License of Water Right No. 63-9268 Priority July 24, 1979 Amount 0.32 cfs

THIS IS TO CERTIFY, that James M. &/or Trixie A. Miller &/or J.C. &/or Peggy Jackson
of Wilder, Idaho, has complied with the terms and conditions of Permit
No. 63-9268 issued pursuant to Application for Permit dated July 24, 1979,
and has submitted proof to the Department of Water Resources on August 6, 1980,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.86 cfs of water from a wastewater source,
tributary to the Snake River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	<u>from March 15 to November 15</u>	<u>at 0.32 cfs</u>	<u>and 72.0 acre feet</u>
	<u>from to at cfs and</u>		
	<u>from to at cfs and</u>		

(both dates inclusive)

Subject, however, to the condition that no more than 0.32 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
72.0 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 3, Twp.

This right when combined with all other rights shall provide no more than .02 cfs
per acre nor more than 4.5 afa per acre for the lands above.
Use of water under this license is subject to control by the watermaster of
State Water District No. 63, Boise River.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho
Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use
herein described, as provided by the laws of Idaho.

Memo to file:

From: Carolyn Andregg

During the spring and summer of 1992, drought conditions caused record low flows in the Snake River. Twice, the flow of the Snake River fell below 4,750 cfs, the minimum stream flow at the Weiser gauge. Notices were mailed to the water user listed under this right because the priority is later than July 1, 1976, in order to protect the Snake River minimum stream flow. The following is a chronological history of the mailings.

May 19, 1992: Letter sent to water right holder informing holder of possible temporary cessation of diversion rights and notice of public meetings.

June 8, 1992: Letter sent informing water right holder directing immediate cessation of diversion of water until further notice.

June 12, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

June 26, 1992: Letter sent to water right holder directing immediate cessation of diversion of water until further notice.

June 29, 1992: Letter sent to water right holder authorizing resumption of diversion of water.

MAIL RETURNED NOTICE

THIS MEMO HAS BEEN PLACED ONLY IN THE FILES FOR WHICH THE ABOVE LISTED DATES OF LETTERS WERE RETURNED. BEFORE SENDING ANY FUTURE MAILINGS, VERIFY CORRECT ADDRESS.

RE: Water Right No. 63-09268

Dear Water Right Holder(s):

On June 8, 1992, the department sent you a letter which directed you to immediately cease diverting water under the above referenced water right, since the minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second (cfs) measured near Weiser was not being satisfied.

The flow of the Snake River at Weiser is now above 4,750 cfs. You are, therefore, authorized to again divert water under your water right. If the minimum stream flow is not met later this year, however, the department will again notify you to temporarily cease diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

Dear Water Right Holder(s):

On May 19, 1992, the department sent you a letter advising that you might be required to temporarily cease diverting water from the Snake River or its tributaries if the established minimum stream flow of the Snake River in the amount of 4,750 cubic feet per second measured near Weiser is not satisfied or likely will not be satisfied.

The flow of the Snake River at Weiser is now less than 4,750 cfs. You are, therefore, directed to immediately cease diverting water under the above referenced water right and to not resume use until authorized by the department.

Past flow records show that the duration of seasonal low flow periods typically last several days to a week. Since your use of water is extremely important to you and since mail notification includes a delay associated with mail delivery time, feel free to call the toll-free telephone number 1-800-451-4129 to determine when you are again authorized to divert and use water under your water right. Please use this phone number only in connection with resumption of use.

You need to be aware that Section 42-351, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversion.

Thank you for your cooperation in this matter. Please feel free to contact L. Glen Saxton (phone: 208-327-7955) or Gary Spackman (phone: 208-327-7946) of my staff if you have questions.

RE: Water Right No. 63-09268

Dear Water Right Holder(s):

Department water right records show that you divert water from the Snake River or its tributaries under a water right that has a priority date later than December 29, 1976. This is the priority of the established minimum stream flow of the Snake River at the Weiser Gage (Weiser) in the amount of 4,750 cubic feet per second.

Because of the continuing drought conditions in the Snake River Basin, department hydrologists project that during 1992, there could be periods when the required minimum flow will not be satisfied due to low flows of the Snake River. The department urges you to not divert at a higher rate than authorized by your water right and to not use your right in any manner different than authorized. In addition, when the minimum flow will not be satisfied or is not being satisfied, you are required to cease diverting water under your water right, because your right is of later priority than the minimum stream flow at Weiser.

If the department determines the minimum flow will not be satisfied, the department will advise you and will provide as much lead time as possible in requiring that you temporarily cease your diversion of water. The greatest likelihood for this to occur is during a period from mid-June to late June.

While the department expects good cooperation from junior water right holders, water users should be aware that Section 42-352, Idaho Code, provides for penalties of up to \$100 per day for unauthorized diversions of water.

The department has contacted both the Idaho Power Company and the U.S. Bureau of Reclamation with respect to the timing of storage releases from upstream reservoirs for flow enhancement purposes. This type of coordination could minimize the impact on

existing water users and reduce the need to curtail diversions.

The department has scheduled public information meetings relative to this potential regulation as follows:

Mountain Home - June 4, 1992 - 10:00 a.m. - gymnasium at
North Elementary School, 290 E. 12th N.

Caldwell - June 4, 1992 - 7:00 p.m. - Ballroom in the
Student Union Building, Albertson College of Idaho,

If you have questions concerning this letter or wish to provide the name of a different contact person or address to receive department correspondence, please contact the department.

Dear Water Right Holder (s):

We are in receipt of the correspondence concerning ownership of the above referenced water right.

In Idaho, a licensed water right is considered real property; therefore, proof of owning the land is proof of owning the water right unless specifically excluded in the sale. We have placed your correspondence in the file for future reference and have changed our computer records to show you are the present owners of the property.

If you have any questions, please let us know.

Sincerely,

SHARLA CURTIS
Technical Records Specialist

CONVERSATION MEMORANDUM

DATE 11/4/81

FILE 63-9268

NAME OF PARTY James Miller

EMPLOYEE Jim Johnson

RE: Mr. Miller came in today to discuss the number of acres found to be irrigated under this permit.

In reviewing the aerial photo it was noted that the section corners were left off as not irrigated. Mr. Miller explained how these corners were in fact irrigated.

I called John Noyes who remembered the exam. After some discussion he recalled the situation and said that the photo appeared to show the land as non-irrigated and therefore assumed it was not. He did remember from the field exam trip that the land in question was irrigated.

Based upon this information the field exam was modified to show three additional acres irrigated.

Dear Permit Holders:

A representative of this Department made an examination of the works covered by your Permit No. 63-9268 on October 7, 1980, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: .26 cfs Source: wastewater

The maximum quantity diverted shall not exceed 58.5 acre feet per year.

Point of diversion: NESE, Sec. 3, T3N, R5W, Canyon County

Beneficial use: Irrigation of 13 acres within the SESE, Sec. 3, T3N, R5W, B.M.

Priority date established: July 24, 1979

In order for the Department to issue the above license, it will be necessary for you to amend the permit to correspond with the findings of the field examiner. We are enclosing a partially completed amendment form for your use in this matter.

Please sign the amendment application and return it to this office along with a \$20.00 filing fee within 30 days in order that we might issue your license as set forth above. If you do not concur with these findings or have any questions, please contact us within the 30-day period.
