ORDER ADVANCING
DATE OF PRIORITY

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 63-8004 for the issuance of a license, the Department makes the following Findings of Fact, Conclusions of Law, and Order pursuant to the provisions of Idaho Code.

FINDINGS OF FACT

1. On April 7, 1976 the Department approved Application for Permit No. 63-8004 to appropriate the public waters of the State of Idaho with a priority of June 28, 1974.

2. On May 12, 1986 the Department sent the permit holder a notice that a license examination fee was required before an examination could be conducted to confirm the extent of use developed under the permit.

3. The fee was due on July 11, 1986, 60 days from the date of the notice; however, the fee was not received until July 14, 1986, 3 days late.

CONCLUSIONS OF LAW

1. The Director may advance the priority date of the permit one day for each day the fee was late, pursuant to the provisions of Section 42-217, Idaho Code.

MAR 10 1988

2. The date of priority of Permit No. 63-8004 should be advanced 3 days.

ORDER

IT IS HEREBY ORDERED that the date of priority of Permit No. 63-8004 is advanced to July 1, 1974.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF:	)	
Application for Permit No. 63-8004	)	MEMORANDUM DECISION
in the name of IRENE F. DOHERTY	)	AND ORDER
_____	)	

On June 28, 1974, Irene F. Doherty of Boise, Idaho, filed with the Department of Water Resources an application for permit to appropriate 0.20 cubic feet of water per second from Strawberry Creek, tributary to Smith Creek thence South Fork of the Boise River, from a point within the SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 1, Twp. 2 N, Rge. 7 E, B.M., Elmore County, for the irrigation of 10 acres of land.

Notice of the application was published in the Mountain Home News, Mountain Home, Idaho, on July 18 and 25, 1974. On July 22 and 23, 1974, protests against approval of the application was received from Erl D. Simpson and John L. Garrett respectively.

A conference was held on October 22, 1974, to consider the protests against the application. The applicant and both protestants were present and represented themselves. The issue raised at the conference was whether water is available for this appropriation without injuring prior existing water rights. After a discussion of the proposed project, all parties agreed to allow the Director of the Department of Water Resources to reach a decision based upon the information obtained at the conference and from a field examination of Strawberry Creek.

Upon a review of the evidence and information gathered, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law, and Order.

FINDINGS OF FACT

- 1) The protestant, John L. Garrett, claims a right established by the diversion and beneficial use of water as evidenced by Claim to a Water Right No. 63-4153.
- 2) The protestant, Erl D. Simpson, is the holder of Permit No. 63-7907 for the diversion of 0.90 cubic feet of water per second from Strawberry Creek.
- 3) The proposed point of diversion is upstream from the protestants.

4) A field examination of Strawberry Creek made by Department personnel on July 11, 1975, shows essentially no loss in the reach of Strawberry Creek between the applicant's proposed point of diversion and that of the protestants.

5) The protestants agreed that water generally would be available for the proposed use until June 15 and possibly until July 15 in some years.

CONCLUSIONS OF LAW

1) There is water available a sufficient amount of the time without causing injury to existing rights.

2) If the water is regulated properly, the use of water will not interfere with downstream prior rights.

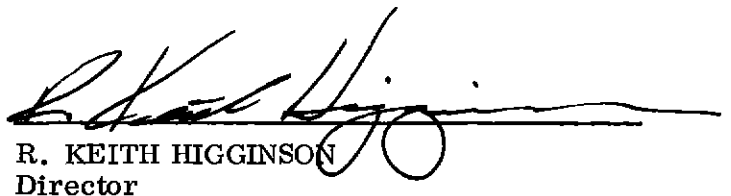

ORDER

IT IS, THEREFORE, ORDERED and Application for Permit No. 63-8004 is hereby APPROVED subject to the following limitations and conditions:

- 1) That said permit shall be subject to all prior water rights.
- 2) That proof of construction of works and application of water to beneficial use shall be submitted to the Department on or before April 1, 1981.
- 3) That a suitable headgate and measuring device of a type approved by the Director of the Department of Water Resources shall be permanently installed and maintained as part of the diverting works.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination, but you may change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

MICROFILMED

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF THE ABOVE REFERENCED WATER PERMIT WAS THAT PROOF OF THE EXTENT OF YOUR BENEFICIAL USE MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE APRIL 1, 1986. (SEE LAST PAGE OF YOUR APPROVED PERMIT OR YOUR LAST APPROVED EXTENSION REQUEST.) ENCLOSED IS A FORM WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU OR A PREVIOUS OWNER OF THIS PERMIT HAVE NOT RECEIVED A PRIOR EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME IF THE DELAY IS FOR REASONABLE CAUSE AS PROVIDED IN SECTION 42-204, IDAHO CODE. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION WHICH MIGHT BRING TITLE TO THE WATER IN QUESTION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED. AN EXTENSION OF TIME REQUEST FORM IS ENCLOSED FOR YOUR CONVENIENCE.

EITHER A COMPLETED PROOF OF BENEFICIAL USE FORM OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE DESCRIBED PROOF DUE DATE. IF NEITHER IS RECEIVED, THE DEPARTMENT WILL SEND YOU A LAPSE NOTICE. WITHIN SIXTY (60) DAYS OF THE MAILING OF THE LAPSE NOTICE, THE PERMIT WILL NO LONGER BE OF ANY FORCE NOR EFFECT.

Claim No. 638004

Dear Mr. Tuthill;

At the time we applied for our water rights, we knew little or nothing about measuring devices. I remember my father used a weir when I was a child.

Because of the steep terrain and the small amount of water involved (10") a measuring device would be of no value.

At your earliest convenience, please consider the request to remove the measuring device clause from our water rights.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

In the Matter of Protests Against Approval)	
of Application for Permit No. 63-8004)	NOTICE OF CONFERENCE
in the name of IRENE F. DOHERTY)	AND/OR HEARING
_____)	

On June 28, 1974, Irene F. Doherty filed with the Department of Water Resources an application to appropriate the public waters of the State of Idaho. On July 19, 1974, the Department received a protest against approval of said application from Erl D. Simpson and on July 23, 1974, from John L. Garrett.

The Department has set the matter of protests for conference and/or hearing for Tuesday, October 22, 1974, at 3:30 p.m., in Room 426 of the State Capitol Building, Boise, Idaho. Any hearing will be held in accordance with the Rules and Regulations of the Idaho Code and adopted Rules of Practice and Procedure of the Department of Water Resources. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department without prejudice to dismiss the protests of the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 10th day of October, 19 74.

Re: Application for Permit No. 63-8004

Dear Ms. Doherty:

We have enclosed a copy of two protests filed against the issuance of a permit pursuant to your Application No. 63-8004. You should be aware that the following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

The department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water for each acre of land, or an annual amount of 5 acre feet for each acre of land unless the applicant can show that more is required. (Section 42-202, Idaho Code)

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the department, although you may desire to employ an attorney in your behalf.

If we may be of any assistance, please contact us.

Sincerely,

KENNETH H. FOIT, P. E.
Western District Engineer

Re: Application for Permit No. 63-8004 - Irene F. Moherty

Dear Mr. Garrett:

This is to acknowledge receipt of your protest to issuance of a permit pursuant to the above referenced application. The following are the principle items we can consider at a conference and/or hearing in either approving or denying an application for permit (Section 42-203, Idaho Code):

- P
1. Will the proposed use reduce the quantity of water under existing water rights?
 2. Is the proposed water supply insufficient for the purposes intended?
 3. Is the application made in good faith or for delay or speculative purposes?
 4. Has the applicant sufficient financial resources with which to complete the project?
- Y

The department may reject an application and refuse issuance of a permit, partially approve the permit, approve the permit for a quantity of water less than applied for, or approve the permit subject to special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish a right-of-way over private or governmental lands. Any right-of-way or easement must be obtained by the individuals concerned through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for conference and/or hearing to discuss the matters of protest. If we may be of further assistance, please contact us.

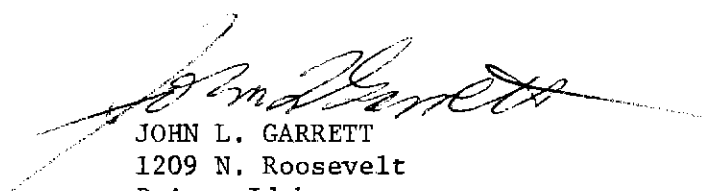

Sincerely,

Dear Mr. Higginson:

I am writing to protest the application of Irene F. Doherty, 3124 Winsome Road, Boise, Idaho, who filed an application for water permit #63-8004 to appropriate .20 cubic feet per second of water from Strawberry Creek, tributary to Smith Creek in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 1, T. 2 N. R. 7 E.

The above permit will interfere with my application for water permit of December 31, 1973 #63-7907. I doubt if there would be sufficient water for Irene Doherty after my appropriation of .90 cubic feet per second has been used.

Sincerely,

Erl D. Simpson

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."
