Dear Mr. and Mrs. Engle:

One of the conditions of approval of your water Permit No. 63-7212 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

RE: Permit Nos. 63-8992, 65-7912, 63-8986, and 63-8987

63-8992: This department will have to review and approve the well design before construction is begun. A letter to this effect is being prepared and is being send to Mr. Baker.

65-7912: We had been led to believe that this water supply had been permitted a long time back. The system design had been approved based on the flows given by the permit.

63-8986 and 63-8987: We are aware of these changes in Caldwell and have no comment to make on them.
