Dear Mr. Fleenor:

Pursuant to our telephone conversation of September 5, 1975,
I am herewith enclosing the Proof of Application of Water to Beneficial
Use for the above entitled water permit, which permit has been properly
signed and notarized.

Pursuant to our conversation I have eliminated any description of
a measuring device as this is not a requirement of the permit and as the
water flows through a one inch plastic pipe and is used for domestic pur-
poses only at a small one family cabin.

If you have any questions regarding this permit, please contract
me immediately.

Thank you for your cooperation and assistance.

Dear Mr. Shaw:

One of the conditions of approval of your water Permit No. 63-7645 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before October 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

P
We are in receipt of the application for permit which you submitted in the behalf of Charles C. Shaw. However, we find in reviewing this application that there is one item that must be clarified before we may begin its processing.

Under item #3, please fill in the point of diversion as to the nearest 40 acre subdivision.

Y
In reviewing this application, the point of diversion would seem to be located within the SE $\frac{1}{4}$ SW $\frac{1}{4}$. If, at a later date, it is determined that the point of diversion lies within a different 40 acre subdivision, you will at that time be able to amend this permit.

If we may be of any assistance to you in this, or any other matter, please do not hesitate to contact this Department.

Sincerely,

GARY L. PAGE
W. R. Supervisor

RE: Permit of Charles C. Shaw, Permit # 63-7645

Dear Mr. Page:

Regarding the above application for a permit, I have recently completed going over the ground with a U.S. Forest Service surveyor and engineer and have discovered that the point of diversion lies within a different forty acre subdivision than that applied for in the application. Would you please ammend the application under item number three to read SW $\frac{1}{4}$ of SE $\frac{1}{4}$ section 11, township 3N, range 13, E.B.M. instead of the SE $\frac{1}{4}$ of the SW $\frac{1}{4}$ of section 11, township 3N, range 13, E.B.M. Item 3B should also be ammended to read SW $\frac{1}{4}$ SE $\frac{1}{4}$, section 11, township 3N, range 13 E.B.M.

I hope this ammendment does not cause you any inconvenience. If you have any further questions in regard to this matter please feel free to contact me at any time.

Very truly yours,

Gary W. Shaw
