NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that LLOYD D. and-or JOAN NOE, Rt. 1, Melba, ID, has on Nov. 13, 1973 submitted Application No. 63-7897 for a permit to appropriate 2.94 cubic feet per second of water from a groundwater source by means of well, pumps, ditches and pipelines within the NE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 30, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19, SW $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 19, T. 1 N., R. 1 W., B.M., Ada County to be used from April 1 to Oct. 31 for irrigation of 338 acres within the SW $\frac{1}{4}$, SE $\frac{1}{4}$, Sec. 19, N $\frac{1}{2}$ NE $\frac{1}{4}$, Sec. 30, T. 1 N., R. 1 W., B.M.

If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707, on or before Dec. 10, 1973.

WATER RIGHT LICENSE

WATER RIGHT NO. 63-07897

Priority: November 13, 1973 Maximum Diversion Rate: 1.16 CFS
Maximum Diversion Volume:¹

This is to certify, that LLOYD D. NOE
JOAN NOE

RT. 1

MELBA, ID 83641

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated November 13, 1973; and has submitted Proof of Beneficial Use on November 9, 1979. An examination indicates that the works have a diversion capacity of 4.980 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
-----------------------	----------------------	--------------------------	----------------------

IRRIGATION	04/01 to 10/31	1.16 CFS	
------------	----------------	----------	--

LOCATION OF POINT(S) OF DIVERSION: NENE , Sec. 30, Township 01N, Range 01W
ADA County

PLACE OF USE: IRRIGATION

<u>TWN</u>	<u>RGE</u>	<u>SEC</u>	<u>ACRES</u>	<u>ACRES</u>	<u>ACRES</u>	<u>TOTAL</u>
01N	01W	19	NESW 25	NWSW 4	SWSW 9	
			SESW 39	NESE 39	NWSE 39.7	
			SWSE 39	SESE 34.1		228.8
		30	NENE 34.4	NWNE 39		73.4

Total number of acres irrigated: 302.2

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 47-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with Right No. 63-3495 shall not irrigate more than 302.2 acres & shall not exceed 1359.9 af/yr. The rate of diversion & annual volume under this right shall be appurtenant to the place of use so that each

APPLICATION FOR EXTENSION OF TIME

State of Idaho)
County of Ada)

Permit No. 63-7897

Lloyd Noe of Route #1, Melba, Idaho 83641
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 63-7897.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before November 13, 19 78.

That he has heretofore performed the following work described under said permit:
The acreage described under permit 63-7897 has essentially been developed.
Buried irrigation mainlines and lateral systems have been constructed to dis-
tribute the water and a single well equipped with a vertical turbine pump
provides the water supply.

Costing \$ 100,000

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: At the present time, the vertical turbine pump on the
well requires maintenance and several leaks have developed in the distribution
system which will require some maintenance before the system can be brought back
into condition suitable for examination. Because of the irrigation requirements
of the land involved, the applicant will be unable to complete this maintenance
prior to the end of the irrigation season. It is for this reason that the one year
extension of time is requested prior to examination for proof of beneficial use. It
is anticipated that the system will be ready for licensing at the beginning of the 79 irrig.
season. Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to November 2, 19 79.

Lloyd Noe

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER ADMINISTRATION

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-7897, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 78.
- c. Other: A measuring device of a type approved by this department shall be permanently installed and maintained as part of the diverting works.

2. Denial of said application is for the following reasons:

Witness my hand this 13 day of December 19 73.

R. Kirk Hays
Director

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This permit is APPROVED

Date: 12/ 3/1992

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed or modified in compliance with the applicable statutes; specific conditions of approval shown on the water right permit, transfer, amendment, or injection well permit; and the rules and regulations of the Department for water appropriation, injection wells, and well construction.
2. This drilling permit is valid for two (2) months from approval date for the start of drilling.
3. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well. All wells must be drilled a minimum distance of 100 feet from a drain field. Domestic and Public Water Supply wells must be drilled a minimum distance of 50 feet and 100 feet respectively from a septic tank.
4. The well shall be constructed by a driller licensed in the State of Idaho.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
7. If a bottom hole temperature of 85 F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
8. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 63-7897

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 18th day of August, 1978.

MEMORANDUM

TO: FILE

FROM: JIM JOHNSON

RE: LICENSE OVERLAP REVIEW

DATE: 5-MAR-1989

IRRIGATION SYSTEM REVIEW

The well measured and in use at the time of the field exam is not the same well that was measured and in use when the examination was made for right 63-3495. Therefore the two measurements are not related.

Water from the well (N-2) measured under this permit is conveyed to the same sump box that was used under right 63-3495 but the well (N-1) under the right is no longer used.

A transfer application for right 63-3495 changed the point of diversion to well (N-2) currently in use.

Based upon statements made on the transfer application it can be assumed that all of the water diverted for irrigation of the lands identified under the two rights is being supplied by well N-2, even though the picture supplied with the field examination shows the original motor still in place at well N-1 site. For purposes of identifying system capacity the measurement (4.98cfs) made under this permit is the current capacity of the irrigation system.

PLACE OF USE OVERLAP REVIEW

Irrigation under this right is mostly the same acres irrigated under Rt. 63-3495. Only 34 acres presently irrigated are not covered by the existing right.

The diversion per acre is higher all the land shown under this permit because additional diversion capacity has been developed. Therefore all of the irrigated lands identified on the permit should be included on the license.

MICROFILMED

AUG 23 1989

RATE AMOUNT ON LICENSE 63-7897

The amount of additional water appropriated is the amount diverted greater than the amount already licensed.

Right No. 63-3495 was issued for 3.82cfs.

Amount measured by examiner is 4.98cfs.

The amount of water appropriated is 4.98cfs - 3.82cfs = 1.16cfs

VOLUME AMOUNT ON LICENSE 63-7897

The volume needed for irrigation of 302.2 acres is 4.5 af/ac
X 302.2 acres = 1,359.9 acre feet/annum.

The existing license already has authorized the volume required for irrigation of 280 acres which is 1,260 acre feet/annum.

The field examiner reported that some 40 acre tracts were not irrigating the same number of acres that were licensed under Rt. 63-3495. The overlap review determined that 12.3 acres of the 280 acres licensed were not irrigated. At present, there is no provision for adjusting the existing license to show that only 22.2 acres irrigated is new.

There are two options to record the additional volume needed for the new acres.

1. Subtract the volume on Rt. 63-3495 from the total volume required for irrigation of 302.2 acres and record the amount on the license. i.e. $1,359.9 - 1260.0 = 99.9$ acre feet

2. Use a condition on the license which, when the rights are combined, limits the volume diverted to a total of 1,359.9 acre feet/annum.

The disadvantage of using option 1. is that it uses the volume of the existing license which does not reflect presently irrigated acres.

Therefore, option 2. is recommended.

CONDITIONS OF LICENSE

In addition to the normal conditions of license the following should be included to reflect the relationship of the existing right.

This right when combined with Right 63-3495 shall not irrigate

MICROFILMED

AUG 23 1989

more than 302.2 acres and shall not exceed 1359.9 acre feet per year.

<<R38>> The rate of diversion and annual volume under this right shall be appurtenant to the place of use so that each irrigated acre will receive an equal portion of water when all rights appurtenant to the place of use from the same source are considered cumulatively.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee needed for the department to conduct the field examination. If you want to change to another certified examiner.

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

SEPTEMBER 30, 1979

DEAR PERMIT HOLDER:

ONE OF THE CONDITIONS OF APPROVAL OF YOUR WATER PERMIT NO. 63-7897 WAS THAT EVIDENCE OF THE EXTENT OF DEVELOPMENT MUST BE SUBMITTED TO THIS OFFICE ON OR BEFORE DECEMBER 01, 1979. (SEE LAST PAGE OF YOUR APPROVED PERMIT). ENCLOSED IS A POST CARD WHICH MAY BE USED TO SUBMIT THE REQUIRED PROOF OF BENEFICIAL USE.

IF YOU HAVE NOT FULLY COMPLETED YOUR PROJECT, AND YOU HAVE NOT PREVIOUSLY RECEIVED AN EXTENSION OF TIME, YOU MAY REQUEST AN EXTENSION OF TIME PROVIDED THE DELAY IS FOR REASONABLE CAUSE AS INDICATED IN SECTION 42-204, IDAHO CODE, AMENDED. IF YOU HAVE BEEN PREVENTED FROM PROCEEDING BY A GOVERNMENTAL AGENCY OR BY LITIGATION, MORE THAN ONE EXTENSION OF TIME CAN BE GRANTED.

EITHER THE BENEFICIAL USE POST CARD OR A REQUEST FOR AN EXTENSION OF TIME MUST BE RECEIVED BY THIS DEPARTMENT ON OR BEFORE THE ABOVE MENTIONED DATE, OTHERWISE, THE PERMIT WILL LAPSE AND BE OF NO FURTHER FORCE OR EFFECT WITHIN 60 DAYS.

SINCERELY,

RITA FLECK

Mr. Dave Shaw
Idaho Department of Water Resources
Western Division
92 South Cole Road
Boise, Idaho 83705

Dear Dave:

Enclosed you will find an examination for proof of beneficial use for Mr. Lloyd Noe of Melba, Idaho. The application #63-7897 was for the irrigation of 326 acres of land utilizing 2.94 cfs of irrigation water. There is an existing license for 280 of the acres under permit #63-3495 for an additional amount that brings the total water appurtenant to the land to one miners inch per acre. Measurement of the flow from the well was made with a Collins air-water manometer using standard methods and a copy of the flow measurement is included with this examination report.

If you have any questions or need additional information, please feel free to contact me at any time.

Sincerely yours,

Sherl L. Chapman
Consultant

Re: Permit No. 63-7897

Lloyd D. &/or Joan Noe
Route 1
Melba, ID 83641

Dear Mr. & Mrs. Noe:

One of the conditions of approval of your water Permit No. 63-7897 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise, the permit will lapse and be of no further force or effect.

Dear Wateruser:

The enclosed Order changes the measuring device condition of approval on your water right permit.

The changed condition should be less restrictive and provide more flexibility to you in the development of your water right system. The specifications related to the size and location of the access port will be available upon request from the Department, as soon as the Department's measuring equipment is obtained.

If you have questions regarding this matter, please contact this office or our regional offices.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

Mr. Bob Fleenor
DEPARTMENT OF WATER RESOURCES
Statehouse
Boise, Id. 83721

Dear Mr. Fleenor:

This letter is to formally request that my application for proof of beneficial use of permit 63-7897 be withdrawn. This application was inadvertently filed instead of the proper application for proof for permit 63-7407.

Thank you for your consideration of this matter.

Sincerely,

Lloyd Noe

Re: Permit No. 63-7897

Lloyd D. &/or Joan Noe
Route 1, Box 228
Melba, Idaho 83641

Dear Mr. & Mrs. Noe:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

We would like to remind you that proof is due under your Permit No. 63-7407 on or before April 1, 1976. This permit covers a domestic well in the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Sec. 19, Twp. 1 N, Rge. 1 W, B.M. Enclosed is an affidavit form for your consideration.

Sincerely,

D. Darlene Reich
Water Rights Supervisor

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder Lloyd D. and Joan Noe
b) Post Office Address Route 1, Box 228 Melba, ID
2. Permit Number ~~63-7407~~ 63-7897
3. Date of Priority that you are prepared to establish 11/13/73
4. a) Source from which water was appropriated ground water
b) Location of the point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$, Section 30
Township 1 North, Range 1 West Boise Meridian, Other points of diversion: None
5. a) The amount of water and use to which the water has been applied:
Amount 2.94 for irrigation purposes from April 1 to Nov. 15 incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
b) Total amount appropriated 2.94 c.f.s. cfs and/or acre-feet per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: badger meter
6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:
a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use:

b) Describe the agreement or understanding by which you take water from the works: _____

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (if from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) 200 HP pump & motor, buried mainline & sprinkler system

b) Describe the type and size of measuring device which you have installed at your point of diversion: 10" badger meter

c) Give well driller's name and address and the date the well was completed: Hiddleston Drilling - January 1974

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use: _____

3-17-76

9. Irrigation uses: describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision:

T	R	SEC.	NE¼				NW¼				SW¼				SE¼				TOTAL
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
1N	1W	19									35	10	15	40	40	40	40	40	260
1N	1W	30	38	40															78

Total number of acres irrigated 338

10. Remarks: 63-3495 has been licensed as being applicable to a portion of the same land. This application will bring the total quantity of water applied to the land to one c.f.s. per 50 acres of land.

The above information is a true statement of the extent to which the above numbered permit has been developed.

Re: Application for Permit No. 63-7897 - Lloyd D. &/or Joan Noe

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Sincerely,

Bill submitted 11-30-73 df

63 7897

NOTICE OF APPLICATION FOR WATER PERMIT

Notice is hereby given that ~~LLOYD D. &/or JOAN NOE, Rt. 1, Melba, ID~~

has on Nov. 13, 1973 submitted Application No. 63-7897
for a permit to appropriate 2.94 cubic feet per second ~~acre feet~~

~~per annum~~ of water from a groundwater source

by means of well, pumps, ditches & pipelines

within the NE 1/4, Sec. 30, NE 1/4, Sec. 19, SW 1/4, Sec. 19, T. 1 N., R.
R. 1 W., B.M., Ada County
