	)	
NO. 63-9283 IN THE NAME	)	ORDER
	)	
OF DESERT VIEW ESTATES	)	
	)	
WATER CORP.	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On October 30, 1979, the Director of the Department of Water Resources issued Permit No. 63-9283 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before October 1, 1984.

2. On July 31, 1984, the Department sent a proof due notice to the permit holder.

3. On October 15, 1984, the Department sent a lapse notice to the permit holder since neither proof of beneficial use nor a request for extension of time had been received from the permit holder.

4. On November 24, 1986, Proof of Beneficial Use was received by the Department from the permit holder.

MICROFILMED

JUL 07 1987

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit upon submittal of evidence showing that water was beneficially used prior to the proof due date and a showing of reasonable cause as to why the proof was submitted late, with the priority date advanced to the date that proof of beneficial use was received.

6. The permit holder submitted an aerial photo dated 1980 showing domestic use within the subdivision and bills from Idaho Power dated 1984 for pumps used in delivering water to the subdivision.

7. A well log in Department files documented that a well located in the SW1/4NE1/4, Section 27, Twp 2N, Rge 1E was drilled in 1978 in the name of Desert View Subdivision.

8. The permit holder identified the reason for not submitting proof of beneficial use in a timely manner as being a matter that was overlooked by the secretary at the time proof was due.

CONCLUSIONS OF LAW

1. The permit holder submitted proof of beneficial use along with supporting evidence to clearly establish that water was in fact beneficially used prior to October 1, 1984, the proof due date.

2. The permit holder has provided reasonable cause why the proof of beneficial use was not submitted in a timely manner.

RECEIVED

JUL 07 1987

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 63-9283 is reinstated and It Is Further Ordered that the date of priority of this permit is advanced to November 24, 1986.

Dated this 29th day of April, 1987.

RE: Lapsed Permit No. 63-9283

Desert View Estates Water Corp.
Attn: Mary Jepsen, Chairperson
Box 165
Kuna, ID 83634

Dear Ms. Jepsen:

We received your letter dated 9/16/86 along with the documentation regarding possible reinstatement of the above referenced lapsed permit.

Before we can proceed any further in our review for reinstatement, a proof of beneficial use statement must be submitted. This is the document that normally would have been submitted on or before the proof due date of October 1, 1984.

Recent changes in the Idaho Code now require an examination fee to be submitted with the statement of beneficial use. This fee is based upon the rate of diversion claimed on the proof form, but cannot exceed the amount originally filed for, in this case 2.0 cfs for domestic and 2.0 cfs for irrigation.

The proof of beneficial use form, its instructions, and the exam fee schedule are enclosed for your convenience. Please submit the proof of beneficial use form along with the corresponding exam fee as soon as possible so that reinstatement procedures can continue.

If you have any questions regarding this matter, please feel free to contact our office.

Sincerely,

Sharla Curtis
