RE: Condition of Approval

I contacted Royce Van Curen of the Boise Board of Control concerning the source of the water and was advised that the "South Drain" was not a part of their system.

Hank Koelling, Boise River watermaster also was not familiar with the South Drain even though it is well delineated on the quad sheets.

I recommend we approve the application with the condition that the approval of the permit does not grant a right-of-way across private land.

Dear Mr. Miller:

We are returning the application for permit that you filed in the name of Arthur Van Wyk. Also being returned is your check No. 5566 for \$65. The application has several deficiencies; some of which are the following: Under Item 3a you failed to list the north or south for township 4, the same for Item 3b. Under Item 8b you failed to list the township designation: and the range designation east or west. Also under that same item you must designate the number of irrigated acres by 40-acre tracts. Under Item 11 you should provide a sketch map with a scale of two inches equal one mile. The map should show the location of the point of diversion and the location of the areas irrigated.

Applications for permit are personal property and they must be signed by the applicant. You cannot sign for the applicant unless you provide a power of attorney signed by the applicant.

We are enclosing our power of attorney form, application for permit form and instructions. If you have further questions concerning this matter, please contact this office.

Sincerely,

PETER J. CHAMBERLIN
