ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-8475, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 79.
- c. Other: A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works.

2. Denial of said application is for the following reasons: _____

Witness my hand this 15 day of April, 19 77.

IN THE MATTER OF PERMIT NO. 63-08475)
) **ORDER OF**
IN THE NAME OF JOHN J. HOCKBERGER) **REINSTATEMENT**
)

FINDINGS OF FACT

- 81996

6. On January 26, 1996, the permit holder submitted an acceptable proof of beneficial use statement and license examination fee along with a financial statement for the purchase of the pump and mainlines. The file also contains a field examination for Water Right No. 63-08474 which shows irrigation of the lands in question. The permit holder explained that he assumed he had not developed this right since he had not developed the well, even though the land was being irrigated by other wells.

CONCLUSIONS OF LAW

1. The permit holder has submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used within the authorized development period.

2. The permit holder has shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

3. The department should reinstate the permit with the date of priority advanced to the date proof of beneficial use and supporting information was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 63-08475 is REINSTATED.

IT IS FURTHER ORDERED that the priority date is advanced to January 26, 1996.

Dated this 22nd day of March, 1996.

L. GLEN SAXTON, Chief
Water Allocation Bureau

PROOF OF BENEFICIAL USE

The Idaho Department of Water Resources considers this form a statement that the permit holder(s) has/have completed all development that will occur under this permit and that water has been applied according to the provisions of the permit for the beneficial use(s) described below. This form must be accompanied by a license examination fee, when necessary, or be accompanied by a completed field examination report prepared by a certified water right examiner who has been appointed by the department.

1. Permit No. 63-08475 Telephone No. (208) 459-9192
2. Name(s) of Permit Holder(s): JOHN J. HOCKBERGER, SR.
3. Mailing Address: 13957 MALT ROAD, CALDWELL, IDAHO 83605
4. Source of Water: GROUND WATER If GROUNDWATER (well), Date Drilled: mo. 4 / yr. 1994
- a. Well Driller: PETIE COPE Drilling Permit Number: 63 - 94 - C296 - 000
IDWR NO. 63-02798
- b. **OPTIONAL:**
Pump Horsepower: 125 Pressure (psi): _____ Dynamic pumping level (ft): _____

5. Use(s) (as authorized by the water right permit):

Domestic (No. of households): _____ Stockwater (No. and type of stock): _____
Irrigation (No. of acres): 203 Other: _____

6. Total rate of diversion and/or volume for which proof is submitted: 1.4 cfs OR _____ acre feet

7. Measuring Device Requirement: (refer to the approval conditions on your permit and respond accordingly)
(This question is **not optional**. Please check either yes or no. Proofs returned not checked accordingly, will be considered incomplete)

Measuring Device: Is a measuring device required? Yes _____ or No _____
Has the measuring device been installed? Yes _____ or No _____

Flow Measurement Port: Is a flow measurement port required? Yes _____ or No _____
Has the measurement port been installed? Yes X or No _____

8. Fee Enclosed: \$ 120.00 (See Fee Schedule on back of the instructions for filing proof of beneficial use)

9. Person to contact to accompany the Department representative during field examination of the water system.

DEPARTMENT OF WATER RESOURCES

REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit
proof of beneficial use on a water right permit

MAY 17 1983

John J. Hockberger of Rt. 10, Box 279, Caldwell, ID 83605
(Name) (Address)

State of Idaho deposes and says:

That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Water of
the State of Idaho No. 63-8475

That under the terms and conditions of said permit, work thereunder was required to be completed on or before
May 1, 19 83

That he has heretofore performed the following work described under said permit: In 1978, Pete Cope
(This must be filled out if no work has been completed put none)
started drilling a well. The well has been cased to 15 feet. Purchased and buried
pipeline under the Mora Canal in anticipation of the development of this permit.

Costing \$ 1,700

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit:
Idaho Power moratorium on new hookups. Also, I have not had sufficient time to
arrange for financing and a well driller since the moratorium has been lifted.

Wherefore, he asks that the Department of Water Resources extend the time for the completion of obligations
under said permit to May 1, 19 88
(1 yr. minimum, 5 yrs. maximum)

NOTE
AS OF JULY 1 1980
THERE IS A \$15.00
CHARGE FOR REQUESTS
FOR EXTENSION OF
TIME

John J. Hockberger
(Signature)
*IF OTHER THAN HOLDER, Power of Attorney must be supplied.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

IT IS HEREBY ORDERED that the above application for extension of time be APPROVED and the time within
which to submit the statement of beneficial use is extended to May 1, 1988.

IT IS FURTHER ORDERED That the permit be REINSTATED and the priority advanced to
March 10, 1977, pursuant to Section 42-218a, Idaho Code.

Signed this 31st day of May, 19 83

J. Glen Saxton
Chief, Operations Bureau

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF EXTENDING THE PROOF DUE
DATE IN CONNECTION WITH PERMIT NO. 63-8475
IN THE NAME OF JOHN J. HOCKBERGER

ORDER

WHEREAS, on February 22, 1977, John J. Hockberger filed with the Department of Water Resources an application for permit to appropriate 1.40 cubic feet per second of groundwater to be diverted within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 25, Twp. 3N, Rge. 4W, B.M., Canyon County, to be used for irrigation purposes; and,

WHEREAS, on April 15, 1977, the Department approved said application and issued Permit No. 63-8475 with the condition that proof of construction of works and application of water to beneficial use be submitted to the Department on or before May 1, 1979; and,

WHEREAS, on April 13, 1978, the permit holder submitted a request for an extension of time; and,

WHEREAS, it appears that under the circumstances, the permit holder has been proceeding with diligence and has given good cause for delay;

IT IS, THEREFORE, HEREBY ORDERED that the time within which to submit proof of beneficial use of water under Permit No. 63-8475 be extended to May 1, 1983.

Dated this 17th day of April, 1978.

To Appropriates the Public Waters of the State of Idaho
(TYPE OR PRINT IN INK)

1. Name of applicant JOHN J. HOCKEHOER Phone: 459-9192
post office address ROUTE #4 BOX 224, CALDWELL, IDAHO 83605
2. Source of water supply ground water which is a tributary of _____
3. a. Location of point of diversion is NE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 25 Township 3N
Range 1W B.M. CANYON County; additional points of diversion if any: _____
- b. If water is not consumed, it will be discharged into _____ at a point in _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____ Range _____ B.M. _____
4. Water will be used for the following purposes:
Amount 2-075 for IRRIGATION purpose from MARCH 15 to NOVEMBER 15 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 2-075 1.4 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. _____
WELL, PUMP, PIPE, & SPRINKLERS
- b. Height of storage dam _____ feet; active reservoir capacity _____ acre feet; total reservoir capacity _____ acre feet; materials used in storage dam: _____
Period of year during which storage will occur _____ to _____ inclusive.
(Mo. Day) (Mo. Day)
- c. Proposed well diameter is 16 inches; proposed depth of well is 200 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use is ONE years
b. Estimated construction cost is 15,000
8. Description of proposed uses:
a. If water is not for irrigation:
(1) Give the place of use of water: _____ $\frac{1}{4}$ of _____ $\frac{1}{4}$ of Section _____ Township _____
Range _____ B.M. _____
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered: _____
b. Name of municipality to be served _____, or number of families to be supplied with domestic water: _____
c. If water is to be used for other purposes describe: _____

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

TWP	RANGE	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	
3N	4W	25	30			40									30				100

Total number of acres to be irrigated 100

c. Describe any other water rights used for the same purposes as described above.

License No. 63-2798 for 65 acres w/ 7 cfs.

9. a. Who owns the property at the point of diversion John J. Hookberger

b. Who owns the land to be irrigated or place of use John J. Hookberger

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks _____

Hand-drawn map on a grid showing the proposed location of a well and a pump. The map includes a north arrow, a dashed line for the Irrigation Main Line, a solid line for the Electric Power Line, and a wavy line for the Main Canal. A proposed well is marked with a circle and a pump location with a cross. The map is divided into sections 25 and 30, T3N R4W BM and T3N R3W BM. A legend in the bottom right corner defines the symbols: a circle for 'PROPOSED WELL', a cross for 'PUMP LOCATION', a dashed line for 'IRR. MAIN LINE', and a wavy line for 'ELEC. POWER LINE'.

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-8475, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 79.
- c. Other: A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works.

2. Denial of said application is for the following reasons:

Witness my hand this 15 day of April, 19 77.

Director

AFFIDAVIT OF PUBLICATION

RECEIVED

STATE OF IDAHO,
County of Canyon.

) ss.

Verla Harker
of Caldwell, Canyon County, Idaho, being first duly sworn,
deposes and says:

Notice is hereby given that JOHN J. HOCKBERGER Route 4, Box 224 Caldwell, ID has on February 22, 1977 submitted Application No. 63-8473 for a permit to appropriate 2.0 cubic feet per second of water from a ground-water source by means of well, pump, pipe and sprinklers within the NE 1/4 Sec 25 T3N-R4W S.4M., Canyon County to be used from Mar. 13 to Nov. 13 for irrigation of 100 acres within the E 1/2 NE 1/4, NE 1/4 SE 1/4 S-c 25 T3N-R4W S.4M. If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, Statehouse, Boise, Idaho, 83720, on or before March 21, 1977.
R. KEITH HIGGINSON
Director
March 2, 10, 1977

1. That I am a citizen of the United States of America, and at all times hereinafter mentioned was over the age of twenty-one years, and not a party to the above entitled action.

2. That I am the Principle Clerk of the News-Tribune, a daily, (except Sunday) newspaper published in the City of Caldwell, in the County of Canyon, State of Idaho; that the said newspaper is in general circulation in the said County of Canyon, and in the vicinity of Caldwell, and has been uninterruptedly published in said County during a period of seventy-eight consecutive weeks prior to the first publication of the notice, a copy of which is hereto attached.

3. That the notice, of which the annexed is a printed copy, was published in said newspaper

Two Times in the regular and entire issue of said paper, and was printed in the newspaper proper, and not in a supplement.

4. That said notice was published the following dates:

March 3, 10, 1977

Verla Harker

Subscribed and sworn to before me this

FIELD FINDINGS AND ANALYSIS

A total of 191 acres are sprinkler irrigated with ground water from a 3 well combined system via buried mainline. The wells and 151 acres have been previously licensed and claimed involving three other rights:

63-05223 P/D=NESE T3N R4W S25, system capacity theoretically calculated at .97 cfs, claimed at .70 cfs.

63-08474 P/D=NWNW T4N R4W S30, system capacity measured at 2.82 cfs, licensed at 1.8 cfs.

63-02798 P/D=NESE T3N R4W S25, system capacity measured and licensed at .70 cfs, well & pump replaced in 1994, new system capacity is 2.12 cfs

Total existing combined system capacity = 5.91 cfs

25 acres of the 40 listed on this permit in the SENE S25 have been licensed on 63-02798 at .01 cfs/acre. All 40 acres have been recommended for this right to include the additional 15 irrigated acres and increase the cfs to .02 cfs/acre for the previously licensed 25 acres. The 30 acres listed on this permit in the NESE S25 were not included in the license recommendations since they are fully covered with licenses 63-08474 and 63-02798. The 25 acres found in the NENE S25 do not overlap with previously licensed acres and have been recommended at .02 cfs/acre.

A total of 65 acres have been recommended for this permit at 1.05 cfs (.02 cfs for 40 new acres, .01 cfs for the previously licensed 25 acres).

63-12209 was also filed on the same acres, then withdrawn because all the acres were sufficiently covered with the above rights and this permit.

121 shares of Wilder Irrigation District water is also appurtenant to the property and can be delivered through the mainline system. No other water rights are used.

The SRBA claims were filed to reflect the licenses. Rather than filing a transfer, the claims can be amended, once this license has been issued, to reflect the combined system since it was accomplished prior to 1986. Documentation and proof have been submitted to those files.

ATTACHMENT A

63-08475

P/D's

#1 SWNESE 525 T3N R4W

~400' deep well with 30HP US Electric High Thrust pump, ser #?, A3264PY Frame, valve set at 200', pumps at 180' (per stat claim 63-05223). Ground water discharged into 16" x 20' column well as a sump. This 16" column is a casing from a dry well that has been sealed at 20'.

$$\frac{30 \text{ HP} \times 8.8 \times 1.7}{180'} = 1.03 \text{ cfs}$$

A 25HP booster pump (US Electric, Hollowshaft) pumps the water from the sump directly into the mainline system. Capacity of the system is dependent on the capacity of the booster pump.

$$\frac{25 \text{ HP} \times 8.8 \times 1.7}{20' + 60 \text{ PSI} \times 2.31} = .97 \text{ cfs}$$

* Theoretical flow water from both pumps compatible to system design for this P/D.

#2 SENE SE 525 T3N R4W

Original well/pump capacity
measured at .7 CFS in 1957 for
license 63-02798. This well was
replaced in 1994. The new well
has a 125 HP Layne Pump #DSJ402105,
6E, 419 TDH, 960 GPM = 2.12 CFS
pumping capacity per pump curve.

#3 NENWNW 530 641 T3N R3W

298' deep well, 150 HP High Thrust
US Motor, #06502-240. Pumping
capacity was measured at
2.82 CFS in 1987 for license 63-08474.

REPORT OF ENGINEER

63-02798

Permit No. 21367

This proof is for Beneficial Use

In Water District No.

1. Name of applicant John J. Hockberger

2. Source of water supply Subterranean flow from a well

3. Location of point of diversion: Is in the NE 1/4 SE 1/4 of Section 25

T. 3 N. R. 4 W. S. 20 E. County of Carya

4. Describe works as they exist, giving dimensions and capacities of same. Drilled well - 11' 5" x 12"
Static Water level 92' - Pumping level 110' - Pump Peerless #5512 - Vertical Centrifugal - Motor U.S.
#552295 P.S. - Booster Unit - Pump Horizontal Pacific #5P1336 - Motor GE YG 2880 P. 18
Motor Idaho Power #38022110 - Demand 0.820 x 40

5. Water is used for: Domestic and Irrigation

6. State whether or not water has been turned into works of diversion:

Yes.

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

40 acres in NE 1/4 SE 1/4 and 25 acres of SE 1/4 all of Sec. 25, Twp. 3 N., R. 4 W., S. 20 E.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 63-08475

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit.

Enclosed is an order reinstating your permit since proof of beneficial use was received after the proof due date. Please note that the priority date has been advanced to January 26, 1996.

The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

If you have questions concerning the field examination, please feel free to contact the WESTERN Regional Office in Boise at (208) 334-2190.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

CONDITIONS OF APPROVAL:

13. If an annular space of at least 4 inches greater than the outside diameter of the casing is provided a granular bentonite or bentonite chips may be poured at the manufacturers recommended rate or no greater than 50 pounds in five minutes. The pour shall also be sifted through 1/4 inch mesh screen to reduce the introduction of fines unless the annular space is free of water ie. (above the water table and there is no cascading water). The top of the seal shall be tagged at regular intervals ie. (30' intervals) during placement with a sinker bar or other appropriate device to ensure the seal is reaching the intended depth. If bridging occurs the seal shall be tampered to its intended position or the Department will be contacted for evaluation.
14. The screen, perforated, filterpacked or otherwise open and commingled strata which are to be produced from, shall be of similar hydraulic head, temperature and quality. If there are notable variations encountered as the well is drilled and/or developed the Department will be notified for evaluation.
15. As this is a replacement well, the well being replaced shall be abandoned by a plan approved by the Dept. which meets State minimum construction standards 3,12,1.
16. The seal shall extend through an aquitard at a minimum depth of 150'. If this aquitard has considerable thickness, information can be provided to the department for review for consideration to be given to terminating the seal without full penetration of the aquitard.
17. The well which this well is supplementing or replacing may be used for domestic purposes. If the well is not put to beneficial use it shall be abandoned per condition condition #15.

Drilling Permit No. 63-94-C-0296-000

Water Right No. 63-02798

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

_____, Applicant, requests
issuance of Drilling Permit prior to approval of a water right. The request is made for the
following reason(s): *Transfer*

*Well driller is set to drill - located
in a potatoe field that will need
water within two weeks.*

Applicant understands that the drilling permit does not constitute a water right and does
not authorize diversion or use of water from the well.

Applicant acknowledges that by accepting a drilling permit and commencing construction
he accepts all risk that the well may not ultimately be approved for use.

RE: Lapsed Permit No. 63-08475

Dear Mr. Hockberger:

It appears that the department has enough information to reinstate the above referenced lapsed water right permit, however, before we can reinstate, the proof form must be accompanied by the correct license examination fee. You were informed that the license examination fee for a rate of diversion of 1.40 cfs was \$120.00, however, the correct fee is \$125.00.

Please submit the additional \$5.00 fee as soon as possible so the department can continue with the reinstatement process. Please direct your correspondence to my attention.

If you have any questions, please contact me at (208)327-7900.

Sincerely,

JULIE L. YARBROUGH
Senior Secretary

System Description (continued)

3. Narrative: Description (As of [redacted] at time of measurement. Indicate pressure, number of sprinklers, etc.)

The irrigation system uses 3 separate wells to supply water to a pressurized sprinkler system for slightly over 200 acres of fruit trees and alfalfa irrigation. The diagram illustrates the layout of the 3 wells and the pipe system. Water from the 3 wells all intermingle. The well for this water right is #3 and has a 150 HP electric motor.

MEMORANDUM

January 30, 1996

RECEIVED

JAN 31 1996

Department of Water Resources

TO: Julie Yarbrough
FROM: Cindy Hodges *cjh*
RE: Late Proof Filing on Lapsed Permit 63-08475

The attached proof and supplemental information is in response to correspondence between myself and permit holder John J. Hockberger, Sr. over the past 9 months or so.

Mr. Hockberger filed application for permit no. 63-12209 in May of 1995. Processing for that application has been delayed. During the course of my review of the application I discovered lapsed permit 63-08475 which covers most of the same area as 63-12209. Mr. Hockberger conducted some research and has decided to pursue reinstatement of 63-08475.

Attached you will find: Proof of Beneficial Use Form, receipt for \$120.00, a bank statement which shows purchase of pumping equipment in 1970, a Soil Conservation map, and a series of letters which should fill you in on most of the rest of the details. The final letter from Mr. Hockberger, dated 1/25/96, also serves as his explanation for late proof filing.

Mr. Hockberger also indicated that he would like to withdraw application 63-12209; I will send him forms and handle that from this end.

Please call if you have questions.

Re: Lapsed Permit No. 63-08475

Dear Ms. Hodges:

Responding to your letter of July 31, 1995, I wish to license the new well (Drilling Permit No. 63-94-C-0296-0) under Permit Application No. 63-08475. This permit lapsed owing to developments within 800 feet of the designated well site. My neighbors, Symms Fruit Ranch and Max Takasugi each developed irrigation wells. In 1983 the Canyon County Zoning Ordinance qualified the area for three domestic wells. This number has increased to nine domestic wells within the Southlake Terrace Subdivision. The potential for water problems became too great. With the added cost of a new power line and mainline, the new well was drilled about 3000 feet south. *when 1994?*

In 1970 all land under consideration was irrigated by wells and buried mainline. Enclosed is a Federal Land Bank of Spokane document filed July 16, 1970, with the Canyon County Recorder. Listed are motors, turbine pumps, 700 feet of 8" and 6,620 feet of 6" buried steel mainline.

Enclosed is form "Proof of Beneficial Use" and a license examination fee of \$120.00 (Check # 1314).

Please forward forms for withdrawal of permit application 63-12209. A \$120.00 fee was paid on 63-12209 on 5/11/95.

Sincerely,

John J. Hockberger, Sr.

RE: Lapsed Permit No. 63-08475

Dear Mr. Hockberger:

I am in receipt of your letter of July 5 and the attached system engineering drawing. I could not find a preparation date noted anywhere on the drawing, but I spoke with Canyon County NRCS and have been able to date the document back to at least 1984, which should be sufficient for purposes of requesting reinstatement of 63-08475.

Permit No. 63-08475 was issued in 1977 and was lapsed on May 16, 1988. One development extension was awarded in 1983. According to Idaho Code 42-218a (copy attached), a lapsed permit may be reinstated if 1) a proof of beneficial use form and current fee is submitted, 2) the extent of actual beneficial use may be determined as of the original proof due date, in this case May 1, 1988, and 3) the permit holder can show reasonable cause for filing a late proof of beneficial use. Priority date of a reinstated permit will be advanced to the date the proof form and fee are received.

The drawing you provided indicates that the lands to be developed under permit 63-08475 were in fact provided with ground water via buried mainlines from three existing wells, as of at least 1984. Because no well appears to have been constructed at the point of diversion listed for 63-08475 (NENE Sec 25), the existing wells would be viewed as the accomplished points of diversion for licensing purposes.

Interestingly, the 1987 licensing exam for 63-08474, a permit issued in the same time frame for different acres, also showed the lands under 63-08475 as irrigated. It is not clear how 63-08474 was licensed without regard to 63-08475, as they clearly shared a delivery system. Criteria for licensing was slightly different at that time, and the common system was not reflected on the license, as it would be now.

MAR 28 1996

July 31, 1995

Page 2

With the information available supporting beneficial use, it appears you must file proof and satisfy the reasonable cause criteria in order to justify reinstatement of 63-08475. Enclosed is a proof of beneficial use form, and a copy of the permit as approved for your reference. The current proof fee for 1.4 cfs is \$120.00 and must accompany the proof filing for your request to be processed. Please return proof form, fee, and a brief statement addressing reasonable cause for late proof filing, directly to me. I will attach the system diagram and other information I have and forward for processing.

Should lapsed permit 63-08475 be reinstated, application for permit 63-12209 will not be necessary to authorize irrigation from ground water in certain portions of Section 25. However, application for permit 63-12209 may still have some value in providing for additional rate of flow per acre. Currently, the combination of available ground water rights for this farm does not provide a full miner's inch per acre. When Shelley Keen assisted you with the filing of 63-12209, he structured the filing to recognize some system upgrades and bring total available flow rates up to one miner's inch per acre on all acres under the system. The application filing may still be used for this purpose, even if 63-08475 is reinstated and subsequently licensed. Licensing for 63-08475 would be based on the system in place in 1988, not the present or upgraded system.

If you are no longer interested in pursuing 63-12209, please let me know and I will forward the proper forms for you to withdraw this application. Otherwise, it will remain on delay status until such time as we are able to process it.

As before, please contact me if you have questions.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent

Re: Application for Permit #63-12209

Dear Ms. Hodges:

Reference is made to your letter of June 1, 1995, presenting the possibility that my recent application for a permit (5/11/95) to appropriate ground water for irrigation could be expedited more quickly by reinstating lapsed permit #63-08475, with additional information which supports existing use in 1980 or earlier.

Enclosed is a 1979 engineering drawing showing the location of all distribution mainlines and the three wells. Electric motors to supply ground water for sprinkler irrigation at the three wells totaled 255 h.p. in 1979.

The 4,150 feet of PVC ten inch and eight inch main lines with 50 foot turn-outs were connected to the old steel main lines and the new well with a 150 h.p. pump in 1979. The steel mainlines and the other two wells date back to the 1950's and 1960's. In 1994 the well at Symms road collapsed and is being replaced by the well presently under application.

Lapsed permit #63-08475 was advertised in March of 1977 to irrigate the same 100 acres which will be irrigated by the present replacement well. I am very interested in reinstating the lapsed permit.

Sincerely,

John J. Hockberger, Sr.

RE: Application for Permit #63-12209

Dear Applicant:

Your application for permit to appropriate ground water for irrigation purposes was received on 5/11/95. Processing of your application must be delayed, unless you can provide additional information which supports existing use.

Due to continued drought and to protect existing water rights and water supplies, the Director of this agency declared a moratorium on 5/15/1992 concerning water right applications proposing new consumptive uses of public water. The moratorium has now been lifted, but a backlog of applications filed during the moratorium must first be processed before new applications may be considered. It is not likely that your application for permit as filed can be processed for use during the 1995 irrigation season.

The 1980 aerial photo you provided does show the lands in NENE and SENE Section 25 as irrigated. However, this area is within Irrigation District boundaries and could be irrigated from a different source. The photo alone is not conclusive evidence of groundwater irrigation dating back to 1980. In order for processing to proceed for this application, you must show that groundwater was delivered to these quarter-quarter sections. An example of this proof might be an engineering schematic showing location of all distribution mainlines.

You may not realize that there is a lapsed permit on file, no. 63-08475, which covers acreage in NENE, SENE, and a portion of NESE Section 25. Proof was due on this permit in May, 1988 but was not submitted. There may be a possibility this permit can be reinstated, in which event the new application might not be necessary. Priority would be advanced, and proof of use would still be required for reinstatement, but advertising would not have to occur. If you are interested in this option, please contact me.

MAR 28 1996

6/1/95

Page 2

Unless we are contacted or until additional information is received, this office will hold your application and will begin processing as soon as our backlog has been eliminated. All applications received will be processed in priority order. Delays related to department actions do not affect the date of priority or seniority of your application, once established.

If you have any questions, please feel free to contact me at 334-2190.

Sincerely,

Cindy Hodges

LAPSE NOTICE

RE: Permit No. 63-8475

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218a, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper forms in our proof due notice to you dated February 28, 1988.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this Department within sixty days of the date of mailing of this lapse notice.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

PROOF DUE NOTICE

RE: Permit No. Gs-8475

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before May 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

RE: Extension of time Request dated 5-17-83

The extension of time request received 5-17-83 is the second Extension Request received on this permit.

The first request was approved for 5 years and appears to be based upon the permit holder showing due diligence. However, in his letter of 4-13-1978 he states that the T.O. Power Monitoring was the reason why the permit development had not been completed.

If the Department had chosen to use the T.O. Monitoring reason for delay the Extension period could have only been for the period when the Monitoring had started to the point to peripheral use ^{in the course of the extension request} which was from 12-29-77 to 4-13-1978.

This period is only 4 months. Therefore the Approval of the Extension Request has to be considered to be based upon due diligence.

The current Request for Extension is approximately based upon the T.O. Monitoring which is 5 yrs.

EXTENSION OF TIME

May 18, 1983

John J. Hockberger
Rt. 10, Box 279
Caldwell, ID 83605

PERMIT NO. 63-8475

We are in receipt of the \$15 extension fee for Extension(s) of Time to provide additional time in which to submit proof of beneficial use on a water right permit.

Your request for extension(s) of time is being reviewed by staff. You will be informed of our decision when review has been completed.

Enclosed is our receipt No. 26574.

LAPSE NOTICE

MAY 05, 1983

DEAR PERMIT HOLDER:

YOU ARE HEREBY NOTIFIED THAT UNDER THE PROVISIONS OF SECTION 42-218A OF THE IDAHO CODE, PERMIT NO. 63-8475 HAS LAPSED. THIS OFFICE DID NOT RECEIVE EITHER AN ACCEPTABLE NOTICE THAT YOU HAVE COMPLETED THE PROJECT (PROOF OF BENEFICIAL USE) BY THE DATE REQUIRED ON YOUR PERMIT OR AN ACCEPTABLE REQUEST FOR AN EXTENSION OF TIME. YOU WERE PROVIDED THE PROPER FORMS IN OUR PROOF DUE NOTICE TO YOU DATED FEBRUARY 28, 1983.

YOUR PERMIT CANNOT BE REINSTATED UNLESS YOU SUBMIT THE STATEMENT OF BENEFICIAL USE POSTCARD OR SUBMIT AN EXTENSION OF TIME REQUEST SHOWING REASONABLE CAUSE FOR DELAY. EITHER THE COMPLETED POSTCARD OR THE EXTENSION REQUEST MUST BE RECEIVED BY THIS OFFICE WITHIN SIXTY DAYS OF THE DATE OF THIS LAPSE NOTICE OR THE PERMIT WILL NO LONGER BE OF ANY FORCE OR EFFECT.

A STATEMENT OF BENEFICIAL USE POSTCARD AND A REQUEST FOR EXTENSION OF TIME FORM ARE AGAIN ENCLOSED FOR YOUR USE. PLEASE NOTE THAT A FEE OF \$15.00 MUST ACCOMPANY AN EXTENSION OF TIME REQUEST AND THAT ONLY ONE EXTENSION OF TIME CAN BE GRANTED UNLESS THE PROJECT HAS NOT BEEN COMPLETED BECAUSE OF LACK OF A NECESSARY APPROVAL BY A GOVERNMENTAL AGENCY OR BY LITIGATION.

L. GLEN SAXTON

PROOF DUE NOTICE

FEBRUARY 28, 1983

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 63-8475 WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE MAY 01, 1983. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST). ENCLOSED IS A POSTCARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER THE BENEFICIAL USE POSTCARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

SINCERELY,

RITA FLECK
SECRETARY/RECORDS MANAGER

Re: Water Permit Numbers 63-8474 and 63-8475.

Dear Mr. Young:

Water Permit Number 63-8474 was developed during the Fall months of 1977. The Well Driller's Report from Pete Cope Drilling Co. and results of a three hour test pump by Layne Pumps of Nampa are enclosed. In November Layne Pumps installed a 6 stage turbin pump with 180 feet of column (8 in.) a 150 H.P. electric motor, and an 8 inch orifice measuring device which empties into the High Line Canal. Idaho Power Company installed transformers and power was turned on the first part of December, 1977. Later we installed a water outlet manifold and short (2 1/2 hour max.) monthly test pumping has continued to the present. Presently we are working on the installation of mainline pipes to connect to established mainlines for water delivery this season. We request an extension of time for proof of beneficial use in order to complete the mainline and connections.

Development of our other water permit, Water Permit Number 63-8475, was stopped at 15 feet of well hole owing to the sudden moratorium by Idaho Power Company on all electrical contracts to new sources of water. We request an extension of time on this permit (63-8475) until the court problems of Idaho Power Company are settled or until the power company is permitted to honor our application for electric pumping power for this well.

Sincerely yours,

John J. Hockberger

John J. Hockberger
Route 4, Box 224
Caldwell, Idaho 83605

Dear Mr. Hockberger:

Enclosed is a copy of the approved application for extension of time in connection with the above referenced permit.

The time within which to submit proof of beneficial use of water has been extended to May 1, 1983 (permit No. 63-8474) and May 1, 1988 (Permit No. 63-8475).

Sincerely,

Jan Grover
Water Rights Supervisor

Route 4, Box 224
Caldwell, ID 83695

Dear Mr. Hockberger,

Enclosed is a copy of your approved Application for Permit No. 63-8475. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Gentlemen:

Enclosed you will find a legal notice which we wish to have published on the dates indicated (once a week for two consecutive weekly issues) in your newspaper. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due after allowing all just credits and that no part of the same has been paid."

(Signature of Claimant)

Please send the affidavit of publication and publication billing to this office before March 21, 1977.

Sincerely,

Bill submitted

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that JOHN J. HOCKERFGER
Route 4, Box 224 Caldwell, ID
has on February 22, 1977 submitted Application No. 63-8475
for a permit to appropriate 2.0 cubic feet per second acre feet
~~per second~~ of water from a groundwater source
by means of well, pump, pipe and sprinklers
within the NE 1/4 Sec 25 T3N-R4W W.M., Canyon County

to be used from Mar 15 to Nov 15
for irrigation of 100 acres

within the ENE 1/4, NE 1/4 Sec 25 T3N-R4W B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Resources, Statehouse, Boise, Idaho, 83720, on or before March 21, 1977.
