Dear Mr. & Mrs. Ramsay:

One of the conditions of approval of your water Permit No. 63-7535 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1978. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Booker:

Please find enclosed 2 Applications for Permit to appropriate Public Water of the State of Idaho. In all these two applications cover 7 springs, 6 of which are located on Public Lands under the control of the Department of Agriculture, Sawtooth National Forest.

In accordance with paragraph 9c of the instructions I am not enclosing permission for appropriation of this water as the springs are not wholly contained on public lands. They do flow into the vested lands as described in the application.

If you need further information, please advise.

Thanks kindly.

Yours very truly,
