Sue,
The right is currently limited (although incorrectly) to 0.02 cfs per acre and 4.5 afa in combination with other rights. Any attempt to use more would violate the conditions of the water right. Any attempt to transfer or utilize elsewhere (water bank) without the companion right would constitute an enlargement of the right. There are no further conditions (or corrections) necessary at this time, but documentation of this discussion may help with the upcoming claim investigation and for review if an application is received. SRBA investigation may find that one of the rights should be disallowed based on no beneficial use; or, the right holder may choose to relinquish one of the rights in favor of the other. I am hesitant to make any changes until SRBA review has been completed to verify actual use and necessary action.

I plan to add a copy of this message to the water right files, you may want to do the same for the claims.

Jeff

Subject: double license

Hi, Jeff.

By means of office day, I got involved with an odd one.

63-9655 was licensed for 47 acres at .02 per acre, G.W. with a 1980 priority date, in the name of Lewis.

63-9686 was licensed for 4 acres at .03 per acre, G.W. priority date 1981, name of Greenwell.

Greenwell is the son-in-law of Lewis. He did not realize that the 63-9655 covered his 4 acre track and thus filed for and received license 63-9686. The Lewis parcel has been subdivided and changes of ownership have been coming in. The neighbors are concerned that Mr. Greenwell will try to divert too much water from the well, try to transfer the 4 acres, or put it in the water bank. Mr. Greenwell has been using the well covered in 63-9655, but would like to know if he can hang on to the 63-9686 right as a back up.

Does either right need to be conditioned so that if he were to try to transfer it would send up a red flag?

Any thoughts would be appreciated as the neighbors will be waiting for my reply.

Thanks, Sue Bock

Dear Mr. Greenwell:

In a recent computer update of our files, we found an error on the water right license issued in February, 1982 for permit No. 63-9686. The original license shows 4 acres being irrigated in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, whereas the 4 acres are actually located in the SW $\frac{1}{4}$ NE $\frac{1}{4}$.

Enclosed please find a copy of an Amended water right license correcting this error.
