RE: met with Mr. Ralph Lowe - Water Superintendent of Nyssa city to discuss ~~operation~~ operation of water system. There are 4 wells in Idaho & one well located near the city Hall in Nyssa Oregon. The water system is interlocked and the demand or use of each well is dependant on the water pressure of the system. a 3 million gallon holding tank is located in Idaho & a 100,000 gallon tank is located in Nyssa - both are at the same elevation & are interdependant on each other. The well in Oregon has a 16" casing with a 40 HP motor. The water from the 3 million gallon tank in Idaho is ~~conveyed~~ is diverted through a 16" cast iron pipeline suspended to the Snake River bridge.

5 wells within lot 1, Sec. 7, Twp 6N, Rge 5W serve the city of Nyssa. Water is pumped from wells into 3 million gallon storage tanks on Idaho side of river and 200,000 gal tanks in Nyssa. Well covered by this permit is pumped with 30hp GE pump serial # SK6238XH1B.

REMARKS:

The measurement had to be made with both two well wells in operation since they were interlocked and could not be operated separately. Since all five wells are essentially identical it was assumed each well produced 1/2 the flow measured.

Gentlemen:

One of the conditions of approval of the above referenced water right permit was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before

August 7, 1978. The enclosed affidavit form is the document you must complete and submit as the proof of application of water to beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 63-7830

Attention: Mr. Bobby D. Fleenor
Assistant Director

Dear Sir:

Regarding the well site covered by above permit number, I must advise you that we were not able to develop a satisfactory well at this site. We have one more site which has been explored on property owned by the City of Nyssa, north of the highway in lot 1, which lies between the existing Wells No. 2 and No. 3.

Please advise whether this is a matter of an entirely new application or whether the location of this site may be changed under Permit No. 63-7830.

Very truly yours,

Fred O. Koch

RE: Application for Permit No. 63-7830
City of Nyssa

Dear Mr. Foit:

We have received a copy of the above referenced application for a permit to appropriate the Public Waters of the State of Idaho.

Since Nyssa, Oregon does not come under the jurisdiction of our Department, we do not feel that comment on the public water supply and its sources is necessary. We would expect that their supply would have to meet minimum standards as established by the proper department within the Oregon State government.

It would seem, however, that the well since it is to be located in Idaho would have to meet your department's well construction standards.

Sincerely,

DEPARTMENT OF ENVIRONMENTAL
AND COMMUNITY SERVICES

Dear Mr. Ballou:

Re: W - Nyssa, Oregon Water System Well

Your letter dated July 18, 1973, to Mr. Koch requested assurances that the use of water obtained from a proposed well located east of Nyssa and in the State of Idaho would be beneficially used in the City of Nyssa municipal water system.

At the present time, the City of Nyssa needs additional quantities of water to meet the peak day demands in the summer. The use of ground water located just east of Nyssa is undoubtedly the most easily accessible and economically feasible answer to this problem. We would, therefore, heartily recommend the appropriation of these ground water supplies to meet the needs of this municipality.

We trust that this statement will be sufficient for your purposes.

Very truly yours,
