10. Remarks Water will be used for night irrigation or park. The amount applied for exceeds that normally used for irrigation but this is necessary to insure maximum public use during daylight hours and is consistent with previous applications approved for other city parks. The high application rate is necessary to provide peak irrigation requirements during the maximum growing season within the limited time available for irrigation during long daylight hour days in the summer. This Green Belt park area is a long narrow strip of land along the north side of the Boise River from Americana Blvd. to 9th Street. This area is currently owned partially by the City of Boise and partially by others. The City is in the process of making the necessary arrangements to acquire the balance of the land from 13th Street to 9th Street. The well will be located on property presently owned by the City. The planned width of the irrigated area is approximately 75 feet but may be as much as 100 feet in other areas. The configuration of the area to be irrigated makes it desirable to utilize the maximum water available for irrigation of the maximum possible area within the short time available for irrigation, thereby reducing the number of controls, etc. for the system.

Gentlemen:

One of the conditions of approval of your water Permit No. 63-7523, 63-7524 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.
