Dear Mr. Obendorf:

One of the conditions of approval of your water Permit No. 63-7533 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

SUBJECT: Special Use Permit

I contacted the Bureau of Land Management District Office, concerning Mr. Obendorf's Special Use Permit. I was told that the Bureau of Land Management Boise District Office will not process any new applications for use of Federal Lands by the public, pending a survey of Federal Lands to determine the "highest and best" use of those lands. The survey may take a "long, long" time to complete, because of the shortage of man-power.

The land requested by Mr. Obendorf is presently up for survey and may be completed some time in the near future.

COMMENTS: D/W approx. 300 feet. Primary aquifer is sand & pea gravel at 275-310 feet. Specific capacity of nearby well is 40. Water levels show some slight fluctuation but no net decline. Appears that aquifer should be capable of supporting some additional development.
