RE: Water Permit 63-08067, Robert Rhead & Bank of America

Dear Don;

Sorry for the delay in sending the requested material, but I needed to check on the status of the above-referenced permit. Mr. Rhead tried to assign the permit to you last summer, but the permit is owned by both the Rheads and the Bank of America. So the assignment form was returned to Mr. Rhead for a signature from the Bank. To date, the completed assignment has not been returned to us. A blank assignment form is therefore enclosed for your use.

A licensing exam was done on this system a few years ago by Steve Lester of our Western Region office in Boise. He plans a quick trip up there this summer to verify the irrigated acres. He knows that the Rheads no longer own the property.

If I can be of further assistance, feel free to contact me.

Sincerely,

James E. Stanton

RE: Permit No. 63-08067

Dear Mr. Rhead;

I recently received an assignment on the above permit changing ownership from Robert C. and Marlene D. Rhead to Big Sky Partnership. I was referred to you as manager of farming for Robert and Marlene Rhead.

I am unable to process this assignment of permit as there is some confusion as to the ownership of the permit.

On November 10, 1977, the department received and processed an assignment form assigning this permit from the Rhead's to The Travelers Insurance Co and Robert & Marlene Rhead.

On June 15, 1992, the department received and processed an assignment from The Travelers Insurance assigning the loan on the permit to Bank of America as trustee for Farmer Mac Agricultural Real Estate Trust.

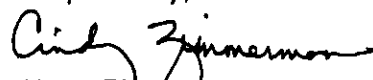

On May 5, 1995, the department received an assignment from Robert & Marlene Rhead assigning the permit to Big Sky Partnership.

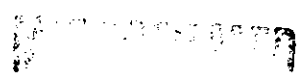

This last assignment cannot be processed without supporting documentation from Bank of America. If the loan has been paid off, Bank of America needs to assign the permit back to Robert & Marlene Rhead as sole owners. If the loan has not been paid off, Bank of America and the Rheads need to assign the permit to Bank of America and Big Sky Partnership. I have enclosed a blank 'Assignment of Permit' form for the Bank's use.

I will hold this assignment for 14 days pending your response. If I do not receive further information from you or Bank of America, I will return the assignment to Land Title and Escrow who originally submitted the assignment.

If you have any questions, or require further assistance, please feel free to contact me at (208) 327-7944.

MEMORANDUM

DATE: May 23, 1995
TO: File no. 63-08067
FROM: Cindy Zimmerman
SUBJECT: Assignment of Permit Review

=====

On January 24, 1975, this permits was issued to Robert C. Rhead.

On October 21, 1977, Robert C. Rhead assigned the permit to The Travelers Insurance Co and Robert C. & Marlene D. Rhead.

Proof of beneficial use was due January 1, 1980. Proof was not received and the permit lapsed. Proof was received January 20, 1980 and the permit was reinstated in the name of Travelers Insurance Co. and Robert C. & Marlene D. Rhead.

On May 28, 1992, Travelers Insurance Co submitted a notice of lienholders interest assigning their interest in the permit to Bank of America, trustee, for Farmer Mac Agricultural Real Estate Trust.

On April 19, 1995, Robert C. & Marlene D. Rhead assigned the permit to Big Sky Partnership.

The question has arisen as to the ownership of the permit.

I telephoned Rick Bernsen of Land Title & Escrow (who transmitted the assignment) requesting information on clear ownership and specifically on lienholders. Mr. Bernsen had no knowledge of any liens on the property and referred me to Mary of Guaranty Title Inc who did the title search.

Mary had no record of lien on the land title but did not research liens on the water rights. Mary referred me back to the Rheads.

I left a message at the Rhead's home.

Dear Mr. Bernsen:

I recently received assignments on the above permits transferring ownership of these rights to your client, Big Sky Partnership. However, due to the requirements of Water Allocation Rule 035.03.b.i., I need a list of the names, titles, and addresses of all the officers and/or partners of Big Sky Partnership.

Also, as of July 1, 1994, each assignment of permit must be accompanied by a \$25.00 filing fee. Assignments of permits are not acceptable without filing fees. No fees were submitted with these assignments.

I am returning these assignments to you. Please resubmit the assignments and listing of partners along with the filing fees to my attention at the above address.

If you have any questions, please feel free to contact me at (208) 327-7944.

Dear Water Right Holder(s):

We are in receipt of the correspondence concerning ownership of the above referenced permit and water rights.

In Idaho, a licensed water right is considered real property; therefore, proof of owning the land is proof of owning the water right unless specifically excluded in the sale. We have placed your correspondence in the files for future reference and have modified our computer records to reflect your present ownership.

Two of the permits that you submitted for assignment, Nos. 63-09043 and 63-09044, are no longer valid.

Our records reflect that Permit No. 02-02262 was assigned by Travelers Insurance Co. to Dennis Smith and Grindstone Butte Mutual Canal Co. on March 8, 1988. We will be holding the assignment you submitted on that permit pending further clarification.

If you have any questions, please let us know.

RE: Applications for Permit and Large Diversion Information Requirement

Dear Mr. Rhead:

Three Applications for Permit for new water rights and one Application for Amendment of Permit 63-08067 were recently received and reviewed. Several changes are needed before proceeding. Please review the following items and respond accordingly.

1. This office has tried to conduct a licensing field exam for Permit 63-08067 since 1986. The exam never occurred for a variety of reasons. The appropriate manner to amend the permit is through a field exam. The \$20 amendment fee paid on 3-15-91 will be applied to the licensing process. It is imperative that the field exam be conducted for this right during the 1991 irrigation season. Without the examination or without a valid reason for again delaying the exam, the permit will be recommended to be cancelled. An examiner will contact you early in the irrigation season to schedule a field appointment.

2. The application for permit for 380 acre feet of storage involving Little Camas Creek to irrigate 1,178 acres is unnecessary. Permit 63-10272 for storing 380 acre feet in the Rhead Ranch Reservoir is a valid permit for up to 570 acres in Sections 4, 5, and 8. Under Idaho Code 42-222, the transfer statute, one may expand the number of acres for storage water without increasing the amount of storage water. Because the reservoir capacity is 380 acre feet already covered by Permit 63-10272, a license exam for the permit will accurately describe the acres eligible for stored water. Proof of beneficial use for the permit was filed on 11-3-89, and a field exam can be conducted for the reservoir water right along with Permit 63-08067. Additional lands using reservoir water can be included in licensing permit 63-10272 or additional lands can be added once the right is licensed. This will allow considerable flexibility in using Little Camas Creek water. The \$105 application fee for the unneeded application will be refunded. An examiner will arrange a field inspection for this right along with Permit 63-08067 during this irrigation season.

3. Two applications for wells serving different lands will be advertised and processed. For the application for two wells in Section 32, during what period of year will irrigation storage occur? Will water be pumped to the reservoir during the irrigation season or during other times? Also, in what year were the wells drilled, what is the diameter and depth of each well, and is the water temperature 90 degrees F. or less?

4. Based on Idaho Code 42-203A(5)(a-e), additional information is needed for applications for permit involving irrigation of more than 200 acres and/or diversions exceeding 5.00 cfs or 500 acre-feet of storage. Both applications for the different wells require additional information. Please provide information relating to the proposed water rights as outlined in the attached copy of Water Appropriation Rules 4,5,3,1 through 4,5,3,5,1. This covers the following items:

- a) effect on existing water rights,
- b) sufficiency of water supply,
- c) good faith, delay, or speculative purposes,
- d) financial resources,
- e) local public interest.

The applications can be advertised but not approved until the information in item 4 is provided.

Please provide the information in item 3 by 4-19-91. The information in item 4 should be submitted by 5-13-91. Let me know if I can offer any help in the process.

On 3/15/91 several applications for permit and an application for amendment of a permit were received and receipted (see attached receipt copy). EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.
