DEAR CHARLIE:

I AM WRITING TO REQUEST THAT THE

ON PERMIT APPLICATIONS 63-7659 + 63-7660.
MY REASONS ARE THAT IT IS A NON-
CONSUMPTIVE USE ON EACH PERMIT APPLICATION.
ALSO IT IS INCONVENIENT TO MEASURE THAT
SMALL AMOUNT WITH MY SYSTEM.

I DO APPRECIATE YOUR HELP IN THIS
MATTER, WE WILL COOPERATE WITH YOU IN
EVERY WAY POSSIBLE.

Dear Mr. Washburn:

We acknowledge receipt of the affidavits submitted as proof of beneficial use for the aboverreferenced permits.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

We note that in reviewing these proof affidavits, you indicate that you have not installed a measuring device as required by the conditions of approval of your permits. This measuring device must be installed by the time our examiner makes the exam or your water rights cannot be confirmed by the issuance of a license. We are enclosing a list of the types of measuring devices approved by this office.

If you have any questions regarding the field examination, please contact our regional office in Boise.

Sincerely,

Re: Permits No. 63-7659 and
63-7660/Fairfield Mining
Company, Inc.

Dear Sir:

This office represents Fairfield Mining Company, Inc. who applied for the above indicated permits. Mr. LeRoy Washburn who was the President of that Company died a year ago, and his son Kenneth Washburn who has taken over the business is not able to find any reference to the above indicated permits and requested and did receive from your Department copies of the permits on October 27, 1977. These permits were forwarded to Mr. Washburn and he has advised on this date that he desires and extension of time as he has not completed the diversion works completely on the two areas in question, and for the further reason that he was not aware of these permits since his father was running the business, until he received a notice from the Department.

Therefore, we would request that he be allowed an extension of time pursuant to Idaho Code 42-204, for the reasons indicated above, namely, the death of his father and the fact that his father was running the business, and that Kenneth Washburn is now running the business, had no knowledge of the permits until he received the notice, and for the further reason that he has expended funds in attempting to complete the diversions required.

Sincerely yours,

John F. Varin

CERTIFIED MAIL

Re: Permit No. 63-7659 & 63-7660

Fairfield Mining Co., Inc.
744 East Weber Ave.
Stockton, CA

Gentlemen:

One of the conditions of approval of your water Permit No. 63-7659 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
