Dear Sirs:

After purchasing this ranch in 1976, I asked the ASCS office in Mountain Home for their opinion on a number of water projects I thought would improve the cattle and crop potential. We settled on three major projects. Permits for these projects were applied for in 1978.

Two of the projects located on my deeded ground have been completed.

The third one, #63-9122 was located on State of Idaho land that ajoins my property. I leased this land, 160 acres State Lease #6053, on an annual basis with the understanding that anyone could bring it up for sale. I asked Mr. Gene Christenson and Mr. Marlin Porter of the Mountain Home ASCS office to give me an estimate of the cubic yards of dirt necessary to complete this project. This came to 6300 cubic yards. Considering the cost involved I decided to explore the options available to me before committing the capital necessary to complete this project on land I didn't own.

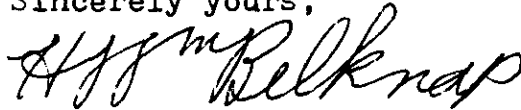

In discussing this with Mr. Bob Snap of the State Land Department I got the impression that I could purchase the land involved in the dam construction and empondment. After having the survey made in 1980 to determine the land involved I returned to the State Land Department with the intent of purchasing said land. They then informed me that I would not own the land but only the right to construct this project at a cost equal to the total appraised value of the land involved. This was a keen disappointment to me and seemed unsatisfactory for the cost involved.

The property was brought up for sale on June 8, 1982. I attended the sale, posted check # 594 for \$4100.00 and fully intended to purchase the land if at all possible. However it was sold to a real estate developer by the name of Mr. Harold Pitkin for almost twice the appraised value which I thought was quite high for grazing land. Currently I am trying to work out a land exchange with Mr. Pitkin for the dam site. So far he has not made a firm commitment to me on this matter. If I do not work this out with Mr. Pitkin by this fall and am successful in obtaining an extension of this permit from your office then I intend to file an application for amendment of a permit that will change the dam site location to a somewhat less desirable site on my property. This will flood some land that I planned to irrigate if I could have completed the project as originally planned.

page 2

I do not feel that I have been lax or entirely to blame for not completing this project on schedule and hope you will grant this request for an extension of time.

Sincerely yours,

A handwritten signature in cursive script, reading "H. W. Belknap". The signature is written in dark ink and is positioned above the printed name.

TO: RITA FLECK
FROM: JAN SHURTE
DATE: JUNE 13, 1988
SUBJECT: APP. FOR PERMIT NO. 63-10628

I spoke with Mr. Belknap concerning the attached application for permit filed within the boundaries of the Upper Boise River Drainage Basin. Since new filings for irrigation are no longer allowed in this area, we cannot accept this application. Mr. Belknap stated he would submit the proof of beneficial use within 60 days from the date of the lapse notice for the permit this application was to replace, Permit No. 63-9122. He will finish the project before he submits proof, which means starting as soon as he can, which he agreed to do. I suggested we transfer the fees from this application to the beneficial use fee for Permit No. 63-9122 when it comes in. He will then owe \$55 on his proof. Could you see what you can do on voiding the application out of the computer and transferring the fees to the proof, when submitted, for 63-9122. I sure would appreciate it.

Thanks,

PROOF DUE NOTICE

RE: Permit No. 63-9122

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK

RE: Permit No. 63-9122

H. William Belknap
Prairie Stage A
Mountain Home, ID 83647

Dear Mr. Belknap:

The Department received your request for extension of time in which to submit proof to beneficial use of water under Permit No. 63-9122 on April 25, 1983.

Your letter explaining the background was very descriptive and clearly identified your experiences while attempting to develop water under your permit. However, Section 42-204, Idaho Code, requires that the permit holder provide a showing that either he has made reasonable diligence toward developing the permit or provide evidence that he had been prevented from permit development by lack of approval of a right-of-way from a governmental agency.

In the situation you described it does not appear that you have been prevented from developing a water right because of lack of right-of-way from a governmental agency but rather you decided against constructing the reservoir under the terms allowed by the State Land Department.

We would need documents or statements from the State Department of Lands that show they actually prevented you from constructing the reservoir or prevented you from diverting water for use on the land you identified on your permit.

According to the State Land Department, Lease No. 6053 was for grazing purposes and they have no record showing an application for easement to construct a reservoir.

As for providing evidence that you have made reasonable diligence toward developing the water right, the Department would need additional information as to actual improvements and/or expenditures you have made.

Enclosed is your Check No. 160, 92-6/1241 and your extension request form. If you decide to pursue the request for extension of time, please return both the form and the check with the requested information on or before May 20, 1983. If you have any questions, please let us know.

Sincerely,

JIM JOHNSON

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 63-9122 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE MAY 01, 1983. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

Dear Mr. &/or Mrs. Belknap:

Your approved copy of Application for Permit No. 63-9122 is enclosed and we direct your attention to the conditions of approval on the fourth page.

Please note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. Enclosed is a letter describing the different types of measuring devices accepted by this Department.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

RECEIVED
MAY 29 1978
BOISE, IDAHO

However, the Department of Water Resources has been advised that the Power Company is not waiving any of its rights to contest or limit the exercise of your permit or a subsequent license or water right.

If you have any questions, please let us know.
