Dear Mr. Fleenor,

We request reinstatement of permit 63-7806.

Last fall we made considerable effort in constructing a small rock diversion with plastic pipe. Due to the low water table at that time of year, we had to wait until spring to find out if our effort was successful. In the heavy snow runoff, our rock diversion was destroyed. We are now in the process of building a more satisfactory diversion.

To date we have not been notified with a proof for permit 63-7807. The well was drilled last summer and verification should have been filed by the driller. Please let us know if you need more information.

Dear Mr. Blakeslee:

One of the conditions of approval of your water Permit No. 63-7807 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
