Dear Mr. and Mrs. Faulkner:

Re: Permit Nos. 63-9438 and ~~37-7891~~/01-7086

Pursuant to my telephone conversation with Mrs. Faulkner, enclosed is the request for extension of time form submitted for Permit No. 63-9438. The filing fee will be returned to you by the Auditor's Office at a later date.

Permit No. 63-9438 is for the diversion of water from Kelly Creek in Elmore County for watering of 3,000 sheep. I understand the water is being used for this purpose and that you are ready to submit proof of beneficial use. Please complete and return the enclosed form by October 1, 1985 to keep your permit in good standing.

Permit No. 01-7086/~~37-7891~~ is for the diversion of water from the Snake River and Wood River for power generation. This permit has several years of construction time left in which to complete the project and at this time, the department could not consider approval of an extension of time to submit proof of beneficial use.

For the reasons stated above, I'm returning the extension request and encouraging submittal of proof of beneficial use for Permit No. 63-9438.

If you have any questions concerning your permits, please feel free to contact this office.

Dear Sirs,

RE: Permit No. 63-9438

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval as listed on the fourth page.

Please be advised that there is insufficient natural flow available in the Boise River and tributaries to provide water for a new appropriation throughout the entire season of use.

During the spring run-off each year, there may be a period of time in which the prior rights to the use of the natural flow and storage are filled leaving water available for your later-in-time permit. As the natural flow diminishes, however, there would be no water available for your right unless you had arranged for an additional source of water as a supplemental supply.

This information is provided so that you will not be misled into thinking that ~~this~~ permit will provide sufficient water through the entire season of use. If you have any questions regarding this matter, please feel free to contact this office.
