WATER RIGHT LICENSE

WATER RIGHT NO. 63-9433

Priority: August 11, 1980 Amount: .76 CFS

This is to certify, that GEORGE C. CASTLE
P.O. BOX 3070
KETCHUM, ID 83340

has complied with the terms and conditions of the permit issued pursuant to Application for Permit dated August 11, 1980, and has submitted proof to the Department of Water Resources on October 7, 1985, that water has been applied to a beneficial use; an examination by the Department indicates that the works have a diversion capacity of .76 cfs of water from;

BROWNS CREEK tributary to BOISE RIVER

and that a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>VOLUME</u>
Mining	01/01 to 12/31	.76 cfs	
<u>LOCATION OF POINT OF DIVERSION(S):</u>		SESW , Sec. 13, Township 4N, Range 6E Boise County	
<u>PLACE OF USE:</u> Mining			
<u>TWN RGE SEC</u>			
4N 6E 13	NESW	SESW	

CONDITIONS/REMARKS:

1. The right to the use of the water hereby confirmed is limited to the amount which can actually be beneficially used and is restricted and appurtenant to the lands or place of use and to the purpose herein described, as provided by the laws of Idaho.
2. This right is subject to all prior water rights and may be forfeited by five years of non-use.
3. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
4. Use of water under this license is subject to control by the watermaster of State Water District No. 63 .
5. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
6. When water used under this license is discharged into the natural channel, settling ponds must be maintained which are capable of reducing the silt load to such a level that the quality of water will not be impaired for other beneficial uses.

This license is issued pursuant to the provisions of Section 42-219, Idaho Code. Witness the seal and signature of the Director, affixed at Boise, this 23rd day

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

APPROVED

To appropriate the public waters of the State of Idaho

1. Name of applicant McGill Mining Phone 375-2062

Post office address 1049 Camelot Dr. Boise, Idaho 83704

2. Source of water supply Browns Creek which is a tributary of M/Fk Boise River

3. Location of point of diversion is SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 13 Township 4N

Range 6E B.M. Boise County, additional points of diversion if any: _____

4. Water will be used for the following purposes:

Amount 0.04 for Domestic purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount 2.00 for Mining purposes from 1/1 to 12/31 (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 2.00 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. Diversion dam and gravity pipeline or ditch.

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial use is 5 years (minimum 1 year — maximum 5 years).

8. Description of proposed uses:

a. If water is **not** for irrigation:
(1) Give the place of use of water: SE $\frac{1}{4}$ of SW $\frac{1}{4}$ of Section 13 Township 4N
NE Range 6E B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be supplied with domestic water 30 persons max.

(5) If water is to be used for other purposes describe: Mining and milling puposes

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

[illegible]

Total number of acres to be irrigated

c. Describe any other water rights used for the same purposes as described above. _____

Cancelled permit 63-8066

9. a. Who owns the property at the point of diversion Applicant Mining Claims

b. Who owns the land to be irrigated or place of use Applicant Mining Claims

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing

10. Remarks

A hand-drawn map on a grid background. A rectangular area is outlined with a solid line and filled with diagonal hatching. To the left of the rectangle, the text 'T 4N' is written. A wavy line representing a creek, labeled 'Brown's Creek', flows from the left and enters the rectangle. Below the creek, the letters 'Pd' are written. The number '13' is written at the top right corner of the rectangle. Above the rectangle, the text 'R 6E' is written.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-9433, and said application is hereby approved.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 85.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other:

A measuring device of a type approved by the Department shall be permanently installed and maintained as part of the diverting works.

The issuance of this permit in no way grants any right-of-way or easement across the land of another.

Use of water under this permit is subject to control by the watermaster of State Water District # 63, Boise River.

In the event that water used under this permit should be discharged into a natural channel, settling ponds will be required which are capable of reducing the silt load to such a level that the quality of the water would not be impaired for other beneficial uses.

Use of water under this permit ^{For domestic purposes} shall be limited to in-house use and watering of household stock. kw 3/28/85

Witness my hand this 17th day of December, 1980.

J. Glen Saxton
Chief, Operations Bureau

NOTICE OF APPLICATION
FOR WATER RIGHT

Notice is hereby given that the following application(s) have been submitted for permit to appropriate the public waters of the State of Idaho:

63-9433

MC GILL MINING
1049 CAMELOT DR., BOISE, ID. 83704
Source: BROWNS CREEK tributary to BOISE RIVER, MIDDLE FORK
Date Filed: 08/11/1980
Amount: 2.00 CFS
Diversion Point: SESW Sec 13 T 04N R 06E, BOISE Co.
Use: MINING (2.00 CFS) from 01/01 to 12/31
DOMESTIC (0.04) from 01/01 to 12/31
Place of Use: SESW NESW Sec 13 T 04N R 06E
Diversion Means: DAM, PIPELINE AND DITCH

63-9429

CASPER, KENNETH D. &/or LOIS L.
3319 GINGER LANE, NAMPA, ID. 83651
Source: LOGGING GULCH tributary to BOISE RIVER.
Date Filed: 08/04/1980
Amount: 4.00 CFS
Diversion Point: LOT 3 NWSW Sec. 7 T 04N R 07 E, BOISE CO.
Use: MINING (4.00 CFS) from 01/01 to 12/31
Place of Use: SENE NENE NWNE Sec 13 T 04N R 06 E
Diversion Means: GRAVITY FLOW THROUGH PIPELINE.

If issued, the permit(s) will be subject to all prior water rights. Protests against the granting of any permit must be filed with the director of the Idaho Department of Water Resources, 92 S. Cole Road, Boise, Idaho 83709 on or before September 8, 1980.

H. REMARKS AND OVERLAP REVIEW ANALYSIS

Water right 63-2201 overlaps (place of use).
63-2201 has a much earlier priority
date & diverts water upstream from ~~that of~~
Mr. Castle's P/D.

63-2201 is for irrigation and mining;
I saw no evidence of this while conducting
exam.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion	Annual Volume
	From	To	Q (cfs)	V (afa)
mining	Jan. 1	Dec. 31	.76 cfs	550.22
Totals:			.76 cfs	550.22

2. Recommended Amendments

- ☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☐ Other

FIELD EXAM NOTICE

RE: PERMIT NO. 63-9433

DEAR PERMIT HOLDER:

WE ARE PLANNING TO CONDUCT WATER RIGHT EXAMINATIONS IN THE VICINITY OF THE ABOVE - REFERENCED PERMIT DURING THE WEEK OF JUNE 30, 1986. AN EXAMINATION IS NEEDED TO VERIFY YOUR WATER USE IN ORDER TO ISSUE A WATER RIGHT LICENSE.

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT WAS THAT A FLOW MEASUREMENT PORT, ALSO KNOWN AS AN ACCESS PORT, BE INSTALLED TO PROVIDE FOR THE INSTALLATION AND DETERMINATION OF THE RATE OF DIVERSION BY THE DEPARTMENT. ENCLOSED IS AN INSTRUCTION SHEET FOR INSTALLING THE FLOW MEASUREMENT PORT. THIS PORT OR AN ALTERNATE MEASURING DEVICE MUST BE INSTALLED PRIOR TO THE TIME THE EXAMINER IS SCHEDULED TO CONDUCT YOUR EXAM.

IN ORDER TO CONDUCT YOUR EXAM AS EFFICIENTLY AS POSSIBLE WE ASK THAT YOU CALL THIS OFFICE TO SCHEDULE A DAY AND TIME CONVENIENT FOR YOU.

IF THERE IS A PROBLEM WITH SCHEDULING OR CONDUCTING THE EXAMINATION AT THIS TIME, PLEASE CALL AND OTHER ARRANGEMENTS CAN BE MADE.

SINCERELY,

JAN SHURTE
SENIOR WATER RESOURCE AGENT

CERTIFIED MAIL

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

MAY 12 1987

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

PROOF DUE NOTICE

SEPTEMBER 30, 1985

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 63-9433 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE DECEMBER 01, 1985. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A FORM WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE FORM OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

Dear Mr. Shaw:

On September 9, 1980, you requested comments on application No. 63-9433, McGill Mining, on Browns Creek, tributary to Middle Fork Boise River.

There is no conflict with Forest Service water rights in Browns Creek, however, there are potential stream alteration and water quality problems.

The enclosed letter from Ervin Burrows, Boise District Ranger, provides a good picture of the situation.

I am providing this information to help coordinate our handling of this case.

Sincerely,

JOHN J. LAVIN
Forest Supervisor

This is in response to the letter from the Department of Water Resources, 9/9/80 requesting comments on a water rights application by Mr. McGill for Browns Creek. The following are our comments.

There are no water right conflicts with the U.S.F.S. needs.

There are concerns on water quality which are not justification for denial of this application but will be noted here for documentation of potential water quality standard violations and the non-compliance with State and Federal mining regulations.

1. Mr. McGill presently is diverting essentially 90% of Browns Creek for mining operations of which he appears to have no water rights permit. The diversion is an earthen dam approximately four feet high constructed with a cat diverting Browns Creek into a ditch line. (See the attached letter, 2810, 10/15/80). The earthen dam, and holding pond are not to a design standard to withstand spring runoff as noted in the aforementioned report. The construction of a weir with a diversion box would be sufficient where as it could be opened during spring runoff's high flows. The construction of the earthen dam in the channel would require a stream alteration permit which we are of the understanding Mr. McGill has not applied for. Mr. McGill's present mining operating plan does not show the degree of work he is presently undertaking.

Browns Creek low flow is below 2cfs so dewatering of the channel is likely. There is no significant fisheries to warrant instream flow needs but the cumulative affect of similar streams may have a significant effect on the resident fisheries in the Middle Fork of the Boise River.

Before Mr. McGill is allowed to divert water, if granted this water rights permit, then he should have an operating plan approved by the State of Idaho and the Boise National Forest Service.

Any comments or informational questions will be appreciated.

Sincerely,

A handwritten signature in cursive script, appearing to read "Ervin C. Burrows".

ERVIN C. BURROWS
District Ranger

Boise Ranger District
5493 Warm Springs
Boise, ID 83702

October 15, 1980

Mr. Earl McGill
P.O. Box 7354
Boise, Idaho 83707

Dear Mr. McGill:

On October 2, 1980, Russ Newcomb and I visited your Hayfield and High Channel placer claims. It is our understanding that the earthen water diversion on Browns Creek was built by Otis Schoolcraft this past summer in conjunction with your mining operations.

This earthen embankment in its present state is unacceptable according to our water quality and embankment design standards.

The embankment was built with a cat pushing soil up into a dam like structure approximately 4 feet high. Water from the small pond behind the embankment is being diverted into an existing ditch which feeds a small holding pond. Water from this pond is then piped to your area of operations. Plywood sheets in the embankment serve as the spillway control for Browns Creek.

We feel this structure is inadequate for the site conditions. A flood flow frequency analysis for Browns Creek shows the fall water flow at three cubic feet per second. The average flow is 27 cubic feet per second with a large jump to 43 cubic feet per second during spring runoff. Under peak flow conditions the embankment will be subject to erosion and possible structural failure resulting in sedimentation of the existing streams and surface resource damage. The stream channel below the embankment has been disturbed to the point that if a failure occurs it is highly probable that the resultant runoff will carve a channel down the cat route used to approach the stream rather than follow Browns Creek.

To negate the probable damage that will occur with the spring runoff flow will require that you return the flow of Browns Creek back to its natural channel. This includes the removal of the embankment structure in such a manner that soils used in the structure

are not impeding the flow of water. The reopened channel should provide adequate runoff flow to prevent any runoff down the cat trail.

If you wish to continue diverting water from Browns Creek we will require a revised operation plan from you that details the construction of a water diversion structure. The structure must be able to withstand peak runoffs, provide for erosion control and have a sound spillway. This plan will then be reviewed by the appropriate departments to determine the adequacy of the diversion.

Our intentions are to work with the State Department of Lands in this matter as your operating plans and reclamation bond are through this agency. We feel there is no reason why the above work can't be completed by November 30, 1980.

If there are any questions please contact me at the Boise Ranger District. I am available to work with you or your operator on this matter.

Sincerely,

LAURIE FINK
Forestry Technician

Flood Flow Frequency Analysis for Browns Creek

Hunter

Date 10-14-80

Analysis Procedure used based on: "Magnitude and Frequency of Floods in Small Drainage Basins in Idaho" by U.S.G.S 1973.

① There is no gage network on the stream. The drainage is located in Region 4.

② Region 4 equation

$$Q_{10} = 43.4 A^{0.857} F^{-0.210}$$

Standard Error of Estimate = 62%

$$Q_{25}/Q_{10} = 1.4 \quad Q_{50}/Q_{10} = 1.8$$

A = Drainage Area in Square Miles

F = Percent forest cover plus 1%

③ A was determined by using 7.5 minute topography quads & planimeter
F was determined by using 7.5 minute topography quad

$$\therefore A = 2044.00 \text{ acres} \quad F = 1074.00$$

3.19 mi²

$$Q_{10} = 43.4 \times 3.19^{0.857} \times 1074.0^{-0.210} \Rightarrow$$

$$Q_{10} = 43.4 \times 2.70 \times 0.23 = 26.95 \text{ cfs average}$$

43.66 hi flow

Dear Sirs,

RE: Permit No. 63-9433

Enclosed is a copy of your approved Application for Permit. We direct your attention to the conditions of approval on the fourth page.

Be sure to note the special condition requiring you to install and maintain a measuring device at your point of diversion. We have enclosed a description of the different types of measuring devices accepted by this office.

Please be advised that water quality is subject to regulations of the Idaho Department of Health and Welfare. We suggest that you check with them before starting construction.

We have enclosed a form entitled "Making Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit into a license.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Supervisor, Water Allocation Section

Re: app for Permit #63-743

After our conversation, on the phone today, I wish to advise you that the old permit # 63-2201 and use of the water has been abandoned for many years. We, McGill Mining Co. have been using this water for placer mining for eight or nine years under a permit issued by you at that time. We were late renewing our permit this year, so applied for this new one. Thank You

McGill Mining Co.

McGill Mining
1049 Camelot Dr.
Boise, Idaho 83704

Dear Mr. Mc Gill,

RE: Application for Permit No. 63-9433

In reviewing the above referenced application it has been noted that License No. 63-2201 is for 10.0 cfs of water from Brown's Creek and is for mining purposes. This causes an overlap of water rights.

Our office would like a description of the use of the water for License No. 63-2201 since 1912. Since this water right is appurtenant to the land, proof of ownership would acquire the license as long as the water has been continually used. If the water has not been used in several years than we can assume it has been abandoned and go ahead and approve your Application for Permit.

If you have any questions concerning this matter please contact me at 334-4123.

Sincerely,

ROBYN HAMPE
Chief Clerk
