DEVICE REQUIREMENT FOR PERMIT NO. 63-8622

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR PERMIT
NO. 63-8622 IN THE NAME OF MAX M. TAKASUGI

MEMORANDUM DECISION
AND ORDER

On March 28, 1977, Max M. Takasugi applied to the Department of Water Resources for a permit to appropriate 1.60 cubic feet per second of groundwater within the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 24, Twp. 3N, Rge. 4W, B.M., Canyon County, to be used for domestic purposes and for the irrigation of 80 acres of land.

Notice of the application was published in the News Tribune, Caldwell, Idaho, on April 7 and April 14, 1977. On April 18, 1977, the Department received a protest against the granting of a permit from John J. Hockberger.

On May 18, 1977, a conference in the matter was held in Boise, Idaho. The applicant and protestant were present and represented themselves.

Both the applicant and protestant were given the opportunity to present their arguments at the conference. Both parties agreed to allow the Department to reach a decision in the matter based upon the information presented at the conference, the official files and records of the Department and the Director's understanding of the law. The Department then took the matter under advisement and after having considered the information presented by the parties, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. The protestant is the holder of groundwater permits no. 63-8474 and 63-8475. The proposed point of diversion of Permit no. 63-8475 is within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, Twp. 3N, Rge. 4W (an adjoining 40 acre tract to the proposed well location of the applicant).
2. The protestant has not yet drilled the wells as described in Permits No. 63-8474 and 63-8475.
3. The applicant also has not yet drilled the well under Application No. 63-8622.
4. There are several licensed groundwater rights in the immediate vicinity of this proposed well pumped and have not noticed effect on each other nor have they caused a decline of the groundwater level in the area.
5. No information was presented to indicate that water was not

available for appropriation.

CONCLUSIONS OF LAW

1. There is water available in the aquifer to satisfy the proposed appropriation.

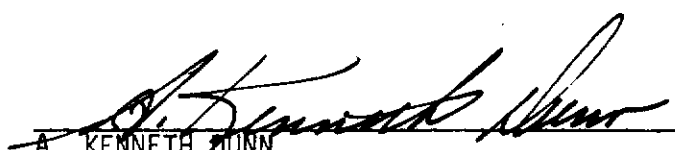

2. The applicant is entitled to a permit from the Department of Water Resources.

ORDER

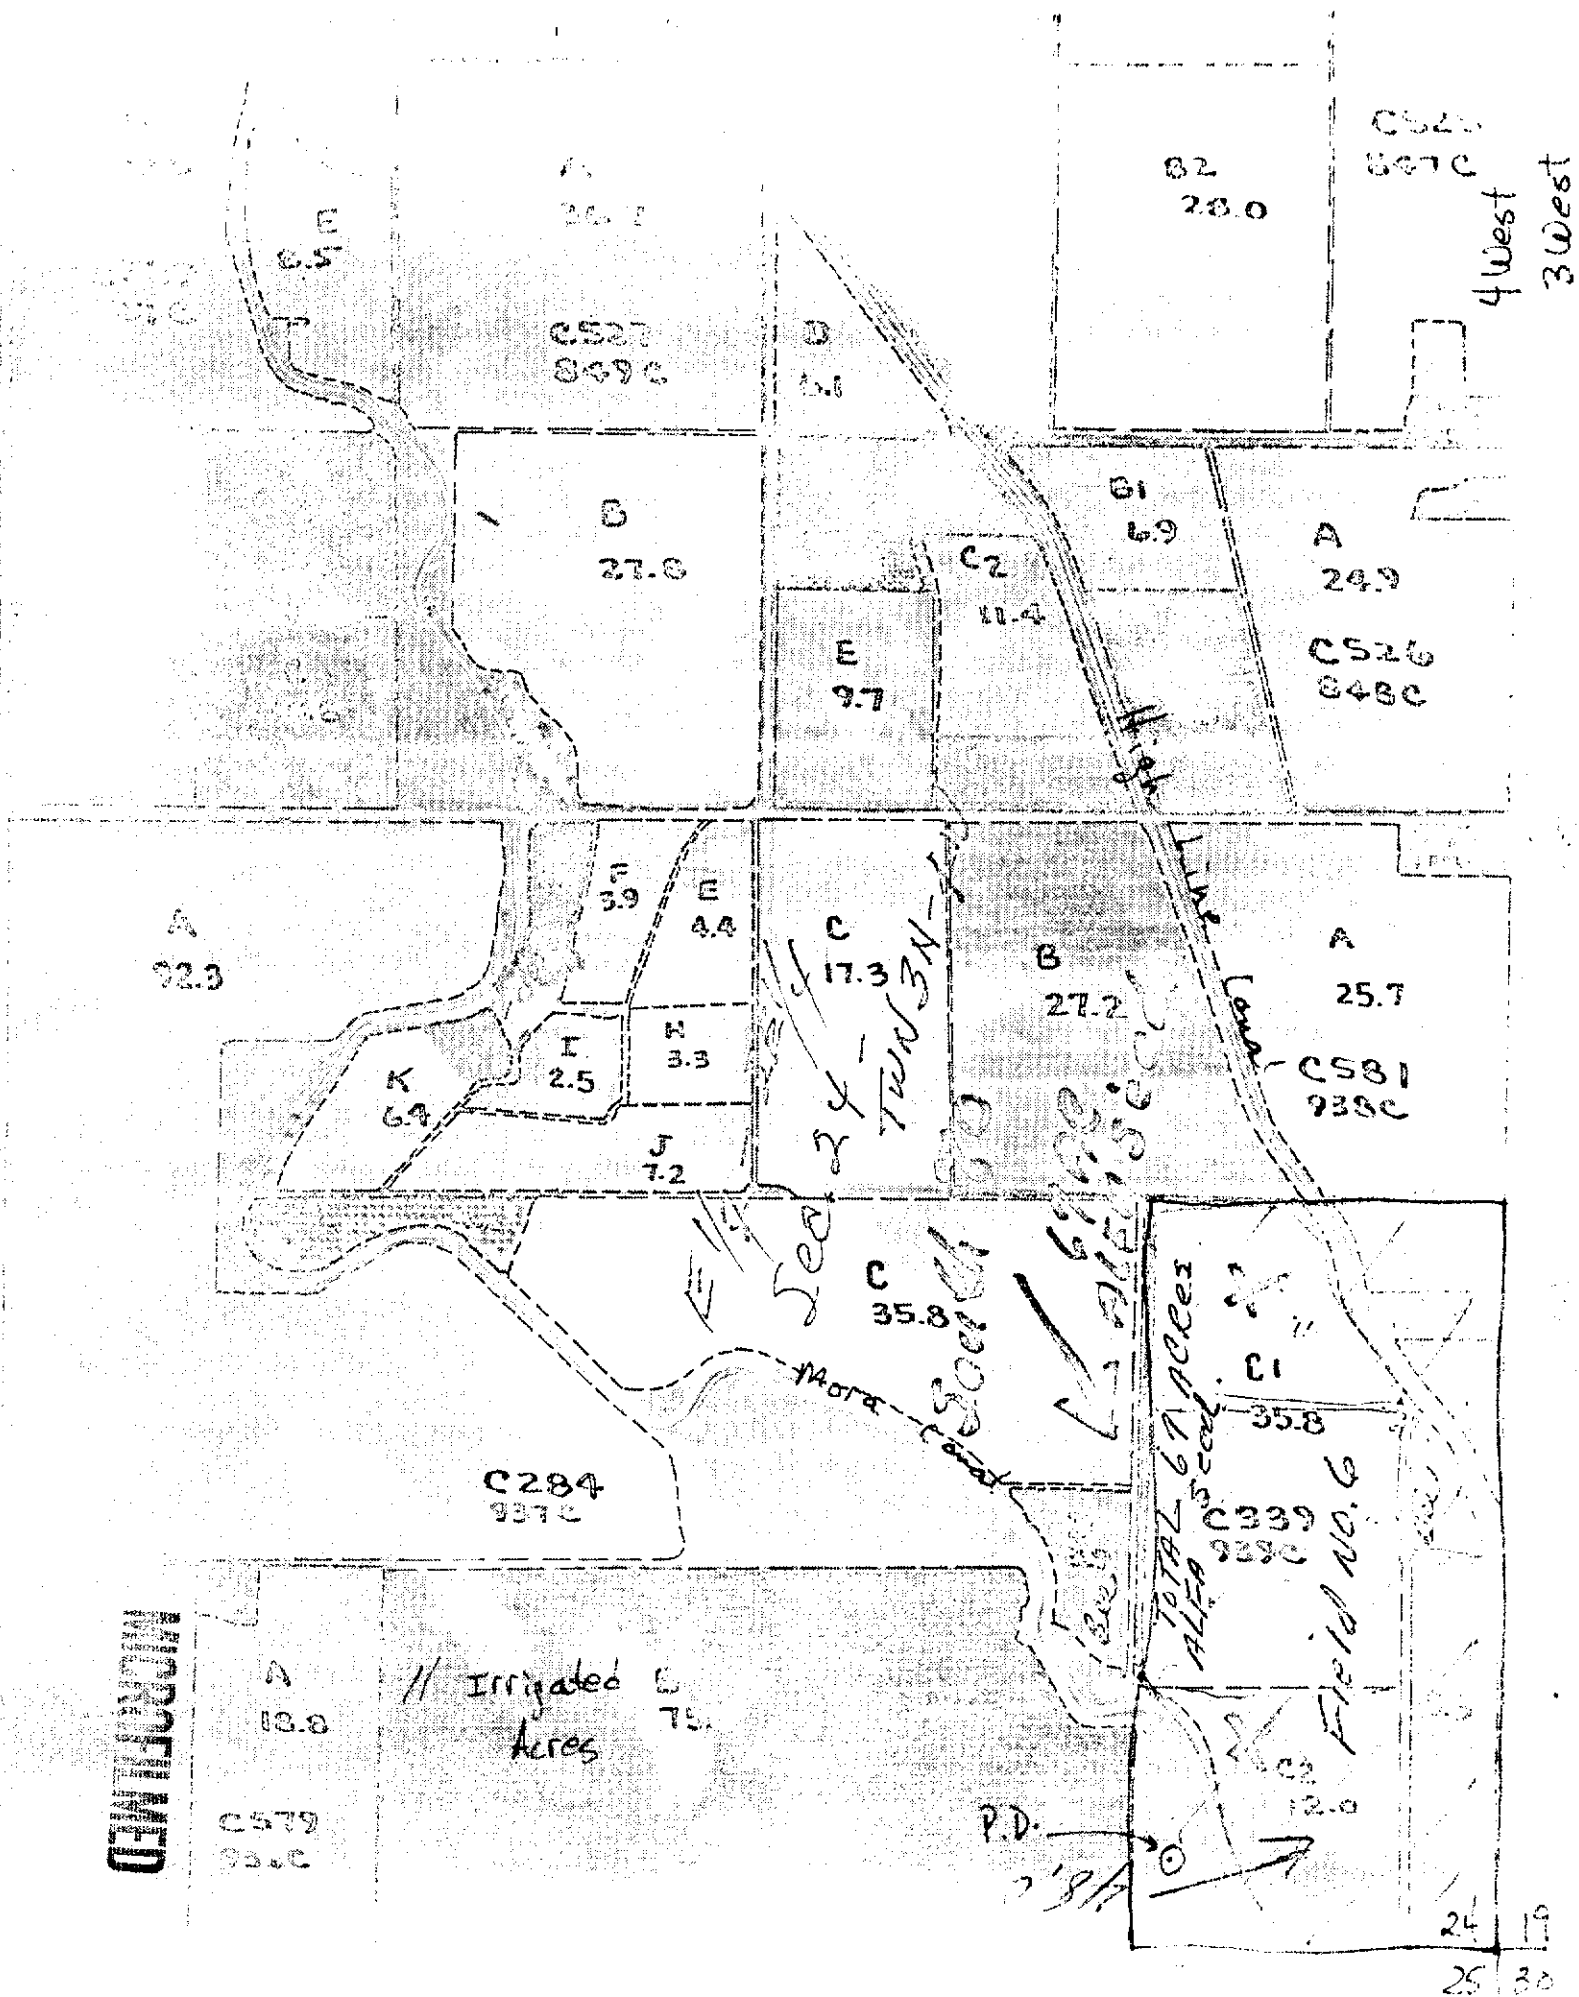

IT IS, THEREFORE, HEREBY ORDERED and Application for Permit No. 63-8622 is APPROVED subject to the following conditions:

1. The permit be and is subject to all prior existing water rights.
2. A measuring device of a type approved by the Department of Water Resources be permanently installed and maintained as part of the diverting works.
3. Proof of construction of works and application of water to beneficial use be submitted to the Department of Water Resources on or before May 1, 1982.

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

IN THE MATTER OF PROTEST AGAINST APPROVAL }
OF THE APPLICATION FOR PERMIT NO. 63-8622 }
IN THE NAME OF MAX M. TAKASUGI }

NOTICE OF CONFERENCE
AND/OR HEARING

On March 28, 1977 Max M. Takasugi filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On April 18, 1977 the Department received a protest against approval of said application from John J. Hockberger of Hockberger Fruit Ranch.

The Department has set the matter of protest for conference and/or hearing for Wednesday, May 18, 1977 at 3:00 p.m. in the conference room of the Idaho Department of Water Resources, 373 W. Franklin Street, Boise, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestant may allow the Department without prejudice to dismiss the protest or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 1st day of May, 1977.

Dear Mr. Hockberger:

This office acknowledges receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The Department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest.

If we may be of further assistance, please contact us.

Sincerely,

L. GLEN SAXTON, P.E.
Western Regional Supervisor

Mr. C. Stephen Allred, Director

Subject: Protest of Application No. 63-8622 in the name of Max M. Takasugi Route 6, Caldwell, Id for a permit to appropriate 1.6 CFS of water from a groundwater source by means of well, pump and ditches within the SE 1/4 SE 1/4 Sec 24 T3N-R4W B. M., Canyon County for irrigation of 80 acres within the E 1/2 SE 1/4 Sec 24 T3N-R4W B. M.

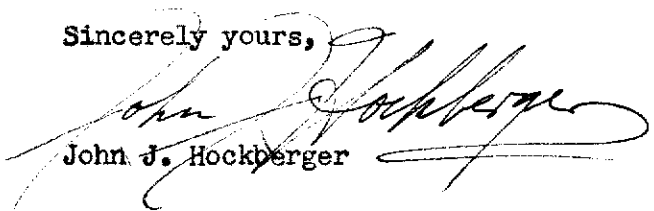

Dear Mr. Allred:

As application holder of groundwater permits No. 63-8475 within the NE 1/4 NE 1/4 Sec 25 T3N-R4W B.M. Canyon County, and No 63-8474 within the NW 1/4 NW 1/4 Sec 30 T3N-R4W B.M. Canyon County, I protest Application No. 63-8622 for the following reasons:

1. Point of diversion could adversely effect my prior applications for irrigation wells in Sec 25 and Sec 30.
2. Point of diversion could adversely effect my two domestic wells.
3. Lands for which the applicant wishes to establish a new water right from this proposed well location already have water rights under the Wilder Irrigation District. As Wilder Irrigation District water rights are annual charges against the land, it may be assumed the proposed well is intended for shortwater years under the project. Less stress on available groundwater in the immediate area would be accomplished by locating the point of diversion further north in the E 1/2 SE 1/4 Sec 24 T3N-R4W B.M., closer to the drainage well which is maintained year-round by the Wilder Irrigation District.

I protest the Max M. Takasugi Application No. 63-8622, and request that the application as proposed be rejected.

Sincerely yours,

John J. Hockberger
