Licensed Water Right No. 63-3447; and Permit Nos. 63-9080, 63-9081
and 63-9082

I acknowledge receipt of the assignment received in this office on May 10, 1983 on all the above referenced water rights. Since the licensed right and claims are considered real property and the water rights are appurtenant to the land, the assignment has been placed in those records for future reference. The department's records do, however, reflect the change in name for Permit Nos. 63-9080 and 63-9081. Since Permit No. 63-9082 has lapsed and you have no interest in it, the assignment will have no effect on this permit.

Enclosed is a copy of the orders reinstating Permit No. 63-9080 and 63-9081. Since the statement of beneficial use postcards were received under the provisions of Section 42-218a, amended, the permits have been reinstated with an advance in priority to May 10, 1983. Note that I changed the number on one postcard from 63-9082 to 63-9080 based on a memo to the file from Lee Sisco (copy enclosed) and our telephone discussion. If this is incorrect, please advise me. Also, I've enclosed the memo from file 63-9081 for your records.

If I can be of further assistance or if you have any questions, please feel free to contact me at 334-4290.

According to pre-permit examination memorandums placed in the files by Lee Sisco, these project were being constructed prior to approving of the applications.

Note that the reason for submitting a late proof is that the permit holders never received notice of proof due since the letter was returned "unclaimed" due to an address change.

Dear Rita:

Pursuant to our telephone conversation yesterday, I am sending you the postcard confirming beneficial use of the water applied for by me under permit application No. 63-9082.

I am also sending you a photocopy of the postcard to confirm beneficial use of the water applied for under permit application No. 63-9081, which has lapsed.

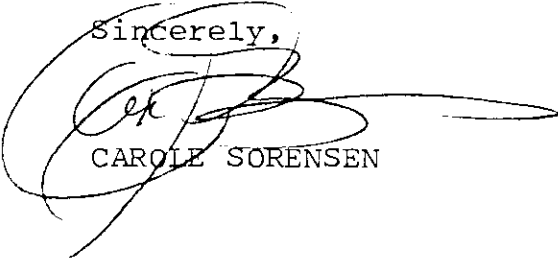

Because the company that sold and delivered the mobile home which uses the water under application No. 63-9081 is no longer in business, I am unable to document the time of delivery of the mobile home. However, I have prepared a signed and notarized statement testifying to the time of hookup of that springbox and pipeline to the mobile home, in which I was residing at the time of hookup.

I hope this will suffice to reinstate the lapsed claim.

I also enclose the assignments of right and title from me, in my former name, to myself and/or my husband. This should simplify things for everyone concerned, putting all water right claims and licenses sought or held by us in one name at one address (as above.)

I thank you again for the time and patience you have given to me. The Department is obviously greatly benefitted by your employment there, with respect to the good will you generate to its applicants.

Sincerely,

License No. 63-3447, Permit Nos. 63-9080, 63-9081 and 63-9082

Pursuant to our telephone conversation of last week, enclosed are several blank assignment forms and copies of water rights I found under the name of Carole Evers.

Claims to Water Right Nos. 72-4092, 72-4093, 72-4094 and 72-4112 are for your property near Stanley. Nothing further is required for these rights.

Water Right No. 63-3447 is licensed and requires nothing further to confirm the right unless either the place of use or point of diversion is moved outside of their present 40-acre tracts, then a transfer would be needed.

The three water rights I was concerned about are Permit Nos. 63-9080, 63-9081 and 63-9082. Permit Nos. 63-9080 and 63-9081 have permanently lapsed and can only be reinstated under the provisions of Section 42-218a, paragraph 2, copy enclosed. That is, if the projects were completed.

Permit No. 63-9082 is still in good standing and will be until June 1, 1983. See the enclosed notice letter describing what is necessary to keep the permit in good standing.

Please review the information provided. If I can answer any questions, please feel free to contact me.

RE: B/U on above-referenced permits

I contacted Ms. Evers by telephone through a current telephone number shown on a letter filed in Claim to Water Right Nos. 72-4092, 72-4093, 72-4094 and 72-4112. (She has since remarried and new married name is Sorensen.

In February, I started to extensively research new addresses for returned B/U notices and lapsed notices. The B/U notice went out for Permit No. 63-9082 March 31, 1983 and was returned for a current address. After searching through the name index I came up with the claims and found the most current address the Department has for Ms. Evers. However, I also located Permit No. 63-9080 and 63-9081 which lapsed as of January 1, 1983. I decided to contact Ms. Ever's to find out the status of the development of the projects and see if the permits could be reinstated under Par. 2, Sec. 42-218a, I.C.

Ms. Ever's has since traded or sold most of the property under these permits but still holds some interest in them since she is carrying the mortgage on the property. Per her request, I'm sending her copies of the permits as well as other rights that I have found for her. Depending upon a response to my letter, further action may or may not be needed.

SUBJECT: Prepermit Exam 63-9081

TO: File #63-9081

FROM: G.L. Sisco *GLS*

On December 27, 1977, I visited the Richard Evers property. The spring in question is located North and East, 200 yards, of 3 trailers situated about 50 feet from Robie Creek. The spring is located below the main road on the hillside.

The spring has already been developed by excavating a large hole approximately 15' x 15', then back filling with gravel, collecting the water and running it to a storage tank with over flow.

The spring was a boggy area covered with brush before development. There was no sign as to a direct above ground feed to Robie Creek. The water came to the surface with a brush cover then soaked back into the ground.

I recommend approval.
