WATER RIGHT NO. 63-9818

Priority: October 2, 1981 Amount: 1.39 CFS

This is to certify, that ROBERT HENGGELE
RT. 1 BOX 1472
FRUITLAND, ID 83619

has complied with the terms and conditions
of the permit issued pursuant to Application for Permit dated October 2, 1981, and
has submitted proof to the Department of Water Resources on December 29, 1981, that
water has been applied to a beneficial use; an examination by the Department indicates
that the works have a diversion capacity of 6.13 cfs of water from a GROUNDWATER
source and that a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>VOLUME</u>
Irrigation	03/15 to 11/15	1.39 cfs

The well is used in conjunction with another well (63-7955) to irrigate 300 acres of fruit trees. This well is cased to 695 feet with 16" casing. Dynamic water level is at 308 feet. The two wells supply water to a pressurized sprinkler irrigation system. Gravity supplies pressure since the well is at the top of a hill. An 8" mainline supplies the sprinkler system.

TO: FILE NO.'S 63-7955, 63-9818, & 63-10364

FROM: JAN SHURTE

J 12/11/86 *DKS* 2/23/87

SUBJECT: THE WHOLE STORY BEHIND THE EXAMS FOR 63-7955 & 63-9818 AND
WHY PERMIT NO. 63-10364 WAS FILED

On August 12, 1980, Ric Morris conducted an exam for Robert Henggeler on Permit No. 63-7955. At that time he measured the well in Govt. Lot. 2, SWNW, S. 7, T. 6N, R. 4W (Well #1) and found a rate of flow of 4.31 cfs for 280 acres. Mr. Henggler did not agree with that measurement nor with an additional measurement later (same amount) which was not documented by Ric. Then Dave Shaw requested that Lee Sisco measure the discharge again and on November 17, 1981, he went to Henggeler's farm to conduct the measurement. At that time he measured the same or maybe a little less than Ric Morris had and in lieu of this Mr. Henggler agreed to accept Ric's measurement of 4.31 cfs (this information came per phone conversation with Lee Sisco on 12/11/86). Then Mr. Henggler wanted to try and get a measurement on Permit No. 63-9818 (Well #2) and that's when Lee went out on Dec. 18, 1981 (see attached incomplete exam for 63-9818). He said that either the power was not turned on or something was froze up and he couldn't do the measurement then. So the exam was not completed until this last summer when Rich Gemperle did it.

There is some confusion on the point of diversion legal for both 63-7955 and 63-9818. I believe 63-7955 had been taken care of and the whole thing is explained in the memo of 6/17/86 attached to the amendment already filed. No fee was charged for this amendment. However, Permit No. 63-9818 also needs an amendment and it appears to be an error Mr. Henggler had on his permit from the very beginning. The point of diversion was listed in the NESW, S. 7 on the original application. Then an amendment was filed on 63-9818 to add well #1 (63-7955) since both wells were now used together in the system. However, the quarter-quarter for well #2 still remained the NESW, S. 7. Rich Gemperle found that the actual point for well #2 is in the NWSW (Lot 3), S. 7 so it appears that Mr. Henggler will have to pay for this one.

So, I have written the exam up for Permit No. 63-7955 for 4.31 cfs as Ric Morris measured in 1980 and 280 acres from Well #1 in Lot 2, SWNW, S. 7, T. 6N, R. 4W as it was the only well in operation at that time. Then Permit No. 63-9818 will show both wells, which is the present operation at this time, but using only the measurement from Well #2 for the amount of water, 1.39 cfs. This permit will be for 285 acres of irrigation rather than 280 as shown on 63-7955. Mr. Henggeler stated that Well No. 1 (63-7955) has not increased since Ric Morris measured it and probably has decreased (Mr. Henggler did not say it has decreased). The measurement from Well #2 made this summer is sufficient to satisfy this right and then some.

This brings me to the next permit. This is a new application recently filed and has been approved under Permit No. 63-10364. This permit was filed to utilize

MAR 14 1988

the additional capacity of well #2 as measured under Permit No. 63-9818. Rich Gemperle measured 1.82 cfs and the permit amount is 1.39 cfs which leaves .43 cfs available. The important part for the field examiner to be aware of when he/she conducts the exam is that in order for Mr. Henggeler to receive the .35 cfs he applied for on Permit No. 63-10364 he must develop the 17 additional acres applied for in this permit(302-285=17). The 285 acres now irrigated have a full inch to the acre after 63-7955 and 63-9818 are licensed. This new permit shows two points of diversion, one in the NWSW(Lt. 3), and one in the NESW, S. 7, T. 6N, R. 4W. Actually, Mr. Henggeler filed on well #2 which was measured under 63-9818, and listed both quarter-quarters because he wasn't sure which one was right. So, he is not filing on a new well and well #2 is in the NWSW(Lt. 3), S. 7, as found by the field examiner, Rich Gemperle. I will place a copy of this memo in Permit No. 63-10364 to, hopefully, avoid any further confusion when the exam is done concerning Mr. Henggeler's water rights and irrigation system.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.
