to irrigate approx. 6 acres (alfalfa hay and garden) with sprinklers. The sprinkler system has 225' of 4" aluminum mainline with 5 risers and a 3" handline. Approximately 28 acres are furrow irrigated from the concrete ditch with siphon tubes. Crop being grown is hybrid seed corn. This well supplements canal water from the Boise-Kuna Irrigation Dist. (6 ac) and Nampa-Meridian Irrigation Dist (28 ac) and it is used when canal water is in short supply. An older well, dug in the 1920's is approx. 400' to the south (along Sunny Ridge Road) of this well, but it is no longer in operation.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

JUL 07 1987

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. Fujii:

There is no need for you to make any filing with this department to use water from your new well to replace your original domestic well. From the information in your letter it appears that you already have a domestic water right, and which well you fill that right from is not important to us provided both wells are in the same forty acre subdivision.

If you want to make a formal filing you should file a new application for permit. I have enclosed an application form and instructions in case you do want to make such a filing.

If you have any questions please contact us.

Boise D. Fleenor
Chief, Water Rights
Dept of Water Resources
Boise, ~~Idaho~~

Dear Sir:

The irrigation well that I planned to have dig has been completed and a pump has been installed. The conditions outlined in my permit No. 63-8931 have been followed quite closely. The driller went to a depth of 132 ft instead of 100 ft as I had proposed. The cost will ~~run~~ run slightly over the estimated \$5000. As I intend to do some concrete work around the well and discharge sites next summer I am not certain what the final cost will be.

After the well has been in operation for some time next summer, I plan to have the water tested for hardness. If it is very much softer than our domestic well, I am considering installing a small pump alongside the irrigation pump in this well and drawing domestic water from it. In this event would I have to apply for an ammendment to my permit? The

MICROFILMED

additional water drawn for domestic use
in this event, would be approximately
the same as that which would no
longer be drawn from the domestic shallow
well which is currently being used and has
been in use for approximately 60 years.

Please send me the ~~required~~ forms to
obtain a water license and/or if necessary,
an ammendment to my permit as
outlined above.

Very truly yours,

Edson A. Fujie

RE: SEE ATTACHED SHEET

Idaho Free Press
Box 88
Nampa, Idaho 83651

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due after allowing all just credits and that no part of the same has been paid."

(Signature of Claimant)

Please send the affidavit of publication and publication billing to this office before June 27, 1977.

Sincerely,

Bill submitted
