This matter having come before the Department of Water Resources (Department) as a result of a review of Amended License No. 63-09670, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On February 19, 1981, The City of Boise applied to the Department for a permit to appropriate ^{0.38}~~0.25~~ cubic feet per second of water from a groundwater source within the NE~~NE~~³⁸ Section 7, Township 03N, Range 02E, B.M., Ada County, to be used for irrigation purposes.
2. On April 8, 1981, the Department approved the Application for Permit.
3. On June 13, 1988, the Department issued Water Right License No. 63-09670.
4. On May 17, 1989, the Department amended the License based on information that this right was not being used with Water Right No. 63-10395B, as stated in the original license.

MEMO

DATE: 12-1-93
TO: JIM JOHNSON
FROM: JAN SHURTE
SUBJECT: WATER RIGHTS FOR CURTIS & ORCHARD INTERCHANGES

Paul Philbrook from the Boise City Parks Dept. phoned yesterday with a question concerning the rights covering the irrigation of the Curtis & Orchard Interchanges. These rights are 63-08076, 63-09670, 63-10395A & 63-10395B.

The Curtis Road Interchange place of use is located in the NENE, Sec. 7 and NWNW, Sec. 8, Twp. 3N, Rge. 2E. The Orchard Street Interchange place of use is located in the NWNE & NENW, Sec. 8, Twp. 3N, Rge. 2E.

Originally, License Nos. 63-09670 & 63-10395B were licensed for the Curtis Road Interchange and 63-08076 & 63-10395A were licensed for the Orchard Street Interchange. The legals for the p.d.'s and p.o.u.'s are correct. They match up with the appropriate interchanges and still do.

The problem comes from the amended license for 63-09670. On June 13, 1988, a license was issued for this permit for the P.D. in the NENE, Sec. 7 and the POU in the NWNW, Sec. 8 - which is correct for the Curtis Road Interchange. The remarks stated that this license was for the Curtis Road Exit irrigation. Then, on May 17, 1989, the license was amended. It appears that the acre foot amount was reduced from 31.5 to 21 acre feet plus the remarks were changed to state that this license is for the Orchard Interchange. In the microfilm we only have the letter sent with the amended license stating that it was amended to better reflect the water right. So, I don't know why the remarks were changed.

Now, after putting the couplet in, they have drilled a new well for additional acres, but it has also been hooked up to the old Orchard Street Interchange well and they are interconnected. To make matters even worse, the Curtis Road Interchange well dried up, so they are irrigating the Curtis Road Interchange acres with the old & new Orchard Street Interchange wells. Pretty complicated.

Anyway, I was thinking maybe we should clear up the problem with 63-09670's remarks and change it to say it is used for the Curtis Road Interchange acres - since the legals prove that. Then, a transfer can be filed by whoever to add the new well to the Orchard Street Interchange rights, since they are now combined, and then add both the new & old well at the Orchard Street Interchange to the Curtis Road Interchange rights, since they are both irrigating the Curtis Road Interchange acres now. Paul wanted to leave the old Curtis Road Interchange well on the original rights because it hasn't been five years since it dried up and they left the pump, etc. in the well to use in case the water table comes back up. He is currently checking with the Dept. of Highways to see what they filed or didn't file when they were putting in the couplet. I can't find any transfers filed on these rights, but you might have them over there.

I'm sending a copy of this to Paul at Boise Parks and you may want to call him for a follow-up. Thanks, Jan.

PAUL PHILBROOK 384-4240

5. On January 15, 1994, a review of this water right revealed that the original license information was correct and the amended license information was incorrect.

CONCLUSIONS OF LAW

1. Section 42-219, Idaho Code, states in part:

Upon receipt by the department of water resources of all the evidence in relation to such final proof, it shall be the duty of the department to carefully examine the same, and if the department is satisfied that the law has been fully complied with and that the water is being used at the place claimed and for the purpose for which it was originally intended, the department shall issue to such user or users a license confirming such use.

2. The original license was in compliance with the permit and therefore the amended license is not in compliance with the permit and should be voided.

3. The Department should void the amended license and reinstate the original license.

ORDER

IT IS, THEREFORE, HEREBY ORDERED that Amended License No. 63-09670 is VOIDED, and original license No. 63-09670 is reinstated, under Section 42-219, Idaho Code.

Dated this _____ day of _____, 1994.

MEMORANDUM

Date: January 15, 1994
From: Jim Johnson
To: Jan Shurte, file 63-09670
Subject: Water Rights for the Curtis Exit on Interstate 84

=====

Jan, I have reviewed your memo of 12-1-93 concerning location of right 63-09670 and have reviewed the file.

Following is a summary of what I found.

1. Original license issued in June 1988.
2. Roberta received a memorandum from you on 2-16-1989 explaining that License 63-09670 had an error in remarks which stated that the right was used in combination with 63-10395B at the Curtis interchange. Your memo stated " ...63-09670 is only used for the Orchard Interchange..." A copy of your memo is attached.
3. In follow-up, Roberta routed your memo to Kay Walker and Kay prepared an Amended License on 2-22-1989.
4. In May 1989 an Amended License was issued containing the information listed in your memo.

I will take action to Void the Amended License for right 63-09670 which contains the error in remarks. This will restore the original license with the remarks identifying the correct location.

If you have questions let me know.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

The wells constructed for this system are not amenable to installation of measuring ports or meters without significant added expense and modification. The mainline is PVC and would require partial replacement in order to emplace measuring ports or meters. The formula used to calculate flow was obtained from Western Division - IDWR.

RE: Permit No. 63-9670

City of Boise
Parks Dept.
1104 Royal Blvd.
Boise, ID 83702

Dear Permit Holder(s):

This office acknowledges receipt of the Assignment of the above referenced permit to you.

Enclosed for your records is a copy of the permit. Be sure to note the special conditions of approval on the fourth page that identify requirements necessary for developing the permit into a licensed water right.

In reviewing the permit, we find that the requirement for submitting proof of construction of works and application of water to beneficial use has been met. The next step towards licensing of the permit will be for our regional office to examine your water right system.

As new owners of the permit, you should be aware that on April 30, 1986 the Department sent an Examination Fee Notice to the previous owner(s) requiring them to submit within 60 days an examination fee or a statement from a certified examiner stating that he has been retained to do the examination. Enclosed for your information is a copy of the Examination Fee Notice correspondence. To date, we have not received any response to this letter.

In order to keep this permit in good standing, you must respond to the Examination Fee Notice as soon as possible. If you have any questions regarding this matter, please feel free to contact us.

Sincerely,

JIM JOHNSON
Water Rights Supervisor

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.
