Dear Wateruser:

The enclosed Order removes the measuring device requirement as a condition of approval from your permit.

If you have installed the measuring device, the field examination can be more expediently conducted by the Department's field examiner as well as you will derive benefit from water management information which may be obtained from the installed meter.

If you have questions regarding this matter, please contact this office or our regional offices.

Sincerely,

Dear Mr. and Mrs. Engle:

One of the conditions of approval of your water Permit No. 63-7911 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1979. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.
