Dear Mr. Raptosh:

One of the conditions of approval of your water Permit No. 63-7741 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before June 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Raptash:

We are returning your check #92-277 along with the Application for Permit form for additional information.

On item #4, the quantity can be increased to .04 c.f.s. The quantity of water you have filed for under item #4 and #5 differ. Perhaps you would like to increase those figures to .04 and write the same figure in both spaces. Also, in item 9a and 9b, you are required to put the name of the person owning the land at the point of diversion and the owner of the land where the water will be used.

If you would please make these minor changes and return the form along with your check, we will begin processing your application.

Sincerely,
