STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
	)	
NO. 63-8122 IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
RICH WATER SUBDIVISION ASSN.	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On June 12, 1975, the Director of the Department of Water Resources issued Permit No. 63-8122 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before June 1, 1980.

2. On March 31, 1980, the Department sent a proof due notice to the permit holders.

3. On June 13, 1988, the Department sent a lapse notice to the permit holders since neither proof of beneficial use nor a request for extension of time had been received from the permit holders.

4. On March 22, 1990, Proof of Beneficial Use was received by the Department from the permit holders.

5. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, with the priority date advanced to the date that proof of beneficial use was received, upon submittal of evidence clearly establishing the extent of beneficial use prior to the proof due date and a showing of reasonable cause why the proof was submitted late.

MICROFILMED

JUN 04 1990

6. The permit holders submitted evidence to confirm that water has been put to beneficial use. Evidence includes returned checks for power service to well pump dated prior to June 1, 1980, and receipts to individual association members from the association for payment of water assessment fees which were all dated prior to June 1, 1980.

7. The permit holders have stated that changes of past association officers resulted in the proof due and lapse notices being overlooked by the association. They did not realize the permit had lapsed until filing an adjudication claim in the Snake River Basin Adjudication. The proof of beneficial use, therefore, was submitted late.

CONCLUSIONS OF LAW

1. The permit holders have submitted proof of beneficial use along with supporting evidence which establishes that water was in fact beneficially used as identified on the permit.

2. The permit holders have shown sufficient cause why the proof of beneficial use was not submitted in a timely manner.

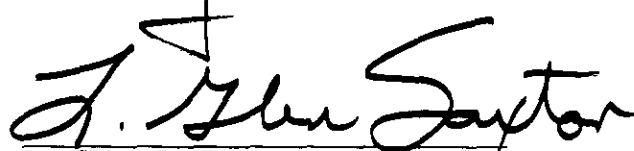

3. The permit can be reinstated with the date of priority advanced to the date proof of beneficial use was received by the Department.

ORDER

IT IS HEREBY ORDERED that Permit No. 63-8122 is reinstated.

IT IS FURTHER ORDERED that the date of priority of this permit is advanced to March 22, 1990.

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/D Same QD, different P/D
P/U Same QD, different places of use.

A 7½ h.p. pump delivers water to Rich Subdivision. The plot shows 21 lots, but lots 1 & 2, Block Two have a separate well. Lot 9, Block 1 is vacant. This leaves 18 homes & lawns served by well. The 20 acres on P/U indicates total land subdivision was developed on. In calculating lot size, ~~determined~~ and allowing 2000 sq. ft. for home and driveway, determined irrigated land is approximately ^{14.15}/~~12~~ acres.

NOTE: No Adjudication Claim Filed.

System capacity of 0.21 cfs is ^{substantially less} ~~greater~~ than the requested allocation of 0.44 cfs. Therefore the prior allocation was based on 15 h.p. pump, but this pump has been replaced with 7.5 h.p. pump. Therefore, recommend licensing for 0.21 cfs for domestic use, and irrigation of ¹⁵/~~14~~ acres.

THEORETICAL: $Q = \frac{(8.8)(0.7)(7.5)}{88 + (2.31 \times 58)} = \frac{46.2}{221.98} \approx 0.21 \text{ cfs}$

NOTE: Dynamic pumping level determined per office diagram and specifications. System pressure of 58 psi was gage pressure at time of exam.

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \overset{15}{14} \times 4.5 = \overset{67.5}{27} \text{ AFA}$$
$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 0.21 \times 183 \times 1.9835 = 76.3 \text{ AFA}$$
$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = \underline{63.0 \text{ AFA}}$$

2. Volume Calculations for Other Uses:

$$V_{\text{Domestic Internal}} = 0.6 \text{ AFA}$$

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Rate of Diversion	Annual Volume
Irrigation	.20	67.5
Domestic	.20	10.8

The allowable rate is ^{adjusted to the maximum rate allowed for the fee paid.} based on the fee submitted with the Proof of Beneficial Proof form. The \$50.00 fee submitted by the permit holder(s) would allow them to have a rate of up to .20 cfs. Since the theoretical capacity of the well is approximately only .21 cfs, then it would not be in the permit holder's best interest to request an additional \$75.00 for a .01 cfs gain.

RE: EVIDENCE OF REINSTATEMENT

DATE: 5-2-90

=====

On this date, Marlene Wood of the Rich Subdivision visited the office and submitted evidence of beneficial use for reinstating the lapsed permit.

Evidence included returned checks representing payments to Idaho Power Co. for electrical service to well pumps. The cheks are dated prior to the original prof due date. Copies were made of three checks although Ms. Wood brought checks to the office covering several years. Alsoo submitted were receipts to individual members of the subdivision water association for payment of water service. The receipts covered the years 1979 and 1980. I personally reviewed the receipts but did not make copies were for the file.

Dear Permit Holder(s):

The Department received your proof of beneficial use statement for the above referenced permit on March 22, 1990. The permit lapsed June 1, 1980 so the 60-day late period during which the permit can be readily reinstated has passed.

Pursuant to Section 42-218a, Idaho Code, (copy enclosed) the permit can now be reinstated only if you submit the following:

a) Evidence to show that beneficial use of the water did commence and to show the extent of the use of water during the authorized permit period from the time the permit was issued until the proof due date.

b) Reasonable cause why the proof of beneficial use was filed late.

Your proof of beneficial use statement along with any information which may have been submitted with it will remain on file in this office for 60 days to allow you an opportunity to assemble and submit the additional required information.

Please feel free to contact this office if you have additional questions.

Sincerely

Dear Wateruser:

The enclosed Order removes the measuring device requirement as a condition of approval from your permit.

If you have installed the measuring device, the field examination can be more quickly conducted by the Department's field examiner. You will also derive benefit from water management information which may be obtained from the installed meter.

If you have questions regarding this matter, please contact this office or our regional offices.
