10. Remarks As previously indicated, the subject well was drilled for both domestic and irrigation purposes. The old domestic well was drilled in 1905 and the 3" casing does not provide an adequate water supply for domestic use or for stockwatering.

The irrigation part of the new well will be for supplementing the Farmers' Union Ditch Company water, which is normally cut in late mid-season and when this situation occurs, I am unable to receive my allotted amount of water, due to the fact that the lowering of the water level in the canal will not force the proper draw of the water in to the lateral from the canal and thusly, I do not have adequate irrigation water for my needed purposes.

There will not be any industrial waste that could be returned to any streams in this instance. The driller of the well was Russel Cowe Drilling, whose address is 1514 Longmont Ave., Boise, Idaho.

Dear Mr. & Mrs. Henderlider:

One of the conditions of approval of your water Permit No. 63-8245 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
