THIS IS TO CERTIFY, that LAURA L. TRANSUE
of Boise, Idaho, has complied with the terms and conditions of Permit
No. 63-7576 issued pursuant to Application for Permit dated April 3, 1972,
and has submitted proof to the Department of Water Resources on June 13, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.47 cfs of water from Sand Hollow Creek,
tributary to the Boise River, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

Ref: Application for Water Permit
Identification No. 63-7576

Gentlemen:

This is to request that the special conditions outlined in your letter of June 16, 1972 requiring the installation of a measuring device for irrigation water be waived for the following reasons:

- 1: Water has been used to irrigate this land every year since 1918.
- 2: There are no controls governing the use of this water to any of the users.
- 3: There are two points of diversion from the main canal, which would require installing two weirs or digging a new ditch from the first diversion point.
- 4: The purpose for obtaining a title to this water is to be assured of a fair share for future use.

Since this is an un-incorporated system with no ditch rider to control the use of this water, I would sincerely appreciate your granting this request.

Yours truly,
