ORDER ADVANCING
DATE OF PRIORITY

This matter having come before the Department of Water Resources (Department) as a result of preparing Permit No. 63-7552 for issuance of a license, the Department finds, concludes and orders:

FINDINGS OF FACT

1. The Department approved Application for Permit No. 63-7552 to appropriate the public waters of the State of Idaho with a proposed priority of MARCH 29, 1972.
2. On APRIL 17, 1986 the Department advised the permit holder that a license examination fee was required before an examination could be conducted to confirm the extent of use developed under the permit. The examination fee was due on JUNE 16, 1986.
3. The license examination fee was received on AUGUST 11, 1987, 421 day(s) late.

MICROFILMED

JUL 23 1990

CONCLUSIONS OF LAW

1. The Director may advance the priority date of the permit one day for each day the license examination fee is late, pursuant to the provisions of Section 42-217, Idaho Code.

2. The date of priority of Permit No. 63-7552 should be advanced 421 day(s).

ORDER

IT IS HEREBY ORDERED that the date of priority of Permit No. 63-7552 is advanced to MAY 24, 1973.

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 63-7552.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before March 1, 1977.

That he has heretofore performed the following work described under said permit:
Well, pump

Costing \$

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: When well was first drilled, enough water was available, but there
is now only enough for domestic use. Due to lack of finances more time is needed before
the well can be drilled further to find more water.

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to March 1, 1982.

Discussion

SINCE the Pump was FILLING A PRESSURIZED 200 GAL STORAGE TANK AND WAS TURNING ON AND OFF FREQUENTLY the 5 GALLON BUCKET measurement should be thrown out. The Pump theoretical and SPRINKLER HEAD CALCULATION is closer to the ACTUAL CAPACITY. **MICROFILMED**

MEMORANDUM

TO: FILE 63-07552
FROM: STEVE LESTER
DATE: FEB. 20, 1990
SUBJECT: LICENSING

The permit includes 0.10 cfs irrigation, 0.03 cfs domestic (1 home), and 0.02 cfs stockwater. The examiner found internal domestic use at the home and 1/2 acre of irrigation.

One could argue that the irrigation remains within the single-family domestic definition. If so, the maximum allowable amounts to license would equal 0.04 cfs and 1.2 afa. However, I think a more reasonable recommendation is found in the examiner's conclusions. The permit implies internal domestic use and irrigation for external use. Also, the owners paid a \$50 exam fee. They will probably be more impressed with a domestic and irrigation license than with a simple D/1 license. Note that the data supports the 0.05 cfs license recommendation. The Regional Office supports 0.02 cfs for up to 1 acre instead of limiting the rate based on less than 1 acre ($.5 \times .02 = .01$).

During a telephone conversation today with Mr. Olsen, he indicated an ongoing effort to irrigate additional acres described in the permit. He understands that 63-07552 cannot be licensed for development that occurs after the 6/88 field exam. He intends to file a new application for the extra land. A new irrigation right would compliment a domestic & irrigation license via 63-07552.

Department of Water Resources

Dear Mr. & Mrs. Olsen:

We have received the \$25 check submitted for the above-referenced permit. However, before we can accept this check more information is needed.

This permit was issued for .15 cfs for which the exam fee is \$50. This fee covers .05 to .20 cfs. For .04 cfs (18 gpm) and under this, there is no fee.

We are returning your \$25 check along with the enclosed exam fee information sheet which we request you complete and return with the appropriate fee. The amount of water you base your fee on should be the amount you are actually using.

This exam fee sheet and fee should be submitted as soon as possible to keep your permit in good standing. Please feel free to contact us if you have any questions.

Dear Permit Holder:

LAPSE NOTICE
License Examination Fee

You are hereby notified that under the provisions of Section 42-217 and 42-218a, Idaho Code, the above referenced permit will lapse and be on no further force nor effect on June 17, 1987, for failure of the permit holder to submit either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

Provisions of § 42-217, Idaho Code, and the Beneficial Use Examination Rules and Regulations provide that failure of the permit holder to submit either the fee or an acceptable field examination report within one (1) year and sixty (60) days after notification by the director that the submittal is due is cause for the director to reject the proof of beneficial use and lapse the permit. The Department notified you of the required submittal on April 17, 1986.

The lapsed permit can be reinstated upon a showing of reasonable cause for late submittal of proof of beneficial use, if you submit to the Department on or before August 17, 1987, either the license examination fee or an acceptable field examination report prepared by or under the supervision of a certified water right examiner.

If you have questions, please contact any office of the Department.

EXAMINATION FEE REMINDER

Dear Permit Holder:

Earlier this year you were mailed a certified letter by our state office, which described a new law related to your water right permit. The water right permit to which this law applies is identified by the number at the top of the mailing label above. The purpose of this letter is to act as a reminder of the new law and to warn you that your permit is now losing priority daily.

As described in the certified letter, House Bill 671 enacted by the 1986 Idaho Legislature requires payment of a fee before this Department can conduct the field examination needed to issue a license confirming use of water under the permit. As an alternative to submitting the fee, the Department will accept a field examination report completed by a certified water right examiner from the private sector. The certified letter described the procedure for selecting the latter alternative, whereby you initially notify us regarding which water right examiner you have selected, and provide a statement from the examiner as verification.

The date of priority of your water right permit is now being delayed one day for each day the response is late. Also, if the fee or completed field examination report are not submitted within a year from the sixty-first day after the certified letter was mailed, the permit may be lapsed and rendered invalid. The fee, or notice that a private field examination will be conducted, should be submitted as soon as possible if you wish to maintain your permit in a valid status.

Enclosed please find an Examination Fee Information Sheet, with the License Examination Fee Schedule printed on the back. This sheet should be submitted if either the fee payment option or the private examination option is selected. If you have questions or desire assistance in this matter, please feel free to contact this office.

EXAMINATION FEE NOTICE

Dear Permit Holder:

Department records show that proof of beneficial use has been submitted for the above-referenced permit, but that a field examination has not yet been conducted to determine the extent of beneficial use of the water for licensing purposes.

House Bill 671 (effective April 4, 1986) enacted by the 1986 Idaho Legislature requires the payment of a fee before this department can conduct the field examination needed to issue a license confirming use of water under the permit. This letter is notification that the license examination fee is due within sixty (60) days of the date of this letter. The examination fee information sheet (enclosed) must be returned with the fee.

As an alternative to submitting the fee, the department will accept a field examination report completed by a certified water right examiner from the private sector. If you choose to have the examination done by a certified water right examiner, you need not submit the license examination fee to the department, but you must within sixty (60) days of the date of this letter return to the department, the examination fee information sheet showing appropriate information together with a statement from the certified examiner to verify that you have retained a certified examiner to conduct the field examination. If you choose this alternative, a completed field examination report must be submitted within one year of the date of this letter. You cannot later change your decision to use this alternative and submit the fee to the department to conduct the field examination, but you may hire another certified examiner.

MICROFILMED

JUL 23 1990

Certified water right examiners are licensed engineers, geologists, or land surveyors certified by the department to conduct water right examinations. The procedure for certifying examiners results from the recently enacted HB 671 and is being developed at this time. A listing

of certified water right examiners will be available from this department when examiners have been certified.

If your permitted use, in fact, has already been examined by the department and you have not asked to have the examination repeated, the fee requirement is not applicable to your permit. If you believe this is the case, please contact the department.

The license examination fee is to be based on the amount of water you indicate you have developed, as listed in item 6 on the examination fee information sheet. The amount of water on which the examination fee is based can be less than the permitted amount, if less water has been diverted and beneficially used. The licensed amount of water, however, will not exceed the amount you claim on the examination fee information sheet. The enclosed license examination fee schedule shows a listing of applicable fees.

FAILURE TO SUBMIT WITHIN THE SIXTY (60) DAY PERIOD, THE FEE OR THE STATEMENT THAT A CERTIFIED EXAMINER HAS BEEN RETAINED TO MAKE THE FIELD EXAMINATION, WILL BE CAUSE TO ADVANCE THE PRIORITY OF THE PERMIT ONE DAY FOR EACH DAY THAT THE FEE SUBMITTAL IS LATE.

FAILURE TO SUBMIT THE FEE OR THE COMPLETED FIELD EXAMINATION REPORT WITHIN A YEAR WILL BE CAUSE TO CONSIDER THE PROOF OF BENEFICIAL USE TO BE INCOMPLETE AND TO LAPSE THE PERMIT.

The attached examination fee information sheet and the fee may be submitted to the following department offices.

Dear Mr. & Mrs. Olsen:

One of the conditions of approval of your water Permit No. 63-7552 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
