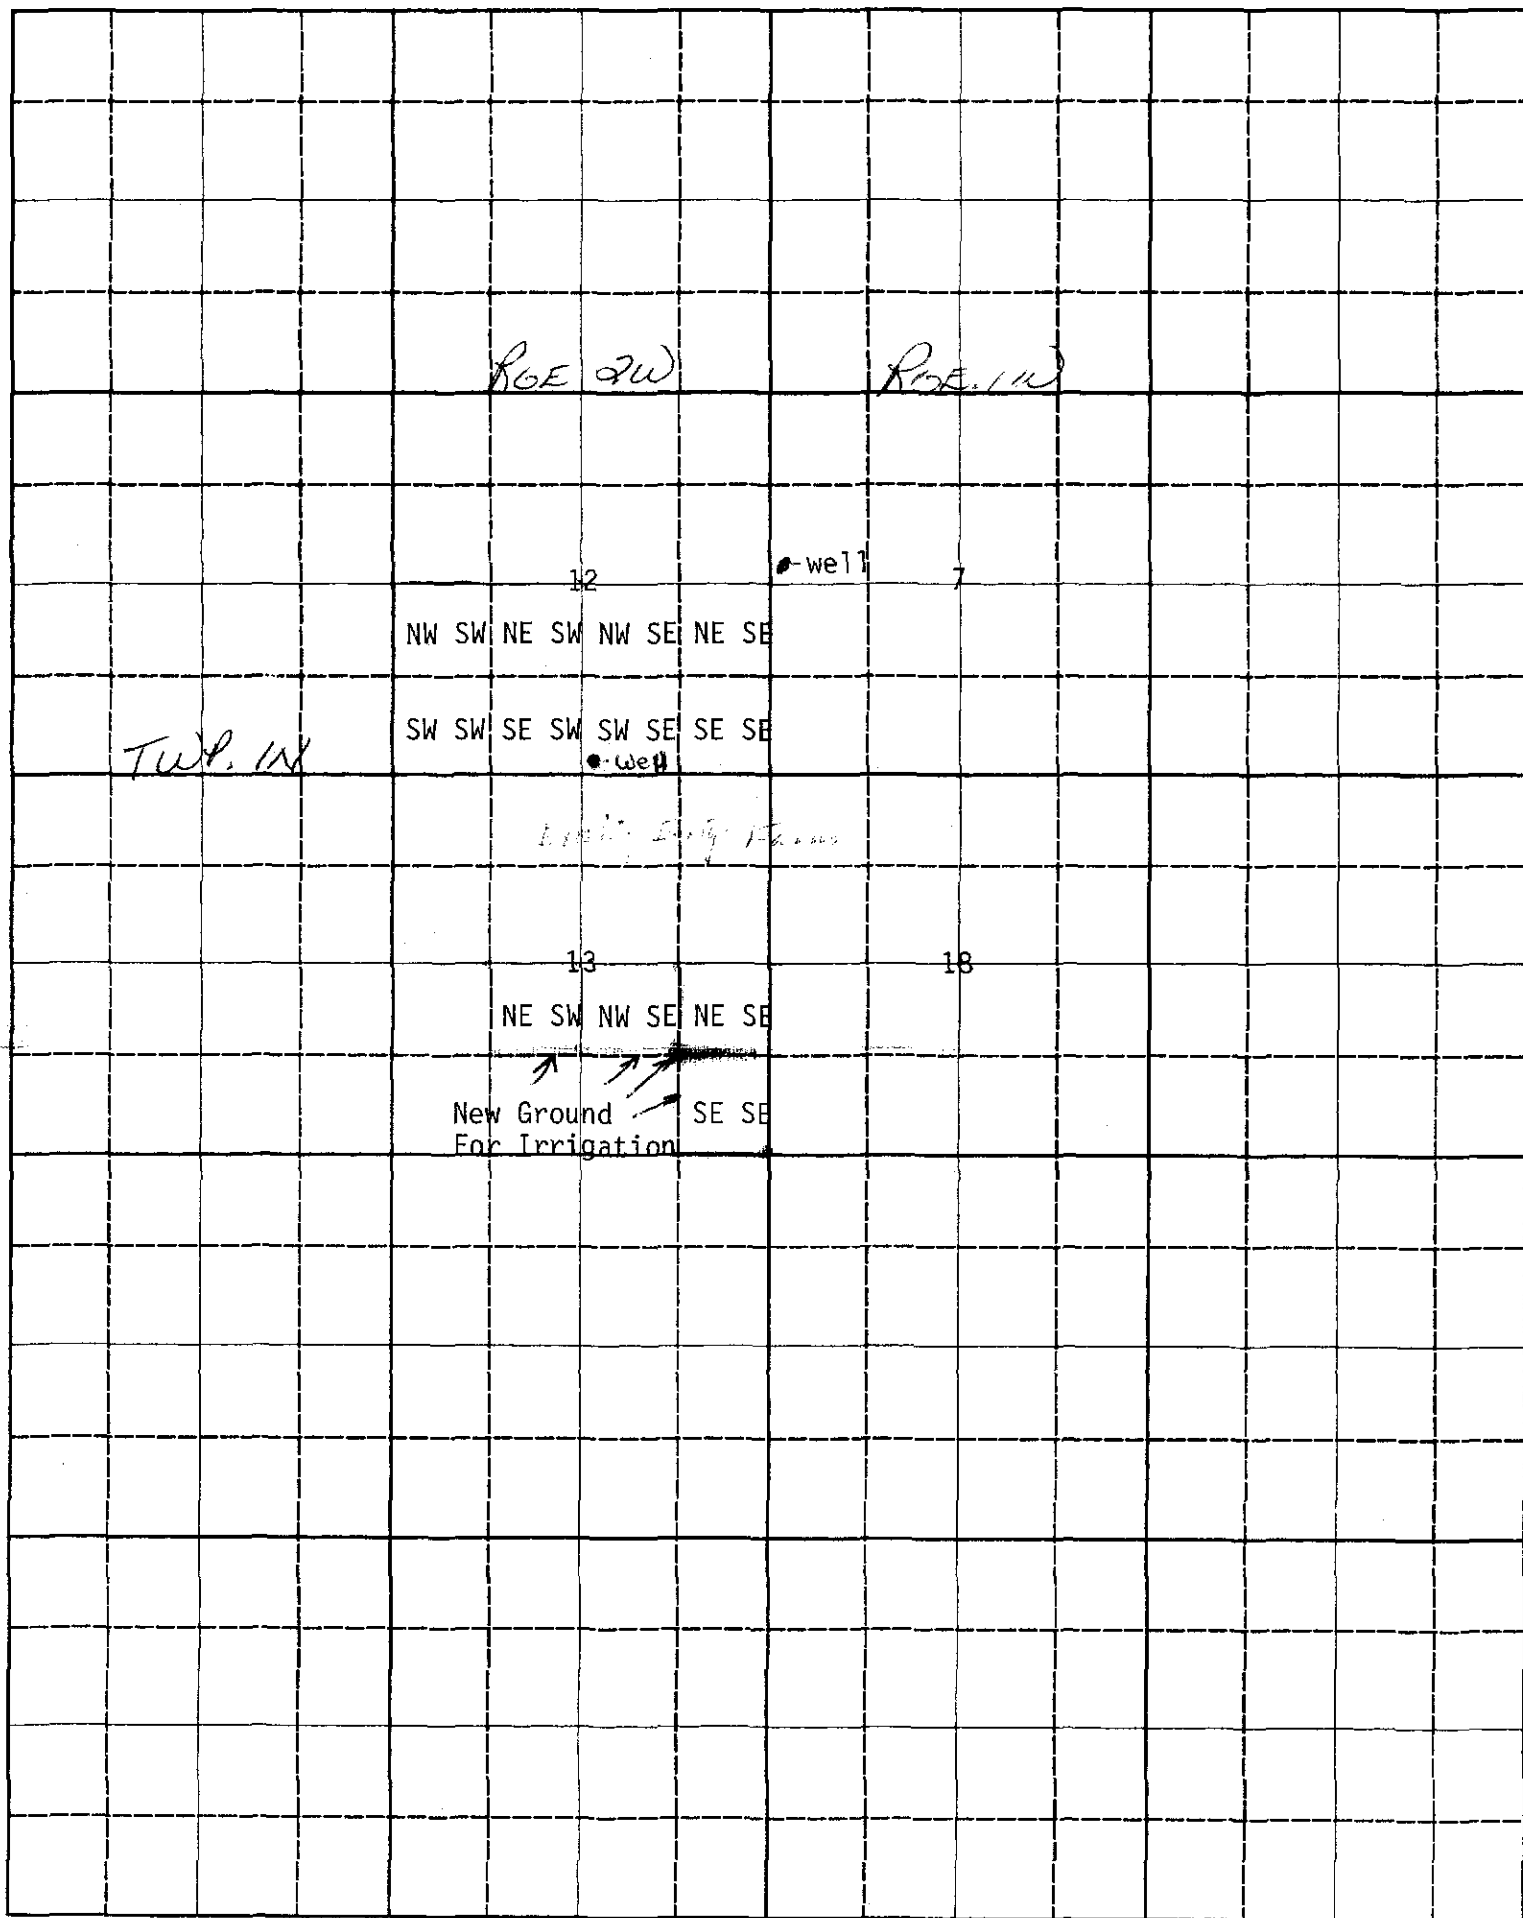

b. Who owns the land to be irrigated or place of use BLM

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing Submitted Desert Land Entry Application 2-8-82

10. Remarks I now own 915 acres of ground being irrigated from the one well. I have entered a Desert Land Entry application for 160 acres that is bordered on two sides by the deeded land. Irrigation of the new 160 acres will require increasing the pump capacity and extending the existing irrigation system.

DLE. I-18512

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-9875, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before October 1, 19 88.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Permit holder shall commence the excavation or construction of diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.
The issuance of this permit in no way grants any right-of-way or easement across the land of another.
An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 31st day of October, 1983.

PROOF ACKNOWLEDGMENT LETTER

RE: PERMIT NO. 63-09875

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning this matter, please feel free to contact the WESTERN Regional Office in Boise at (208)334-2190.

Sincerely,

Karen L. Gustafson
Secretary/Records Manager

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources will consider this form as a statement that the permit holder(s) has completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee or a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

Permit No. 63-9875

Name(s) of Permit Holder: Diane B. Forsgren

Post Office Address: 449 East 350 South, Rexburg, Idaho 83440

Telephone No. (208) 356-5938

Source of Water: Deep Well

Extent of Use:

Domestic (number of households) Stockwater (number and type of stock)

Irrigation 110 (acres) Other/Remark

Total rate and/or volume for which proof is submitted 1.1 cfs acre-feet

Show the date water was first diverted and beneficially used under this permit: May 1987

Measuring Device: Required? ☐ Yes ☐ No
Installed? ☐ Yes ☐ No

Fee enclosed \$ 125⁰⁰
(See License Examination Fee Schedule)

Flow Measurement Port: Required? ☒ Yes ☐ No
Installed? ☒ Yes ☐ No

DATE: May 26, 1987

SUBJECT: Water Measurement - Clayter Forsgren Property

The flow from the pump at the Clayter Forsgren property was measured on May 22, 1987. The pump is a 400 horsepower, Westinghouse vertical turbine, serial number 25V8167. The measurement was made using a Collins air/water manometer which is accurate to within +/-2%. The first measurement was made with the 400 horsepower unit operating without the booster pump which resulted in a pressure at the discharge pipe of 45 pounds per square inch. The flow produced by this unit was 10.08 cubic feet per second which is equivalent to 504 miners inches or 4,523 gallons per minute.

The second measurement was taken with both the main pump and the booster pump, serial number 25Y8167 in operation. Operating pressure could not be obtained since the location for the pressure gage was on the suction side of the booster pump. The flow produced by the well with both units operating was 11.10 cubic feet per second which is equivalent to 555 miners inches or 4,981 gallons per minute. The difference in production of the well with the booster pump on was 1.02 cubic feet per second or 457 gallons per minute.

Water velocity in the mainline at the point of measurement was well within normal design parameters. Average velocity during the initial measurement was 4.66 feet per second and water velocity in the mainline with the booster pump in operation was 5.13 feet per second. In general, velocities less than 6 feet per second are considered to be in the acceptable range.

If any questions arise relating to the measurement or additional information is needed, please contact Sherl L. Chapman, 410 S. Orchard, Suite 144, Boise, Idaho 83705.

PROOF DUE NOTICE

RE: PERMIT NO. 63-09875

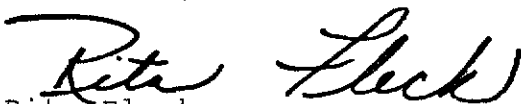

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before October 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this department on or before the above described proof due date. If neither is received, the department will send you a lapse notice. Within sixty (60) days of the mailing of the lapse notice, the permit will no longer be of any force nor effect.

SINCERELY,

Rita Fleck
Secretary/Records Manager

Dear Mr. Forsgren:

Enclosed is your check, No. 565, made out the the Department of Water Resources for \$275. I am returning the check to you because the amount is excessive for the water you wish to appropriate.

Based on your representations on the telephone, I will expect receipt of an examination fee of \$125 for 2.0 cfs. Upon receiving the check, I will immediately process the exam fee. I have spoken to Jan Shurte of the Western Region, and she feels confident that an exam can be conducted within the next couple of weeks.

Sincerely,

A handwritten signature in cursive script, reading "Gary Spackman", is written over the typed name.

RE: Permit No. 63-9875

Diane B. Forsgren
449 E. 350 S.
Rexburg, ID 83440

Dear Ms. Forsgren:

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Please be advised that numerous prior applications for permit have been filed to appropriate water from your source, to be used on desert land entry and/or Carey Act lands. Development of these water rights is currently prevented by the U.S. Bureau of Land Management. However, if the lands are released for development, the associated water rights will receive water prior to your water right enclosed. Therefore, be sure to analyze the future impact of these rights before making a major investment in a water supply system.

Be sure to note the special condition requiring you to install a measuring device, or an access port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the access port.

The 1982 Idaho Legislature added a requirement that as a permit holder you must commence the excavation or construction of diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The enclosed blue card must be completed and returned to this office as soon as you commence construction, no later than one year from the date the permit was approved.

We have enclosed instructions entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

Dear Ms. Forsgren:

The 30-day comment period allowed for the Initial Classification Decision that was issued for your desert land entry application I-18512 has expired. No comments were received.

The next step in the process for allowing entry on the 120 acres that were classified suitable is the submission of an approved water permit by you from the Department of Water Resources. You are requested, at this time, to submit a copy of the approved permit to this office.

Once this is accomplished we will be ready for the final step of the process which is the completion of an economic analysis. The analysis will require specific input from you based upon your proposal for developing the land. You will be contacted shortly after the water permit has been received regarding the economic analysis.

If you have any questions concerning the above, please contact Mike Berch at 334-1582.

Sincerely yours,

DLE Application

Application Held for Rejection Approved Water Permit

On March 30, 1983, 120 acres of public land were classified suitable for entry under Desert Land Entry Application I-18512. By letter dated July 6, 1983, you were requested to submit an approved water permit for the subject land. Thus far, you have not complied with the request.

You are allowed 30 days from receipt of this notice to submit the above described water permit to this office. Failure to take action within the period of time allowed will result in the rejection of your application. If additional time is needed, please submit a written request within the 30 day period allowed.

Rexburg, Idaho 83440

Dear Ms. Forsgren:

Attached is an Initial Decision to classify 160 acres of public land in Canyon County, Idaho partially suitable for Desert Land Entry. The official report setting out the facts upon which the decision is based, is available for inspection at the Bureau of Land Management, Boise District Office, 3948 Development Avenue, Boise, Idaho 83705.

A 30-day period will be allowed for comments following receipt of this decision. The classification becomes final at that time if no protests are received.

All comments, objections, or protests should be sent to the Secretary of the Interior, LLM 320, Washington D.C. 20240.

Once the lands are classified, applications may be processed. Applications on land classified unsuitable will be rejected. Applications on lands classified suitable will be subjected to engineering and economic feasibility analysis and will require a showing that sufficient water is available. If the analysis and water showing are favorable, entry will be allowed. If not, the application will be rejected.

Sincerely yours,

Martha Summer

CLASSIFICATION DECISION
(Initial)

A.

The following described land has been examined and found suitable for agricultural purposes:

T. 1 N., R. 2 W., Boise Meridian, Idaho
sec. 13, NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$.

Containing 120 acres

The land is hereby classified suitable for disposal under provisions of the Desert Land Act, as amended, (19 Stat. 377; 43 U.S.C. 321-323).

The above described public land is physically suitable and adaptable to agriculture. There would be no significant adverse impacts resulting from the development. The land has been zoned for agriculture by the Canyon County Planning and Zoning Department.

B.

The following described land has been examined and found unsuitable for agricultural purposes:

T. 1 N., R. 2 W., Boise Meridian, Idaho
sec. 13, SE $\frac{1}{4}$ SE $\frac{1}{4}$.

Containing 40 acres

The land is hereby classified unsuitable for disposal under provisions of the Desert Land Act, as amended, (19 Stat. 377; 43 U.S.C. 321-323). It is segregated by this classification from disposal under the Act.

The above described public land is not physically suitable for agricultural development. The soil on the tract varies in depth to bedrock from 5 to 20 inches. Bedrock is exposed in about 10 to 30 percent of the acreage. These areas of exposed bedrock are 30 to 100 feet apart and they make tillage impractical.

C.

This Initial Decision is in accordance with the Endangered Species Act of 1973 (P.L. 93-205, 87 Stat. 884, 16 U.S.C. 1531), Executive Order Number

11593, National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470 et. seq.) as amended, National Environmental Policy Act of 1969 (P.L. 91-190, 83 Stat. 852; 42 U.S.C. 4321), Federal Land Policy and Management Act of October 21, 1976 (P.L. 94-579, 90 Stat. 2743 Section 102 (8)), and Section 7 of the Taylor Grazing Act (43 U.S.C. 315, 315a - 315r).

This Classification action meets the criteria in, and is made pursuant to 43 CFR 2410.1(a) - (d), 2430.5 (e), 2450 and 2520.0-8.

The following petition for classification is affirmed and denied in part:

RE: Permit No. 63-9875

Dear Mr. Forsgren

Please be advised that your application for permit has been processed. However, since your application is filed in connection with a desert land entry with the Bureau of Land Management, the Department of Water Resources will take no further action until such time as we receive evidence in writing that this land has been classified as suitable for desert entry.

Please contact us if we may be of further assistance.

Sincerely,

JIM JOHNSON

Ms. Diane Forsgren
449 East 450 South
Rexburg, Idaho 83440

Dear Ms. Forsgren:

Attached is an Initial Decision to classify 160 acres of public land in Canyon County, Idaho partially suitable for Desert Land Entry. The official report setting out the facts upon which the decision is based, is available for inspection at the Bureau of Land Management, Boise District Office, 3948 Development Avenue, Boise, Idaho 83705.

A 30-day period will be allowed for comments following receipt of this decision. The classification becomes final at that time if no protests are received.

All comments, objections, or protests should be sent to the Secretary of the Interior, LLM 320, Washington D.C. 20240.

Once the lands are classified, applications may be processed. Applications on land classified unsuitable will be rejected. Applications on lands classified suitable will be subjected to engineering and economic feasibility analysis and will require a showing that sufficient water is available. If the analysis and water showing are favorable, entry will be allowed. If not, the application will be rejected.

Sincerely yours,

Martin Summer

CLASSIFICATION DECISION
(Initial)

A.

The following described land has been examined and found suitable for agricultural purposes:

T. 1 N., R. 2 W., Boise Meridian, Idaho
sec. 13, NE $\frac{1}{4}$ SW $\frac{1}{4}$, N $\frac{1}{2}$ SE $\frac{1}{4}$.

Containing 120 acres

The land is hereby classified suitable for disposal under provisions of the Desert Land Act, as amended, (19 Stat. 377; 43 U.S.C. 321-323).

The above described public land is physically suitable and adaptable to agriculture. There would be no significant adverse impacts resulting from the development. The land has been zoned for agriculture by the Canyon County Planning and Zoning Department.

B.

The following described land has been examined and found unsuitable for agricultural purposes:

T. 1 N., R. 2 W., Boise Meridian, Idaho
sec. 13, SE $\frac{1}{4}$ SE $\frac{1}{4}$.

Containing 40 acres

The land is hereby classified unsuitable for disposal under provisions of the Desert Land Act, as amended, (19 Stat. 377; 43 U.S.C. 321-323). It is segregated by this classification from disposal under the Act.

The above described public land is not physically suitable for agricultural development. The soil on the tract varies in depth to bedrock from 5 to 20 inches. Bedrock is exposed in about 10 to 30 percent of the acreage. These areas of exposed bedrock are 30 to 100 feet apart and they make tillage impractical.

C.

This Initial Decision is in accordance with the Endangered Species Act of 1973 (P.L. 93-205, 87 Stat. 884, 16 U.S.C. 1531), Executive Order Number

11593, National Historic Preservation Act of 1966 (80 Stat. 915, 16 U.S.C. 470 et. seq.) as amended, National Environmental Policy Act of 1969 (P.L. 91-190, 83 Stat. 852; 42 U.S.C. 4321), Federal Land Policy and Management Act of October 21, 1976 (P.L. 94-579, 90 Stat. 2743 Section 102 (8)), and Section 7 of the Taylor Grazing Act (43 U.S.C. 315, 315a - 315r).

This Classification action meets the criteria in, and is made pursuant to 43 CFR 2410.1(a) - (d), 2430.5 (e), 2450 and 2520.0-8.

The following petition for classification is affirmed and denied in part:

Dear Mr. Forsgren:

Enclosed is an assignment for an application for permit and a copy of a memo from the Bureau of Land Management.

If I understand the situation, it appears that the application for permit filed by you and Power Butte Farm should have been in the name of Diane B. Forsgren since her name is on the D.L.E. Application. In order to have our records and Bureau of Land Management's consistent, the assignment is needed.

Should you have any questions regarding this matter, please contact me.

Sincerely,

G.L. Sisco

SHORT NOTE TRANSMITTAL

February 23, 1982

(Date)

TO : David B. Shaw, Idaho Dept. of Water Resources,
Western Region, Boise

FROM : Vincent S. Strobel, Idaho State Office, BLM

SUBJECT: Water Permit Application No. 63-9875

Attached is a copy of your letter of February 19, 1982 regarding the subject application filed by Power Butte Farm - Clayter F. Forsgren. The application indicates that Mr. Forsgren has filed an application for Desert Land Entry on the lands involved in the permit application.

Our records show that the Desert Land Application, I-18512, was filed in this office on 2/10/82 in the name of Diane B. Forsgren, 449 E. 350 South, Rexburg, Idaho 83440. Our records also show that Clayter F. Forsgren received title to 320 acres of public land under the Desert Land Act in 1965 and, therefore, has exhausted his right to an entry under this Act.

Mrs. Forsgren's application has been referred to our Boise District Office for classification action to determine whether or not the lands are suitable for desert land entry. If or when the lands might be classified as suitable, she would be required to show she has a water right in her own name.
