**NOTICE OF
APPLICATION FOR
WATER PERMIT**

Notice is hereby given that HARRY L. GRANGER, West 12th Street, Emmett, Idaho, has on July 15, 1974, submitted Application No. 63-8006 for a permit to appropriate 3.0 cubic feet per second of water from a groundwater source by means of 2 wells and pipeline within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 6, T. 2 N, R. 3 E, B.M., Ada County to be used from Jan. 1 to Dec. 31 for domestic and fire protection use and May 15 to Nov. 15 for irrigation of 34 acres, within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 1, T. 2 N, R. 2 E, S $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 6, T. 2 N, R. 3 E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707, on or before Aug. 12, 1974.

WATER SUPPLY BANK RENTAL AGREEMENT

The Idaho Water Resource Board ("Board") being authorized to operate a Water Supply Bank ("bank") and to contract by and through the Director of the Idaho Department of Water Resources ("Director") for rental of water from the bank agrees to rent water as follows:

1. Renter: Boise Parks and Recreation Department
2. Address: 1104 Royal Blvd, Boise, ID 83706, Attn: Paul Philbrook
3. Source of water: Groundwater
4. Volume of water rented: 15 AF Max rate: 0.25 cfs
5. Diversion period: 2001 irrigation season
6. Use of water: Irrigation
7. a) Renter's point of diversion:

Legal description: SWNE Section 25, T3N, R2E, B.M., Ada County

- b) Renter's place of use:

Legal description: 5 acres in SWNE Section 25, T3N, R2E, B.M., Ada County

Total number of acres to be irrigated: 5

8. The right from which water will be rented is 63-08006.

The undersigned renter agrees to pay \$ 92.70 to the Board for rental of the above described water and agrees to use the water in compliance with the Water Supply Bank rules and in compliance with the conditions of water use shown below:

Conditions of water use under this agreement:

1. The use of water under this agreement shall be subject to the provisions of Section 42-1766, Idaho Code.
2. Upon Department request, the renter shall provide for the measurement of the water diverted in a manner acceptable to the Director and shall report the amount of water diverted at the end of the irrigation season.

3. Use of water under this agreement does not constitute a dedication of the water to renter's land and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to the licensed points of diversion and place of use and/or again be available to rent from the bank.
4. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
5. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
6. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
7. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
8. If water is to be used for irrigation, the rate of diversion when combined with all other water rights for the same land shall not exceed 4.5 AFA for each acre of land.
9. This rental agreement does not authorize the construction of a well.

Dated this 12th day of July, 2001.

by Paul Philbrook
for Boise Parks & Recreation

Having determined that this agreement satisfies the provisions of Section 42-1763, Idaho Code, and, IDAPA 37.02.03030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and conditions herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board this 12th day of July, 2001.

WATER RIGHT LICENSE

License of Water Right No. 63-8006 Priority July 15, 1974 Amount .82 cfs

THIS IS TO CERTIFY, that HARRY L. GRANGER
of Emmett, Idaho, has complied with the terms and conditions of Permit
No. 63-8006 issued pursuant to Application for Permit dated July 15, 1974,
and has submitted proof to the Department of Water Resources on June 11, 1979,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of .82 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>March 15</u> to <u>November 15</u> at	<u>.48</u> cfs and	<u>108</u> acre feet
<u>Domestic</u>	from <u>January 1</u> to <u>December 31</u> at	<u>.82</u> cfs and	<u>123.6</u> acre feet
<u>Fire Protection</u>	from <u>January 1</u> to <u>December 31</u> at	<u>.0</u> cfs and	<u>N/A</u>

(both dates inclusive)

Subject, however, to the condition that no more than .82 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
231.6 acre feet per year, said waters to be diverted within the (2 pts. SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 6,
Twp. 2N, Rge. 3E, B.M. in the County of Ada

Description and location of place of use:

Twp.	Range	Section	NE $\frac{1}{4}$				NW $\frac{1}{4}$				SW $\frac{1}{4}$				SE $\frac{1}{4}$				Totals
			NW $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NW $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NW $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	NW $\frac{1}{4}$	NW $\frac{1}{4}$	SW $\frac{1}{4}$	SE $\frac{1}{4}$	
2N	3E	6							20										20
2N	2E	1				4													4

Total number of acres irrigated 24

Domestic is KOA Campground with 79 permanent units and 169 overnight units.

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 25th day of
June, 19 81.

DIRK KEMPTHORNE
Governor

KARL J. DREHER
Director

February 8, 2002

Richard A. Pavelek
100 N. Bene Posto Place
Boise, ID 83712

RE: APPLICATION TO WATER SUPPLY BANK

Dear Mr. Pavelek:

After receiving the application you submitted to the department on January 29, 2002, to rent part of water right 63-08006 from the water supply bank, I asked department staff in hydrology section to review the hydraulic connection of ground water diverted under the original right on the south side of the Boise River with your well located in SE1/4SE1/4 Section 12, T3N, R2E, B.M. on the north side of the Boise River.

Hydrology section advises that the point of diversion of water right 63-08006 is within the Southeast Boise Ground Water Management Area and that ground water flow there is southwest and is considered tributary to the Snake River. Ground water flow at the proposed point of diversion on the north side of the river is west and is considered tributary to the Boise River. Hence, due to the lack of hydraulic connection of ground water at the two wells, the department is not able to rent part of water right 63-08006 to you.

If you have questions, please feel free to contact me.

Sincerely,

L. GLEN SAXTON, P.E.
Chief, Water Allocation Bureau

c: IDWR - Hydrology Sec

MEMORANDUM

February 7, 2002

To: Glenn Saxton
Through: Bob Sutter
From: Shane Bendixsen
Subject: Hydraulic Connection Near Southeast Boise: Water Bank For Richard Pavelek.

It is my understanding there is an application to rent water from the water supply bank changing the point of diversion from Southeast Boise to north of the Boise River. The current point of diversion is T02N R03E sec 6 south of the Boise River (see attached figure). This is located within the Southeast Boise Ground Water Mangement Area (GWMA). The proposed point of diversion is approximately five miles north in T03N R02E sec 12, SE SE north of the Boise River. The question is whether ground water in the two areas is hydraulically connected. The following is a brief review.

Hydraulic connection between the two areas has been debated. Consensus has usually been that a very limited amount water must flow into Southeast Boise from the northeast to account for the water that is presently there. But if the Boise River and the shallow aquifer associated with it were in direct hydraulic connection to the deep southeast Boise aquifer, ground water levels in Southeast Boise would never have declined. Ground water levels have declined approximately 60 feet in Southeast Boise, but have remained stable northward.

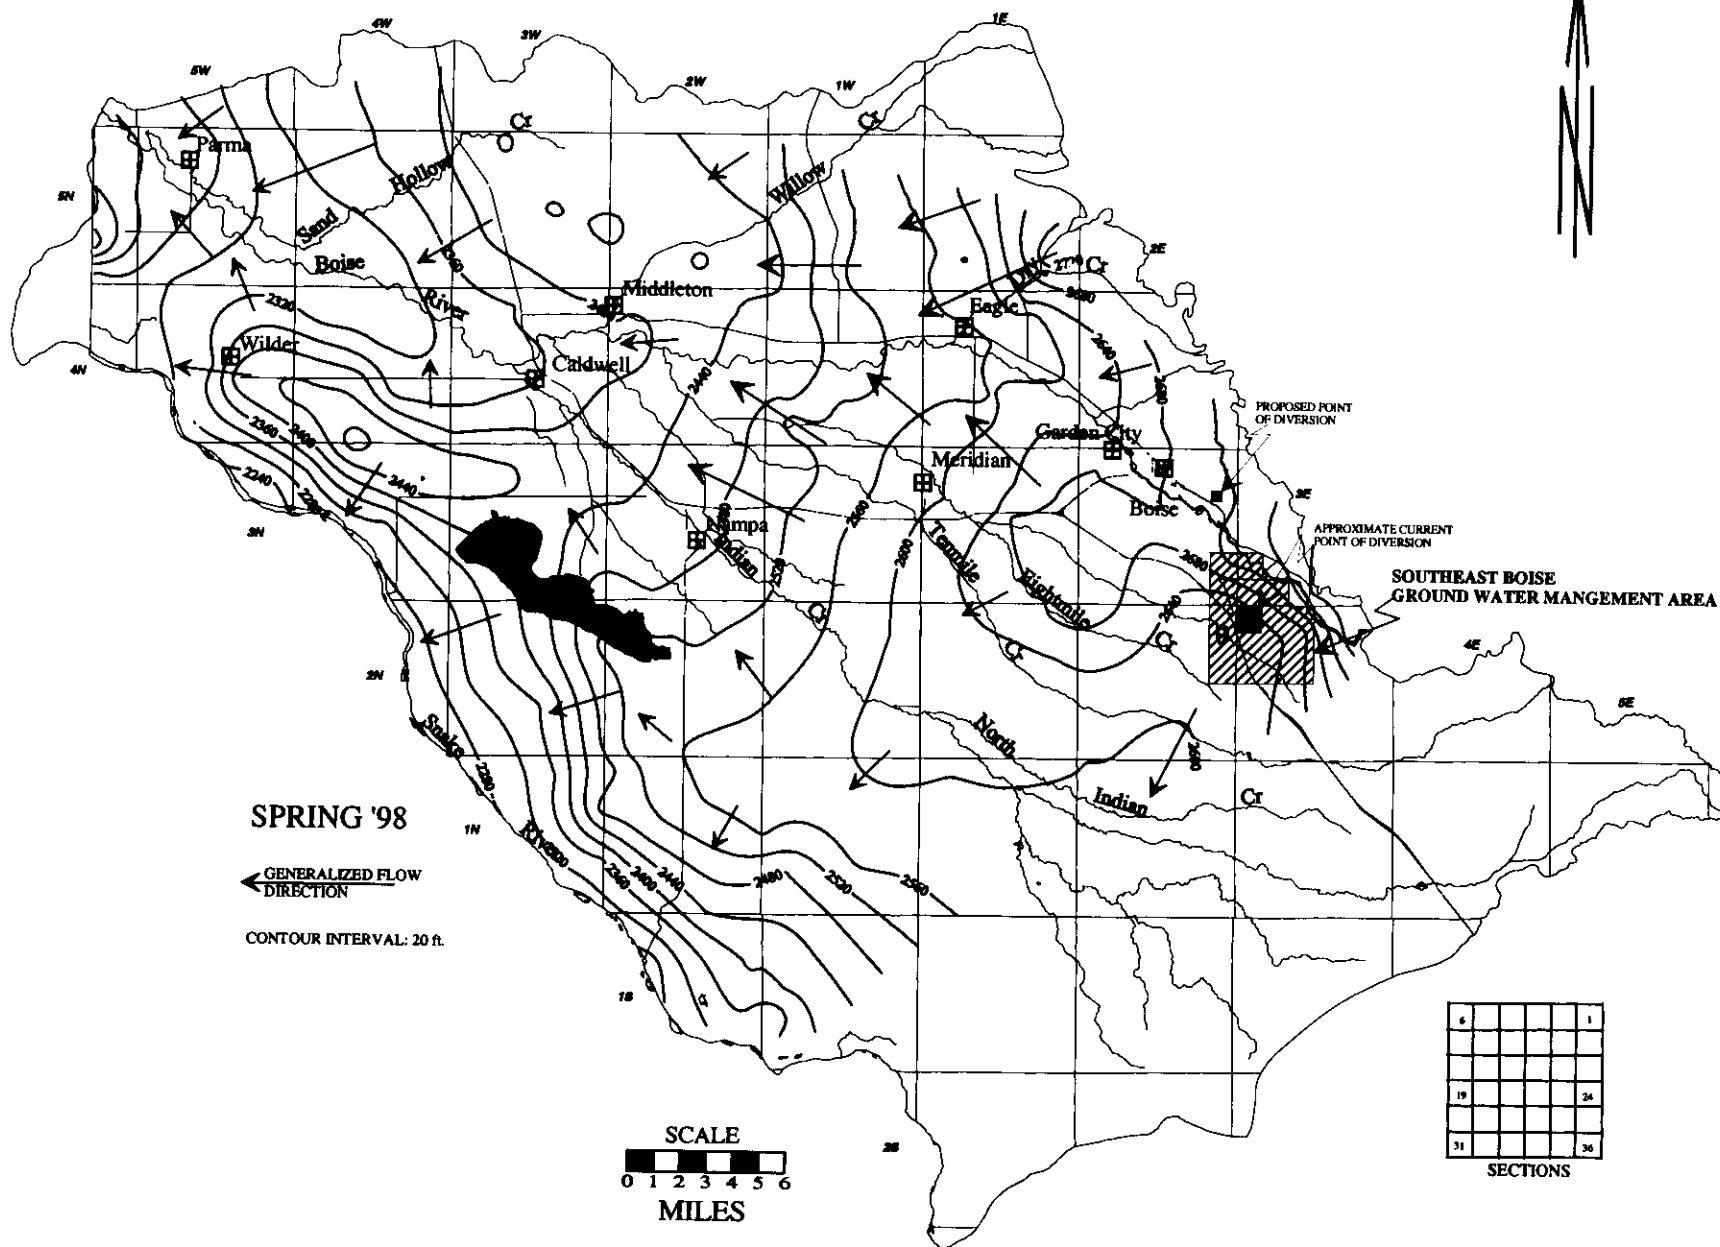

The attached figure also presents ground water contours and flow directions based on the TVHP Spring 1998 mass measurement. At the current point of diversion ground flow is southwest and considered tributary to the Snake River. At the proposed point of diversion ground water flow is west and considered tributary to the Boise River.

In closing, ground water in Southeast Boise GWMA is considered not hydraulically connected to surface and ground water to the north. This argument has been used to explain the declines.

cc Norm Young

TREASURE VALLEY

GROUND WATER ELEVATIONS

Saxton, Glen

From: Saxton, Glen *ms*
Sent: Tuesday, January 29, 2002 1:37 PM
To: Bendixsen, Shane
Cc: Sutter, Bob; Young, Norm
Subject: HYDRAULIC CONNECTION

Shane,

I have received an application to rent part of a ground water right from the water supply bank. The specifics of the proposed rental are described below:

Right in the bank available to rent:

- Right No.	-	63-08006
- Source	-	Ground water
- Div rate	-	0.82 cfs / 157 AFA
- P.D. Location	-	Near Section 6, T2N, R3E, B.M.
- Term in bank	-	December 31, 2002

Application to rent water:

- Applicant	-	Richard Pavelek
- Source	-	Groundwater
- Div rate	-	0.22 cfs
- Volume	-	5 acre feet
- Use	-	Drip irrigation system on 5 acres (trees and shrubs, I think)
- P.D. Location	-	SESE Section 12, T3N, R2E, B.M.
- Note	-	Applicant wants to rent a part of 63-08006

Since the existing water right has been diverted in the Columbia Village area on the south side of the Boise River and since the proposed point of diversion is on the north side of the Boise River, I request a brief review of the hydraulic connection between the wells. If other information is needed to make the review, please advise me and I'll seek the information. A brief, one-page or less memo of your findings is sufficient for my purposes. Thank you. lgs

RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK - 63-8006

Dear Mr. Philbrook:

The department has reviewed your letter dated June 15, 2001 and Application to Rent Water From the Water Supply Bank for use in Centennial Park this year.

Enclosed is a Water Supply Bank Rental Agreement for your review and signature. Upon your signature of the agreement and return of the agreement to the department, together with the rental fee in the amount of **\$92.70**, the department will sign the agreement and will return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorizes the diversion and use of water as provided in the agreement.

The fee was calculated at \$6.18 per acre foot of water for 15 acre feet. The fee should be made payable to the Idaho Department of Water Resources.

Please return the signed agreement to my attention so I can expedite the processing of it. If you have questions, please feel free to contact me.

Sincerely,

Before the Idaho Water Resource Board

WATER SUPPLY BANK RENTAL AGREEMENT

The Idaho Water Resource Board ("Board") being authorized to operate a Water Supply Bank ("bank") and to contract by and through the Director of the Idaho Department of Water Resources ("Director") for rental of water from the bank agrees to rent water as follows:

1. Renter: Boise Parks and Recreation Department
2. Address: 1104 Royal Blvd, Boise, ID 83706, Attn: Paul Philbrook
3. Source of water: Groundwater
4. Volume of water rented: 15 AF Max rate: 0.25 cfs
5. Diversion period: 2001 irrigation season
6. Use of water: Irrigation
7. a) Renter's point of diversion:

Legal description: SWNE Section 25, T3N, R2E, B.M., Ada County

- b) Renter's place of use:

Legal description: 5 acres in SWNE Section 25, T3N, R2E, B.M., Ada County

Total number of acres to be irrigated: 5

8. The right from which water will be rented is 63-08006.

The undersigned renter agrees to pay \$ 92.70 to the Board for rental of the above described water and agrees to use the water in compliance with the Water Supply Bank rules and in compliance with the conditions of water use shown below:

Conditions of water use under this agreement:

1. The use of water under this agreement shall be subject to the provisions of Section 42-1766, Idaho Code.
2. Upon Department request, the renter shall provide for the measurement of the water diverted in a manner acceptable to the Director and shall report the amount of water diverted at the end of the irrigation season.

3. Use of water under this agreement does not constitute a dedication of the water to renter's land and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to the licensed points of diversion and place of use and/or again be available to rent from the bank.
4. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
5. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
6. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
7. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
8. If water is to be used for irrigation, the rate of diversion when combined with all other water rights for the same land shall not exceed 4.5 AFA for each acre of land.
9. This rental agreement does not authorize the construction of a well.

Dated this _____ day of _____, 2001.

by _____
for _____

Having determined that this agreement satisfies the provisions of Section 42-1763, Idaho Code, and, IDAPA 37.02.03030 (Water Supply Bank Rule 30), for the rental and use of water under the terms and conditions herein provided, and none other, I hereby execute this Rental Agreement on behalf of the Idaho Water Resource Board this ____ day of _____, 2001.

Subject: Water Bank Rental request for Centennial Park #63-11816

Dear Mr. Saxton:

The attached request is very important and I would appreciate your taking it into consideration. Centennial Park is within the South East Boise Ground Water Management Area. When the water right for the well was approved by IDWR in 1992, it stipulated that "the volume of water annually pumped from the well shall be intentionally recharged into the ground water system from the surface water right". This year is presenting several challenges with the amount of surface water being greatly reduced and our department having to step in to help the neighborhood irrigation association resolve a plugging problem.

These situations have dictated the use of the well more than expected and use could increase for the rest of the summer if another source of surface water is not found. To comply with the condition on the permit and to insure the turf stays green and the trees don't die Boise Parks & Recreation has located another business to sell us ground water rights. BPR would like to utilize these ground water rights by renting them through the water supply bank.

I would appreciate it if you could act on this request as soon as possible to insure the park stays green and that we can recharge as much water into the aquifer as possible. The approval of this application would be a win win for your department and ours.

If for some reason you need to contact me, please don't hesitate to call me at 384-4060 ex 325. Thank you for your cooperation in this matter of mutual concern.

Sincerely,

Paul Philbrook
Property Administrator
Boise Parks & Recreation

Subject: RE: 63-31133 Arena Valley Vineyards LLC

Terry:

I received the water bank application for the well in question this morning. It involves right **63-8006**. Simplot filed a change in ownership for this right last week. Western Region adjudication staff is processing the ownership change.

The water bank application will be forwarded to Glen Saxton as soon as possible. Glen handles these matters. Your best bet is to contact Glen after he gets a chance to review the application.

Steve

Thanks Steve. Hope you had an enjoyable time in Yellowstone.

On another subject, Vic Conrad contacted me regarding the Centennial Park water right situation that you mentioned at the Southeast Boise Ground Water Management Area meeting a couple weeks ago. He said that he is putting a portion of the KOA (Granger?) water right in the bank, and that the Park could rent it to avoid their "lack of surface water for recharge problem". He indicated that he was sending the water bank lease agreement to your office. For Boise Parks to attempt to rent the water, should I go through your office or work directly with Glenn Saxton?

Cc: Peppersack, Jeff
Subject: RE: Centennial ditch water

Paul:

I reviewed Permit No. 63-11816 for the Centennial Park well and understand your dilemma. Apparently the park will have a greatly reduced surface water supply this year. The well use was not considered exempt from the SE Boise Ground Water Management Area but was approved based on mitigation via ditch water. Condition of Approval #12 states:

"The volume of water annually pumped from the well shall be intentionally recharged into the ground water system from the surface water right."

Furthermore, condition #7 states that "failure to comply with any condition of approval is cause for the Director to cancel this right."

It is clear that approval of the irrigation well limits annual ground water volume to the amount of water available from the surface water supply. Failure to comply with this limitation would jeopardize the water right. Should you seek a waiver from condition #12, my recommendation to IDWR administration would be to run the proposal through the management area advisory committee first. I do not see how we could approve such a waiver but one never knows.

Is it possible to get more shares delivered to the park by the current delivery organization to tide you over this year? If so, that could probably be viewed as an acceptable detail not subject to IDWR review.

Another option is the "drought emergency" route. If Ada County is declared a drought emergency by the IDWR Director, I. C. Section 42-222A ("Temporary Changes") could allow an expedited transfer of other surface water (from another delivery organization) to the park. This could provide the "missing mitigation water" to allow additional ground water to be used within the limits of Permit 63-11816. Maybe an irrigation organization could spare some water for a few months this year to help you out.

Request for a drought emergency declaration should come from the County Commissioners to the Director &/or to the Governor. In this part of Idaho, Canyon & Elmore Counties have been declared as drought emergencies so far. Last Friday we approved the first temporary transfer of surface water from one land to another under these emergency conditions. It only took a few days to complete the temporary change process (legal notice and detailed analysis generally not required). I do not know if Ada County Commissioners have been approached by water users regarding this process. This option might be your best bet.

I wish things were simpler but that is not the case. I will be glad to visit with you about the situation if you need more information.

Good luck.

Steve Lester, IDWR Western Region

Subject: Centennial ditch water

Paul,
Mark Holt has been working on getting surface water going at Centennial park. On Friday Mark spoke with the association representative, according to the rep. they don't know when the water will be on. Apparently there is problems with the ditch leaking near the church, and they are working on repairs. Mark was also told that allotments have been reduced from the normal 3.5 acre ft. to 1 acre ft. As of now we are irrigating off of the well.

Two questions;

Can we confirm the reduction in water allotment?

Can we continue to use the well if ditch is off? I am not sure if we have ever been able to catch up with recharging water into the ground, if the allotment is reduced as indicated we for sure won't be able to recharge the amount taken from the well this year.

**RE: APPLICATION TO LEASE PART OF WATER RIGHT NO. 63-08006 TO THE
WATER SUPPLY BANK**

Dear Mr. Conrad:

The department has reviewed the above referenced application that you submitted to the department on May 25, 2001. Please consider that the part of the water right offered for lease has been accepted into the Water Supply Bank ("bank"). The actual amount of the volume available to rent for uses which are consumptive will need to be determined when an application to rent the water is received.

Several items to keep in mind in connection with the lease are as follows:

1. There is no rental payment to you if the right or part thereof is not rented from the bank.
2. While a right is in the bank, the owner of the right may not use the right even if the right is not rented.
3. A right accepted into the bank stays in the bank until the Board releases it or until the lease term expires.
4. While a water right is in the bank, forfeiture provisions are stayed.

If you have questions, please feel free to contact me.

Sincerely,

L. GLEN SAXTON, Chief
Water Allocation Bureau

MEMORANDUM

TO: Glen Saxton

FROM: Steve Lester 

DATE: May 30, 2001

RE : *Water Bank Application for Right No. 63-8006*

Attached is the water bank application filed by J. R. Simplot Co. (Simplot) for this right. Copies of pertinent email messages are also attached. Apparently Simplot hopes to help Centennial Park (Park) get through this tough water year via the water bank approach. Right No. 63-8006 serves the KOA Campground near Federal Way. The campground and Park are in the SE Boise GWMA.

The Park uses Right No. 63-11816, which was approved based on surface water mitigation within the SE Boise GWMA scenario. The Park right was overlooked in recent years for annual measurement reporting in the GWMA but recently was added to the list of reporting rights. The Park reported 14 af diverted from its well in 2000.

No annual reports for 63-8006 have been received until last week. The former owners (Grangers) never responded to repeated attempts to contact them. Around 1999, Vic Conrad told me that Simplot bought the Granger right. I have been trying to get Simplot to file a change in ownership plus annual measurement reports during the last two years.

Last week Simplot filed a change in ownership plus a 2000 report for 63-8006. About 17 af were diverted under this right last year. Denise Buffington at Western Region is processing the ownership change if you need copies of that information.

At this point, the owners of both rights are adequately complying with the GWMA requirements. Please let me know if I can provide any other information about this situation.

Total number of acres to be irrigated 5.0

C. ADDITIONAL INFORMATION ABOUT RIGHT, OR PORTION THEREOF, OR SALE OR LEASE

1. Explain how the seller/lessor acquired the right, or portion thereof, and attach a copy of the deed to the land to which it is appurtenant or other evidence of ownership of the right.

The water right was appurtenant to land acquired pursuant to the Warranty Deed
recorded in the official real property records of Ada County on September 27, 1996
as instrument no. 96080772 (copy attached).

2. Describe the frequency of water use under the right, or portion thereof, during the past 5 years. Attach water-master records, pumping power bills, or other evidence to demonstrate that the right has not been lost through abandonment or forfeiture:

Water has been used continuously since the right was acquired. However, the land
formerly included within the campground is no longer irrigated and the number of
homesites relying on this well for domestic use is substantially reduced.

3. Describe the relative availability of water to fill the right, or portion thereof. Attach evidence to support the availability:

Water has been available to fill this right since the right was acquired.

4. Describe any other water rights with the same purpose and place of use as the right, or portion thereof. Will the present place of use continue to receive water from any source? If so, describe.

No other water rights with the same purpose's of use identify the same place of use.

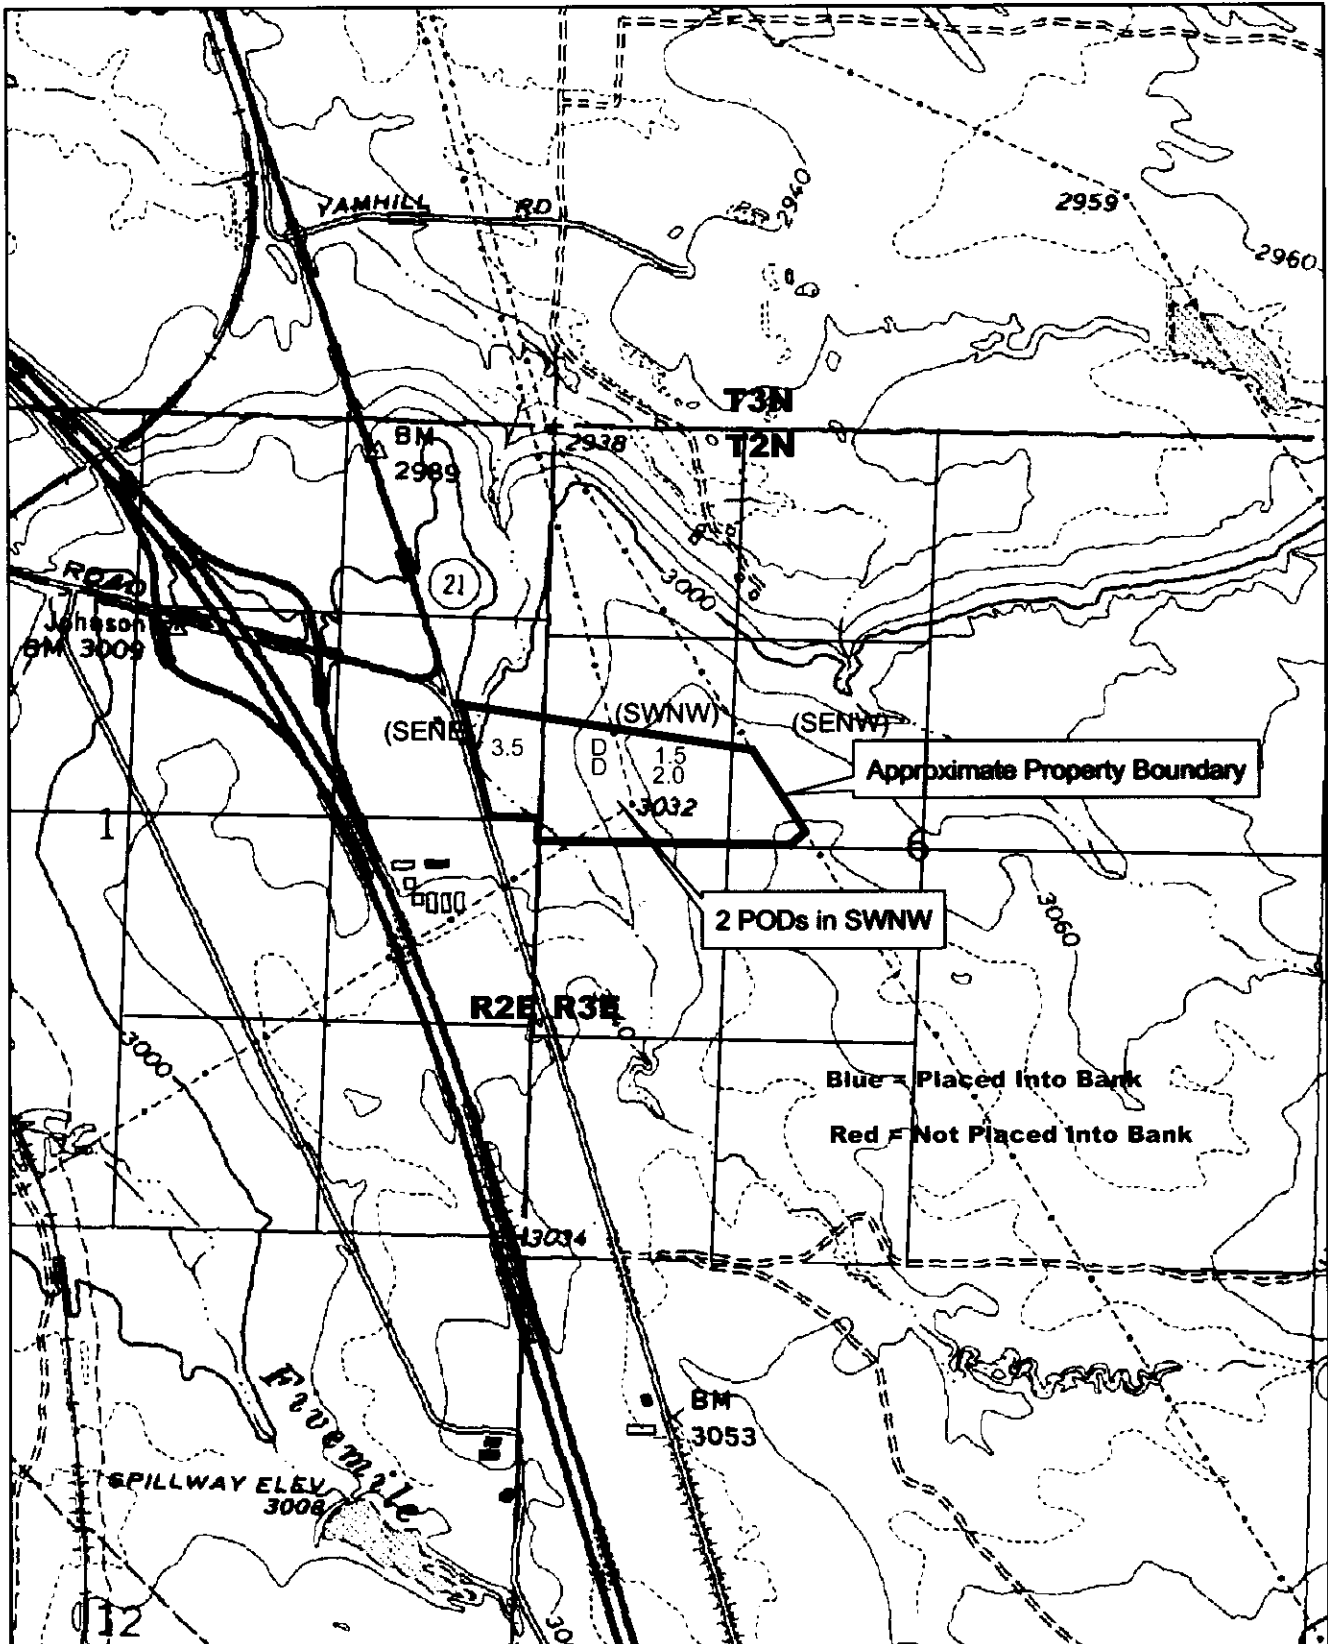

5. If the water right is a permit, describe the work accomplished toward developing the right.

6. If the right to the use of the water or the use of the diversion works or irrigation system is represented by shares of stock in a company or corporation, or if such works or system is owned or managed by an irrigation district, a written consent of the sale or lease must be attached.

7. If the right is included in an ongoing adjudication, a copy of the claim must be provided with this application.

D. SALE/LEASE AGREEMENT

- 1. The water right, or portion thereof, described above is offered to the Idaho Water Resource Board:**

 For sale
 X For lease for period from 2001 to 2003
 (year) (year)
 As a gift to the State of Idaho.

2. The minimum payment acceptable to the Seller/Lessor is: (Include the method of determining the minimum payment)

\$5.62 per acre foot rented(This can be an estimate by the Lessee of the volume needed).

This is comparable to the amount a contract spaceholder would receive by placing water into the Water District 63 rental pool.

3. Payment contingent on subsequent sale or leasing of this right, or portion thereof, is:

 X Acceptable Not Acceptable

I hereby assert that the information contained in this application is true to the best of my knowledge, and that I have the authorities necessary to offer the sale or lease of this right to the Idaho Water Resource Board.

Re: Water Right No. 63-08006

Dear Vic:

This letter concerns the above referenced water right license in the Southeast Boise Ground Water Management Area (GWMA). I sent you a letter on March 22, 2000, about this right. The previous letter stated that the Simplot Company should complete the 1999 GWMA measurement reporting task in addition to filing a change in ownership for the water right. A reply has not been received yet.

A \$25 fee for recording ownership changes takes effect on July 1, 2000. You can save some money by submitting the ownership change before that date. I suggest that the water right and adjudication numbers be listed on the change in ownership form to allow the department to update both records.

The 1999 measurement report for the GWMA is still due. A report and its \$25 fee should be submitted. The report can explain why data is not available for 1999 if that is the case. If that is the case, please explain the steps that the Simplot Company will take to ensure that use of this well will comply with the GWMA requirements.

Please send your reply to me at your earliest convenience. Thank you for your attention to these matters.

Sincerely,

Steve Lester
Water Rights Supervisor

Re: *1999 Water Measurement Reports and Ownership Changes* Department of Water Resources

Dear Interested Party:

I am pleased to say that most of the 1999 measurement reports and related details were received for wells in the Southeast Boise Ground Water Management Area (GWMA). Reports for several wells are incomplete at this time. Please review the following information and respond in writing. Note that 1999 measurement reports were due by March 1, 2000. Additionally, ownership changes to water rights and associated records are the responsibility of new owners within 120 days of purchases of property (*I. C. § 42-248*).

Water Right No. 63-03416 and associated Snake River Basin Adjudication (SRBA) Claim No. A63-03416 are recorded in the name of Security Industries (water right) and Trus Joist Corp. (claim). The 1999 measurement report was received on 3-8-2000 without the \$25 filing fee. I recently had a conversation with the new owner about the required fee and ownership change that should be filed. These two items have not been completed yet.

Water Right no. 63-08006 and SRBA Claim No. A63-08006 are recorded in the name of Granger. I understand that the Simplot Company bought the property associated with these records. Recently I had some telephone and email exchanges with a Simplot representative regarding this well. A 1999 measurement report and change in ownership have not been filed to date. A report and \$25 fee should be filed, and the report might include an explanation of why data are not available and what steps the new owner will take to correct that scenario if that is the case. The ownership change should also be documented.

Water Right Nos. 63-08992 and 63-09029 and SRBA Claim Nos. A63-08992 and A63-09029 are recorded in the name of Boise Water Corp./United Water Idaho. These records concern the "Oregon Trail" and "Gowen" wells. Micron Technology Inc. filed the 1999 measurement reports for these wells, and it is my understanding that Micron purchased these rights and claims. The new owner must file a change in ownership for these records.

MICROFILMED

APR 18 2000

March 22, 2000

Page 2 of 2

The well owners must file properly completed measurement reports, including fees. New owners must also file documentation of ownership changes for water rights and SRBA claims. Both of these actions are required by Idaho law and associated Orders issued in recent years by the Idaho Department of Water Resources Director. Well owners can provide valuable and greatly appreciated contributions to the management of the GWMA by taking care of these administrative details.

Enclosed are "change in ownership" forms for your use. It is advisable to list the water right *and* SRBA claim numbers on the form instead of just one or the other. No payment is needed to complete the ownership change step. To fully protect the use and status of these water rights and to avoid more cumbersome regulatory actions required of IDWR in such circumstances, please direct your written response to me within fifteen (15) days of the date of this letter. I will be glad to help you in any way that I can in these matters. Thank you for your efforts in these detailed but important items.

Sincerely,

Steve Lester
Water Rights Supervisor

Dear Mr. Granger,

RE: Permit No. 63-8006

Enclosed is a copy of the Water Right License issued on the above referenced Permit.

Please be advised that one of the conditions of your permit was that a measuring device be installed as part of your diversion works. That requirement has been waived with issuance of the enclosed license. However, in the event that water supply shortages become a problem installation of measuring devices may be required.

Sincerely,

Jim Johnson

Dear Mr. Granger,

A representative of this Department has made an examination of the works covered by your Permit No. 63-8006, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: .82 cfs Source: groundwater

The maximum quantity diverted shall not exceed 231.6 acre feet per year.

Point(s) of diversion: (2 pts.) SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 6, Twp. 2N, Rge. 3E, B.M.

Beneficial use: Irrigation of 20 acres and domestic and fire protection use
within the SW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 6, Twp. 2N, Rge. 3E; 4 acres within
the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 1, Twp. 2N, Rge. 2E.

Priority date established: July 15, 1974

Conditions (if any): Domestic is KOA Campground with 79 permanent units &
169 overnight units.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

Dear Mr. Briggs:

One of the conditions of approval of your water Permit No. 63-8006 was that evidence of the extent of development must be submitted to this office on or before August 1, 1979. (See last page of your approved permit). Enclosed is a post card which may be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use post card or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect within 60 days.

Sincerely,

RITA FLECK
Sr. Secretary

OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 63-8006

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

63-8009 - Charles R. &/or Billie D. Mellen
63-8010 - Charles Pickens
63-8011 - K - T Inc.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Sincerely,

Bill submitted
8-9-74

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that HARRY L. GRANGER
West 12th Street, Emmett, Idaho
has on July 15, 1974 submitted Application No. 63-8006
for a permit to appropriate 3.0 cubic feet per second ~~and one foot~~
~~per second~~ of water from a groundwater source
by means of 2 wells and pipeline
within the SW 1/4, Sec. 6, T. 2 N, R. 3 E, B.M., Ada County

to be used from Jan. 1 to Dec. 31 for domestic and fire protection use
~~for~~ and May 15 to Nov. 15 for irrigation of 34 acres

within the SE 1/4, Sec. 1, T. 2 N, R. 2 E, SW 1/4, Sec. 6, T. 2 N, R. 3 E, B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707, on or before Aug. 12, 1974.
