Re: Application for Transfer No. 3664

Dear Mr. Briggs:

I am writing in order to follow up on our phone conversation of March 15, 1990. You may recall that I had several questions concerning the above referenced transfer application. I have not yet received a response to these questions and thus can not yet recommend approval of the transfer.

In our previous conversation, you informed me that the city was going to cap an existing well and drill a new well. There was no indication in the transfer application that an existing well was to be capped. If the city is to cap an existing well, then your transfer application not only seeks to add a point of diversion to several rights, but it also seeks to change a point of diversion for at least one right or adjudication claim.

Before the Department continues with processing of the transfer application, you must inform the Department which city well is to be capped. I believe you mentioned that it was one of the wells near city hall. As you know, there are three wells in the city hall area, all within the same 40 acre tract. I will need to know if it is one of the two wells which was claimed in the adjudication (A57-10393 with a 1940 claimed priority), or if it is the well under groundwater license 57-7027 which has a 1969 priority.

Please feel free to contact me directly at this office if you have questions concerning this matter.

Sincerely,

Tim Luke
