RE: PERMIT NO. 63-7846 - QUARTER CIRCLE DJ RANCH

Dear Sherl:

The department received your letter dated February 3, 1988, in connection with examination of the extent of beneficial use for the above referenced permit.

The department recognizes it is not usually practical to conduct a field examination for irrigation purposes outside the irrigation season. The department is willing to wait until June 1, 1988 before sending a lapse notice for failure to submit the proof of beneficial use by the proof due date. You must recognize, however, that the department can not change the provisions of the statutes which cause a day of priority to be lost for every day that the submittal of the proof is subsequent to the proof due date. As an example, if an acceptable proof is submitted on June 1, 1988, the submittal will cause the priority of this permit to be advanced approximately 3 months.

The significance of delaying the mailing of the lapse notice is that the permit does not automatically become of no force nor effect 60 days after the proof due date, but rather after the mailing of the lapse notice.

This response is consistent with a similar question you raised on an examination 6 months or so ago.

Please feel free to contact this office if you have questions.

Sincerely,

L. GLEN SAXTON
Chief, Operations Bureau

REFERENCE: Permit #63-7846

Dear Glen:

I've recently been authorized by Mr. Jim Warren of the Quarter Circle DJ Ranch to conduct the proof of beneficial use examination for permit 63-7846. According to the Department's letter, the proof is due by March 1, 1988, which is before the irrigation season. Since a significant portion of the permit is for irrigation purposes, I would like to ask that the Department allow us until June 1, 1988, to conduct the examination and submit the proof of beneficial use without loss of priority.

If you have any questions or need additional information, please don't hesitate to contact me.

Sincerely yours,

Sherl L. Chapman

PROOF DUE NOTICE

RE: Permit No. 63-7846

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before March 1, 1988. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a completed field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have not fully completed your project, and you or a previous owner of this permit have not received a prior extension of time, you may request an extension of time if the delay is for reasonable cause as provided in Section 42-204, Idaho Code. If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

Either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time must be received by this Department on or before the above described proof due date, or the permit will no longer be of any force nor effect.

Sincerely,

RITA FLECK
Secretary/Records Manager

Re: Permit No. 63-7846

Enclosed is a copy of the approved request for extension of time. The time within which to submit the statement of beneficial use postcard is extended to March 1, 1988.

The approval of the extension of time is based upon the past moratorium by Idaho Power Company against new power hookups. This department considers the moratorium for any permit with a point of diversion downstream from Swan Falls to have ceased on March 4, 1983, the date of a policy letter by which Idaho Power Company officially stated an intent to begin providing power to proposed installations downstream from Swan Falls.

Dear Sir:

During a recent visit to your well, located in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Section 17, Twp. 4 N.,
Rge. 1 E., B.M., it was noted that the well was flowing and was not equipped with
a control valve so the flow can be completely stopped, as required by State Statutes.
The well driller is required to accomplish this before he moves his drilling rig off
the site. I am sure you and the State share a common interest in the preservation
of these resources, consequently we would appreciate it if you would equip the well
at your earliest convenience so that it can be completely controlled to prevent waste
as provided under Idaho Code 42-237a and 42-1601-1605.

May we hear from you within ten days?

RE: Applications No. 63-7846 & 63-7847 - Quarter Circle DJ Ranch

Dear Mr. Foit:

We have received the above referenced applications for permits to appropriate the water and would comment as follows:

The applications were not clear as to the intended use of the water. They have mentioned that some of the water is to be used for domestic purposes, but we would suspicion that this is for their private use only, and that actually this is a request to use water for irrigation purposes; therefore, we would have no comment.
