Dear Mr. and Mrs. Powell:

A representative of this Department made an examination of the works covered by your Permit No. 63-7615 on August 31, 1977, and has found the following:

Amount of water that can be recognized as beneficially used under
Idaho law: 0.20 cfs Source: groundwater

The maximum quantity diverted shall not exceed 23.7 acre feet per
year.

Point of diversion: NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 25, Twp. 5N, Rge. 1E, B. M.

Beneficial use:; Irrigation of 6 acres and domestic use within the
NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 25, Twp. 5N, Rge. 1E, B. M.

Priority date established: June 15, 1972

In order to issue a license, however, a request for removal of the measuring device requirement from your permit must be received from you within 10 days of this letter. Due to the smallness of the amount of water, a measuring device is not necessary, but we cannot remove the requirement without your request.

If you have any questions, please contact us.

Sincerely,

Dear Mr. & Mrs. Powell:

One of the conditions of approval of your water Permit No. 63-7615 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before August 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Well Problem

Ervin and I visited a well owned by Carol Powell who called the office concerning a decline in water levels.

Her well located in T5N-R1E, Section 25, NE $\frac{1}{4}$ SW $\frac{1}{4}$, on a low hill above Dry Creek Valley. The well is an 8 inch well cased to 60 feet open hole to between 115-125 feet; with a HP submersible pump for domestic and irrigation.

We measured her well (see schedule) and 2 others in the immediate area. No decline in water levels could be observed due to insufficient data. Mrs. Powell said she would have pump pulled, checked and lowered to see if this would correct the problem. If this didn't help, drilling deeper would be her only alternative.

Will check back on problem at a later date. 6LS

Gentlemen:

Enclosed you will find five (5) legal notices which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates, allowing ample time for you to submit us a galley proof for each notice, for our review before publication.

After sending us the galley proofs, proceed with the publication on the dates we have inserted, assuming the notices are correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notices on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted for each notice, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due after allowing all just credits and that no part of the same has been paid."
