RE: Permit No. 63-9082

Dear Mrs. Sorensen:

In reviewing the above referenced file, it appears that some confusion has taken place.

In the letter from Rita Fleck dated May 27, 1983, she stated that this permit (No. 63-9082) had lapsed and that the assignment that you submitted was not valid for this permit because you had no further interest in it. However, please be advised that the permit did not lapse until June 1, 1983, and the assignment is indeed valid. Therefore, if you wish to keep this permit in a valid status, please fill out and submit to our office the enclosed proof of beneficial use postcard. The permit can be reinstated, with the date of priority being advanced only the amount of days between June 1 and the date the card is received at our office.

Please submit the postcard within 15 days of the date of this letter so that the permit can be reinstated as quickly as possible with a minimum advance in priority date.

If we can be of further assistance to you in any way, please feel free to contact us.

I acknowledge receipt of the assignment received in this office on May 10, 1983 on all the above referenced water rights. Since the licensed right and claims are considered real property and the water rights are appurtenant to the land, the assignment has been placed in those records for future reference. The department's records do, however, reflect the change in name for Permit Nos. 63-9080 and 63-9081. Since Permit No. 63-9082 has lapsed and you have no interest in it, the assignment will have no effect on this permit.

Enclosed is a copy of the orders reinstating Permit No. 63-9080 and 63-9081. Since the statement of beneficial use postcards were received under the provisions of Section 42-218a, amended, the permits have been reinstated with an advance in priority to May 10, 1983. Note that I changed the number on one postcard from 63-9082 to 63-9080 based on a memo to the file from Lee Sisco (copy enclosed) and our telephone discussion. If this is incorrect, please advise me. Also, I've enclosed the memo from file 63-9081 for your records.

Dear Rita:

Pursuant to our telephone conversation yesterday, I am sending you the postcard confirming beneficial use of the water applied for by me under permit application No. 63-9082.

I am also sending you a photocopy of the postcard to confirm beneficial use of the water applied for under permit application No. 63-9081, which has lapsed.

Because the company that sold and delivered the mobile home which uses the water under application No. 63-9081 is no longer in business, I am unable to document the time of delivery of the mobile home. However, I have prepared a signed and notarized statement testifying to the time of hookup of that springbox and pipeline to the mobile home, in which I was residing at the time of hookup.

I hope this will suffice to reinstate the lapsed claim.

I also enclose the assignments of right and title from me, in my former name, to myself and/or my husband. This should simplify things for everyone concerned, putting all water right claims and licenses sought or held by us in one name at one address (as above.)

I thank you again for the time and patience you have given to me. The Department is obviously greatly benefitted by your employment there, with respect to the good will you generate to its applicants.

Sincerely,

Re: Claim to Water Right Nos. 72-4092, 72-4093, 72-4094 and 72-4112
License No. 63-3447, Permit Nos. 63-9080, 63-9081 and 63-9082

Pursuant to our telephone conversation of last week, enclosed are several blank assignment forms and copies of water rights I found under the name of Carole Evers.

Claims to Water Right Nos. 72-4092, 72-4093, 72-4094 and 72-4112 are for your property near Stanley. Nothing further is required for these rights.

Water Right No. 63-3447 is licensed and requires nothing further to confirm the right unless either the place of use or point of diversion is moved outside of their present 40-acre tracts, then a transfer would be needed.

The three water rights I was concerned about are Permit Nos. 63-9080, 63-9081 and 63-9082. Permit Nos. 63-9080 and 63-9081 have permanently lapsed and can only be reinstated under the provisions of Section 42-218a, paragraph 2, copy enclosed. That is, if the projects were completed.

Permit No. 63-9082 is still in good standing and will be until June 1, 1983. See the enclosed notice letter describing what is necessary to keep the permit in good standing.

Please review the information provided. If I can answer any questions, please feel free to contact me.

RE: B/U on above-referenced permits

I contacted Ms. Evers by telephone through a current telephone number shown on a letter filed in Claim to Water Right Nos. 72-4092, 72-4093, 72-4094 and 72-4112. (She has since remarried and new married name is Sorensen.

In February, I started to extensively research new addresses for returned B/U notices and lapsed notices. The B/U notice went out for Permit No. 63-9082 March 31, 1983 and was returned for a current address. After searching through the name index I came up with the claims and found the most current address the Department has for Ms. Evers. However, I also located Permit No. 63-9080 and 63-9081 which lapsed as of January 1, 1983. I decided to contact Ms. Ever's to find out the status of the development of the projects and see if the permits could be reinstated under Par. 2, Sec. 42-218a, I.C.

Ms. Ever's has since traded or sold most of the property under these permits but still holds some interest in them since she is carrying the mortgage on the property. Per her request, I'm sending her copies of the permits as well as other rights that I have found for her. Depending upon a response to my letter, further action may or may not be needed.

Re: Permit No. 63-9082

Ms. Carole Evers
C/o Idaho City Stage
Boise, ID 83706

Dear Ms. Evers:

Your approved copy of Application for Permit No. 63-9082 is enclosed and we direct your attention to the conditions of approval on the fourth page.

The exercise of this permit may also be affected by the court's determination of water rights in the case of Idaho Power Company v. State of Idaho, et al., Civil No. 62237, currently pending before the District Court of Ada County.

Idaho Power officials tell us that because of Case No. U-1006-124 filed before the Idaho Public Utilities Commission, Idaho Power Company is asking the District Court of Ada County to determine whether the Power Company's water rights on the Snake River are protected against subsequent upstream appropriations in the waters of the Snake River and surface and subterranean tributaries between Milner Dam and Hells Canyon.

Since the use of water under your permit may affect the flows in this reach of the Snake River, the final decision in Idaho Power Company v. State of Idaho, et al. (Ada County Civil No. 62237) may determine to what extent the exercise of your permit may be subject to the water rights of Idaho Power.

While the Ada County court is examining this question, Idaho Power Company has not filed a specific protest to your permit.

RE: Pre-Permit Exam

I contacted Mrs. Evers on May 23, 1978, she showed me the spring in question.

It appears to be the same type of spring as reported in 63-9080 and 63-9081; that is, no direct flow to any creek or stream. The spring is a small bog that appears among dense vegetation. They excavated the area and placed in a vault, pipeline and back filled it with gravel.

I recommend approval.
